Memorandum

MIAMI-DADE COUNTY

Supplement to
Agenda No. 11(A)4

Date: March 2, 2010

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Supplemental Item: Resolution Directing the County Mayor or County Mayor's Designee to Install Mile Markers along the Rickenbacker Causeway

---

At the February 10, 2010 Transit, Infrastructure & Roads Committee Meeting, a request was made for a cost analysis associated with the subject item.

The Public Works Department is currently analyzing the area in order to determine the total number of signs and their location along Crandon Boulevard, extending from the entrance to Bill Baggs State Park through the Village of Key Biscayne and Crandon Park, and along the Rickenbacker Causeway terminating at Brickell Avenue. Placement of these mile markers may vary depending on site specific conditions but are anticipated to be placed as close as every tenth of one mile in non-residential areas counting upward from the State Park.

These mile markers are made of standard roadway sign material, and will be mounted on signposts along both sides of the roadway. The cost of the in-house sign installation effort averages $150/sign for a total cost of approximately $13,500, which will be covered with Causeway funds. Assuming adoption of the subject Resolution by the Board, this work will be accomplished utilizing existing County staff and is expected to begin by the end of March.

Assistant County Manager
