## RECONCILIATION OF THE CHANGE IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2009

(in thousands)

Net change in fund balances - total governmental	funds
--	-------

442,906

\$

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 281,226	
Depreciation expense	 (139,445)	
Excess of capital outlay over depreciation expense		141,781

The issuance of long-term debt provides a source of current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the statement of net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, but these amounts are deferred and amortized in the Statement of Activities. In the current year, these amounts consist of:

Bonds and notes issued, including premium of \$67	\$ (1,002,163)	
Bond issuance costs paid during the current year	16,263	
Amortization/reduction of bond premium and deferred charges on refunding	3,080	
Amortization/reduction of bond issuance costs	(1,173)	
Total bond proceeds and related transactions	 	(983,993)

The repayment of long-term debt is reported as a use of financial resources in governmental funds, but reduces long-term liabilities in the Statement of Net Assets. In the current year, these amounts consist of:

Bond, loans and notes principal retirement 205,515

Some unearned revenues in the fund statements meet the recognition criteria in the statement of activities. In FY 2009 there was a decrease in the amount recognized.

(26,476)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Interest accreted on capital appreciation debt	\$ (2	29,885)
Increase in compensated absences	(*	2,748)
Net increase in inventories		4,273
Net increase in other long-term liabilities		(7,017)
Total additional expenses		(45,377)
