MEMORANDUM

Agenda Item No. 7(R)3a

TO: Hon. Chairperson Barbara Carey-Shuler, Ed.D. and Members, Board of County Commissioners

DATE: March 16, 2004

FROM: George M. Burgess
County Manager

SUBJECT: Request to Advertise: Countywide Two-Year Contract For Inspection And Testing Of Sanitary Sewer Laterals, Contract No. S-782

The attached **Request to Advertise for Bids** has been prepared by the Miami-Dade Water and Sewer Department (Department) and is recommended for approval.

PROJECT: Countywide Two-Year Contract for Inspection and Testing of Sanitary Sewer Laterals

PROJECT NO.: S-782

PROJECT LOCATION(S): Anywhere within the limits of Miami-Dade County, Florida

COMMISSIONER AND DISTRICT: Not Applicable

PROJECT DESCRIPTION: The Department is conducting a lateral Pilot Test Program to determine the effectiveness of sewer lateral inspections and repairs for the reduction of infiltration and inflow in the collection system during storm events. The Pilot Program is required to be conducted to meet the conditions of the Second Final Partial Consent Decree. The Pilot Program consists of two phases; Phase 1 is for Inspection and Testing, and Phase 2 is for Repair Work. This contract S-782 is for Phase 1 only. Approximately thirty (30) wastewater collection basins throughout Miami-Dade County, Florida have been selected for the program.

The Project consists of furnishing all labor, material and equipment necessary to perform cleaning and internal television inspections, air pressure (with or without smoke) and/or hydrostatic testing on approximately 5,000 sanitary sewer laterals, as ordered by the Department, during the duration of the contract.

The work also includes the following: documenting and reporting on the conditions of the laterals and house sewers; installation/replacement of sanitary lateral cleanouts in order to gain access to the lateral for inspection purposes; and restoration associated with the installation of the cleanouts, or access pits. If no cleanout exists, the Department may require the Contractor to expose and open the lateral to gain access for pressure testing and Close-Circuit Television (CCTV) investigation. Also, all other appurtenant and miscellaneous related items and work required for a completed Project.

The unit prices bid will be used for uniform comparison amongst the bidders, and the bids will be evaluated based upon the lowest total amount bid in the Proposal. The contract will be awarded to only one contractor for an aggregate amount of up to three million three hundred thousand dollars ($3,300,000) for a twenty-four month period. The contract will terminate upon the depletion of the three million three hundred thousand dollars ($3,300,000), or the expiration of the 24-month period.

PROJECT DESCRIPTION: (continued)	It is the intent of the Department to obtain a complete functional, and satisfactory installation under this project, therefore, any items of labor, equipment or materials which may be reasonably assumed as necessary to accomplish this end shall be supplied whether or not they are specifically shown on the Plans or stated in the Specifications. The Contractor shall provide all sheeting, shoring, bracing and all other labor, material or equipment required to preclude damage to, or loss of functionality of, any existing facility or system.
