Memorandum

MIAMI-DADE COUNTY

Date: July 1, 2008

Agenda Item No. 8(O)(1)(B)

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Resolution Authorizing Modification to Contract 5745-4/08-4: Transit Vehicle Parts and Repair Services, Pre-qualification of Vendors

---

Recommendation

It is recommended that the Board of County Commissioners approve the attached resolution authorizing a modification to contract No. 5745-4/08-4: Transit Vehicle Parts and Repair Services, Prequalification of Vendors.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The funding source for this contract includes Federal (36%), Operating Revenue (44.8%) and PTP Surtax (19.2%) funds. It should be noted that funds are to be expended on this contract only if the department's budget can support expenditures.

Track Record/Monitor

There are no known performance issues with the vendors recommended for award in the accompanying item. Miami Dade Transit's contract manager is reflected in the attachment.

Delegated Authority

If this item is approved, the County Mayor or his designee will have the authority to exercise in his discretion subsequent options-to-renew and other extensions in accordance with the terms and conditions of the contract listed in the accompanying item.

Background

At its meeting of May 6, 2008, the Board deferred this contract modification and directed staff to review the applicability of the Living Wage Ordinance (Ordinance). As directed, staff reviewed the applicability of the Ordinance and has determined that the Living Wage does not apply to this contract. This contract provides Miami Dade Transit (MDT) with parts, component repair and on/off site repair services to its Metrobus fleet and support equipment. However, the repair services provided under this contract are not considered routine maintenance services as stipulated in the Ordinance.

Due to federal funding of this contract, no measures have been applied to this contract.

The current contract expires July 31, 2008. A long-term replacement contract is currently being solicited. This modification will ensure continuity of supply of parts necessary to

properly maintain the fleet. This modification will provide additional funding in the amount of $16 million and an additional term of eight months through March 31, 2009.

REASON FOR CHANGE

Authorization is necessary for additional time and spending authority for Miami-Dade Transit (MDT) to purchase replacement parts, component repair and on/off site repair services for transit vehicles.

In addition, authorization is requested to use People's Transportation Plan (PTP) surtax funds for MDT. The PTP allocation is capped at 19.2 percent based on the approved allocation formula. Per Ordinance No. 02-116, the use of PTP surtax funds requires Board approval, regardless of the dollar amount.

MDT uses this contract to purchase replacement parts, component repair and on/offsite repair services for the MDT bus fleet and support equipment. These parts and services are critical to ensuring that buses are serviced in accordance with operating standards to prevent accidents, breakdowns, and/or downtime. Parts such as compressors, starters, radiators and alternators are subjected to continuous use and must be serviced and/or replaced regularly to maintain an environmentally complaint status.

This modification will allow MDT to continue to procure parts and services for an additional six months until the long term contract is awarded by November 2008. The modification amount was based on current and past expenditures.
