MIAMI-DADE

Lands Under Pressure for Conversion to Non-Agricultural Uses

Major Power Line Criteria

Miami-Dade County
Agriculture & Rural Area Study

This map represents one of the criteria used for Lands Under Pressure for Conversion to Non-Agricultural Uses suitability. The other criteria are: Wetlands, Wellfield Protection Areas, Environmentally Sensitive Areas, and Population Change for 1999-2020. For more information see the Suitability Criteria and Map Description documentation.

Data Sources:
Roads: Miami-Dade County, 1998.
Streams and Canals: USGS, 1994.
Water: SFWMD, 1995.
