RE: Certificate of Competency No. 11-0912.02
Structural Steel and Misc. Metals

Dear :

Thank you for participating in the **Miami-Dade County's Fabricators Certification Program** administered by the Product Control Section of the Building and Neighborhood Compliance Department. Enclosed please find the above referenced Certificate of Competency.

Note that all Certificates of Competency are issued every year following the County's fiscal year period running from October 1st to September 30th. For the next renewal period, applicants will need to submit an application for renewal and pay the fee of five hundred dollars ($500.00) to cover the next year period. The new application needs to accompany any changes or updates made to your quality control manual implemented during this time.

In addition to the above, **Trade Associations** certified under this program must also submit at the time of renewal the following two items:

1. An Updated list of participating members in the association;
2. A Copy of all the year's quality control inspection reports conducted by your association for each of the participant members.

Thank you for your continued cooperation in this matter. Should you have any questions or require further assistance from our Office, please do not hesitate to contact us at (305) 375-2901.

Respectfully,

Americo Segura
BNC- Quality Assurance Unit Supervisor

FILING INSTRUCTIONS

Applications for the issuance of Certificates of Competency (CC) must be completely filled out and signed by the manufacturer/fabricator of construction materials or product and/or system, wishing to supply said material, product and/or system for possible use in the Miami-Dade County jurisdiction, where said material, product and/or system does not have and/or it is not required to have an NOA; or by a trade association wishing to be approved to participate in a testing sharing program for its manufacturer members.

The applicant must submit with this application all documents listed in the applicable checklist(s), along with the applicable fee. The names of individual in charge of the quality control program and the name(s) of engineer(s) performing follow-up services are required to be listed on this application. If applicable, provide all relevant certifications regarding product(s), systems of construction and/ or Quality Assurance Program. A copy of the certification(s) must be submitted with this application. Also, if applicable, when the applicant has a contractual agreement with a third-party regarding quality assurance audits, evidence of these audits must be submitted to our Office upon request.

See the 'Product Control Application for NOAs and Laboratory Certification' and the 'Product Control Approval Application for Hourly Rate Services,' for additional instructions regarding the Product Control Approval Process.

All Certificates of Competency (CC) expire on September 30th.
