Memorandum

MIAMI-DADE COUNTY

Date: June 3, 2008

To: Honorable Chairman Bruno A. Barreiro
And Members, Board of County Commissioners

Agenda Item No. 8(F)(1)(F)

Resolution No. R-636-08

From: George M. Burgess
County Manager

Subject: Procedure for Equitable Distribution of Tangible County Surplus Property

---

The following procedure has been prepared in response to Resolution R-244-08, sponsored by Commissioner Dorrin D. Rolle, directing the County Mayor or his designee to develop a procedure to establish a more equitable distribution of County surplus property to eligible Community Based Organizations (CBOs).

Analysis of Current Process:

Currently, donations to CBOs are on a first-come, first-serve basis. Requests for sedans, pickup trucks, and cargo vans can typically be accommodated in a relatively short time span. However, the high demand for passenger vans, coupled with the limited number retired on an annual basis, has resulted in a disparate distribution of passenger vans by district and a waiting list that is estimated to take 3-5 years to exhaust. Attachment A lists all surplus property donations through December 31, 2007, and Attachment B lists the pending list of donations as of January 15, 2008.

The table below indicates the passenger vans donated by district since 2001, as well as the pending requests by district:

District	Vans Donated Since 2001	Pending Requests for Vans
1	4	2
2	6	5
3	9	9
4	0	3
5	5	0
6	3	2
7	3	5
8	1	1
9	1	3
10	1	0
11	12	3
12	0	2

Proposed Process:

The resolution specifically states that "the new procedure should give preference to community based organizations located within Commission districts that have not had any community based organizations receive County surplus property in a long period of time...and community based organizations located within Commission districts that have fewer community based organizations on the County surplus property waiting list."

As such, staff recommends immediately eliminating the existing waiting list and establishing a new process that would offer available passenger vans first to those districts that have not donated any passenger vans in the past (Districts 4 and 12) or those that have only donated 1 (Districts 8, 9, 10, and 13), with the order amongst the groups determined by a lottery. These districts should be given two opportunities each, following the same established order, so they can catch up to the next group of districts that have donated only 3 passenger vans (Districts 6 and 7). Vans would then be offered to those districts, via lottery, and lastly to District 1, who has donated 4 vans. Following those allocations, a new lottery would be conducted with all 13 districts to determine the order of future donations. A new lottery would be conducted once all 13 have donated a van in accordance with the established order. Lottery selection would be conducted by the Office of the Chairman in a publically advertised Sunshine meeting.

All other vehicle types (sedans, pickup trucks, and cargo vans) would be allocated utilizing a waiting list administered by the General Services Administration's Fixed Assets Manager. The only substantive difference from the current methodology would be the requirement that each request be submitted with the name of the organization to receive the vehicle. This would be to eliminate the "to be determined" requests created as place holders.

SCOPE: This proposed procedure has County-wide impact.
