MIAMI-DADE COUNTY, FLORIDA

Memorandum

MIAMI-DADE COUNTY

Date: October 5, 2010

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Agenda Item No. 18(A)(2)

Resolution No. R-1035-10

Subject: United States Department of Justice (DOJ) Mental Health Collaboration Program

---

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the action of the County Mayor or County Mayor's designee in applying for United States Department of Justice (DOJ) Mental Health Collaboration Program funds in the amount of $250,000. It is further recommended that the Board authorizes the County Mayor or County Mayor's designee to receive and expend grant funds, and to execute such contracts, agreements, Memoranda of Understanding (MOU), and amendments, after approval by the County Attorney's Office, as required by program guidelines. It is also recommended that the Board authorizes the County Mayor or County Mayor's designee to apply for, receive, and expend additional funds that may become available during the term of the grant; to file and execute any amendments to the application for and on behalf of the County; and to exercise amendments, modifications, renewal, cancellation, and termination clauses of any contracts and agreements, subject to the approval of the County Attorney's Office.

Scope

The scope of this project is countywide. The Miami-Dade Corrections and Rehabilitation Department (MDCR) will implement a United States Department of Justice Planning and Implementation Project to assist misdemeanor and nonviolent arrestees that are found to be mentally-disordered based upon the results of a medical evaluation, and are placed in the County's Mental Health Diversion Facility (MHDF) for psychiatric stabilization. Project services will be provided through a contract with the South Florida Behavioral Health Network (SFBHN), a consortium of 29 provider service organizations.

Fiscal Impact/Funding Source

Approximately 1,200, or 20% of MDCR's detainees are considered to be diagnosed with severe mental illness (SMI) and are currently only provided psychiatric stabilization services in the form of medications. This project will enable MDCR to coordinate psychological treatment services to be provided during the incarceration period. It is expected that these services will help reduce recidivism of the mentally-disordered population. A local required cash and in-kind match in the amount of $129,500 will be provided by MDCR and the SFBHN.

Track Record/Monitor

MDCR, with its extensive history of managing Department of Justice (DOJ) grants, will implement and manage the project. Specifically, MDCR will handle the disbursement and expenditure of grant funds, and manage programmatic and fiscal reporting in accordance with project reporting and auditing procedures stipulated by the DOJ.

Background

MDCR has applied for this grant in its efforts to address the service needs of the mentally-disordered population that becomes involved in the criminal justice system. With this grant opportunity, the County will establish an agreement with SFBHN, the State of Florida contracted service provider coalition, to deliver psychological therapeutic services during the detention period. These services will include individual and group therapies, and psychological crisis management services, using a "best practices" approach. Partnering with an experienced community-based provider to provide the "in-jail" psychological services is also expected to increase the likelihood that detainees will continue treatment after release from jail and reduce recidivism.

The target population for the project will be misdemeanor or nonviolent arrestees that are found to be mentally-disordered based upon the results of a medical evaluation. It has been determined that approximately 30% of the acute and sub-acute psychiatric population daily census, or approximately 100 individuals, will meet the target population criteria on a daily basis.

The short turnaround time imposed by the application deadline did not allow sufficient time for the processing of the resolution, and its submittal to the Board prior to submission of the application.
