OF COUNTY COMMISSIONERS
MIAMI-DADE COUNTY, FLORIDA**

Memorandum

Date: (Second Reading 2-2-10)
December 15, 2009

To: Honorable Chairman Dennis C. Moss
And Members, Board of County Commissioners

From: George M. Burgess
County Manager 

Subject: FY 2008-09 End-Year Supplemental Budget

Agenda Item No. 7(E)

Ordinance No. 10-12

Recommendation

It is recommended that the Board approve the attached supplemental budgets in accordance with the Home Rule Charter and Section 129.06 of the Florida Statutes so that budgets will reflect changes in actual expenditures that have occurred since the Board adopted the FY 2008-09 Budget in September 2008.

Scope and Fiscal Impact/Funding Source

Detailed below.

Background

A supplemental budget is required by the Miami-Dade County Charter and state law when expenditures exceed budgeted appropriations. To meet this requirement, supplemental budgets for various funds are needed to reflect extraordinary or unplanned events which occurred since the FY 2008-09 Budget was adopted in September 2008. As we reported on March 9, 2009, certain proprietary operations require supplemental budget adjustments due to changes such as federal and state grant funding, increased utility costs, acquisition of new facilities, and other unanticipated events.

The revisions incorporated in this supplemental budget include adjustments for federal, state, and other grants (Community Action Agency and Homeless Trust) and increased expenses due to higher than anticipated demand for services or contractual obligations (Enterprise Technology Services Department). Some of the adjustments included in the supplemental budget are technical in nature. The adjustments included in this item equal \$84.544 million, which is 1.70 percent of the total operating budget.

General Fund

The General Fund requires a supplemental budget of \$4.245 million. The additional revenue is needed to fund the carryover for the respective offices of the Board of County Commissioners (BCC). This supplemental budget is being funded by available general fund carryover in excess of the FY 2008-09 Adopted Budget (\$2.972 million Countywide, \$1.273 million UMSA). A related item on this agenda allocates this funding to the various offices of the BCC.

Enterprise Technology Services

The Enterprise Technology Services Department requires a supplemental budget in the amount of \$359,000 in Fund 100, Subfund 104 to provide sufficient expending authority for the transfer of higher than budgeted carryover and revenue generated by the traffic ticket surcharge, which contributes to fund the operation and maintenance of the 800 megahertz radio system.

Grants Coordination

The Office of Grants Coordination will require a supplemental budget in the amount of \$1.091 million in Fund 720, Subfund 720 as a result of additional federal grant funding received for the Ryan White Program, which is utilized to fund services for individuals who are infected with HIV/AIDS.

Homeless Trust

The Homeless Trust requires a supplemental budget in the amount of \$750,000 in Fund 720 for federal and state grant dollars received and expended in excess of originally budgeted levels for FY 2008-09. The grants include the Homeless Prevention and Rapid Rehousing Program (\$405,000), U.S. HUD Supportive Housing Program (\$149,000), the State Challenge Grant (\$96,000), and the State Jail Diversion GAP Grant (\$100,000). These federal and state grant dollars funded a full range of homeless services including homeless prevention and outreach services, transitional and permanent supportive housing and supportive services for homeless individuals and families allocated through competitive processes.

Housing Agency

The Housing Agency requires a supplemental budget in the amount of \$2.295 million for additional expenditures associated with the Public Housing Program. This is covered through additional federal grant funding.

Water and Sewer

The Miami-Dade Water and Sewer Department will require a budget supplement of \$75.804 million to provide sufficient expenditure authority necessary in the High Level Disinfections (HLD) Construction Fund resulting from expedited construction projects at the South District Wastewater Treatment Plant. Transfers from the Wastewater Plant Expansion Construction Fund budgeted for future projects will be used to fund the additional expenditures.

Debt Service

Certain projects relating to receipt and transfer of revenue for debt service or projects for actual payment of debt service including maintenance of reserves require a supplemental budget for transfers of revenue in excess of budget or for marginally higher interest payments.

Project 206300, the Convention Development Tax (CDT) Series 1997 A, B, and C Revenue Fund requires a supplemental budget of \$4.332 million to reflect \$1.102 million of additional Omni tax increment receipts and \$3.23 million of additional CDT swap receipts. These additional funds were transferred to the debt service reserve account in project 206301 and to the CDT Series 1997B debt service reserve account in project 206401.

Project 211101, Stormwater Utility Revenue Bond Program Revenue Project, requires a supplemental budget of \$68,000. The additional transfer included \$43,000 to debt service project 211102 and \$25,000 to debt service project 211104 to maintain cash balances as required by bond ordinance. The additional transfers were funded by the Stormwater Utility.

Projects 213520 and 213521, Series 2004 A Capital Asset Floating Rate Bonds debt service projects for certain equipment purchases, require a supplemental budget of \$8,000 and \$12,000 respectively to fund marginally higher interest rate payments on floating rate (tied to the consumer price index) debt service. The additional funding was provided through higher than budgeted cash carryover in each project.
