To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Contract Award Recommendation in the Amount of $826,300.00 between R & D Electric, Inc., and Miami-Dade County for the People's Transportation Plan (PTP) Project Entitled Street Lighting Contract – Countywide **(Project – Miscellaneous Construction Contracting (MCC) 7040 Plan, Request for Price Quotation (RPQ) No. 20100499)** and Authorizing the Use of Charter County Transportation Surtax Funds

---

Recommendation

The attached Contract Award Recommendation for the PTP Street Lighting Contract - Countywide (Project – MCC 7040 Plan, RPQ No. 20100499), in the amount of $826,300.00, between R & D Electric, Inc. and Miami-Dade County has been prepared by the Public Works Department (PWD) and is recommended for approval. Proceeds from the Charter County Transportation System Sales Surtax (the Surtax) will be used to fund this project, therefore, approval by the Board of County Commissioners (BCC) and Citizens' Independent Transportation Trust (CITT) is required.

Scope

The work to be performed under the life of this contract includes street light installation at various locations within Miami-Dade County.

Fiscal Impact/Funding Source

The fiscal impact will be approximately $826,300.00 and will be funded from the Surtax. The proposed improvements qualify under the allowable work categories included in the PTP Neighborhood Improvements Section. Specific funding for this project will be allocated from the respective Commission District PTP yearly allocations. This is a work order based contract with a base contract amount of $730,000.00. The total recommended award amount is $826,300.00, which is inclusive of the contingency and dedicated allowances. This contract award will have no impact on the current or future budget, since there are street lighting repair and maintenance contracts in place. The estimated operation and maintenance (O&M) costs per street light is approximately $13.15 per month and will be funded through the Department's General Funds and Secondary Gas Tax.

Delegation of Authority

No additional authority is being requested within the body of this contract.

Track Record/Monitor

R & D Electric, Inc. is currently performing work for PWD at a satisfactory level as reported by the Project Manager. PWD has reviewed the Office of Capital Improvements (OCI) database and found 23 awarded construction contracts; one (1) contract from each of the following Departments, Parks & Recreation, Transit, and Police; two (2) from the Water and Sewer; three (3) contracts from each of the following Departments, Seaport, General Services Administration, and PWD; and nine (9) contracts from Housing. The referenced database also lists a total of four (4) contractor performance evaluations with an overall performance rating of satisfactory performance (3.7), out of a possible superior performance (4.0) rating; the remaining contracts are still under construction. The Department of Small Business Development's (SBD) History of Violation's report lists no violations for this contractor.

Following PWD's standard operating procedures, after award of this contract, a pre-construction meeting will be scheduled. Throughout all PTP projects, the responsible staff person in PWD will be the PTP Coordinator, Mr. Frank Aira, P.E. Following completion of the award process, the project will be assigned to Mr. George Brown, Project Manager, for day to day responsibilities.

According to the Florida Department of State, Division of Corporations, R & D Electric, Inc., Company Principals are: Rafael Echarri and Daniel Echarri, and the Company's address is listed as: 7330 NW 12 Street, Miami, Florida 33126.

Background

In an effort to carry on the success of the PTP Neighborhood Improvements initiative, PWD continues to take advantage of various contracting mechanisms such as the subject MCC process available under OCI contract MCC 7040 Plan. Through this process, PWD forwards the RPQ, by way of facsimile transmission, to a pool of pre-qualified Community Small Business Enterprise (CSBE) contractors for the subject trade. Additionally, PWD advertises the project in the Daily Business Review and all solicitations are available on-line through the Miami-Dade County portal under the "Procurement Solicitations" link. Interested contractors prepare their bids according to the Job Order Contracting (JOC) process, whereby the County establishes unit prices for the pay items in accordance with industry averages. The contractors submit their bid as an overall percentage factor of the pricing established by the County. The project award evaluation is based upon the lowest percentage submitted by the responsive, responsible bidder for the project.

PWD staff determined that the scope of work for this project qualified for a CSBE set-aside (Levels I, II, and III) designation. Therefore, on June 16, 2010, PWD forwarded an RPQ for the PTP Street Lighting Contract, utilizing the OCI contract MCC 7040 Plan, to a list of 30 pre-qualified firms. A total of five (5) firms purchased contract documents and four (4) firms proffered a bid.

On July 21, 2010, R & D Electric, Inc., proffered the lowest responsive, responsible base bid of 0.70 percentage factor, 30% below the County's cost estimate; and the second lowest bidders, Statewide Electrical Services, Inc., Brailly Electric Corp., and A. Bernal Services Corp. , proffered a base bid of 0.78 percentage factor, 8% over the lowest bidder. As a result, on August 4, 2010, PWD issued a recommendation of award for RPQ No. 20100499 to R & D Electric, Inc., with the stipulation that approval of this project must be obtained from the BCC and the CITT due to guidelines associated with the funding source.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, equipment and tools to perform all operations necessary for the installation of the new street lighting system. The work shall consists of the installation of light poles, conductors, conduits, pull boxes, load center and the removal of any existing lighting system and all ancillary work necessary to complete the project
