MEMORANDUM Agenda Item No. 3(D)

TO: Honorable Chairman Joe A. Martinez and Members, Board of County Commissioners

DATE: July 12, 2011

FROM: R. A. Cuevas, Jr. County Attorney

SUBJECT: Resolution authorizing accounts receivable adjustment for multiple fiscal years of certain Miami-Dade County departments' uncollectible accounts receivable in the aggregate of $34,832,491, pursuant to Administrative Order 3-9

The accompanying resolution was prepared by the Finance Department and placed on the agenda at the request of Prime Sponsor Commissioner Lynda Bell.

R. A. Cuevas, Jr.

Memorandum

MIAMI-DADE COUNTY

Date: July 7, 2011

To: Honorable Chairman Joe A. Martinez,
and Members, Board of County Commissioners

From: Alina T. Hudak
County Manager

Subject: Resolution Authorizing Accounts Receivable Adjustments

---

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the accounts receivable adjustment of accounts determined to be uncollectible in accordance with Administrative Order 3-9. These accounts amount to $34,832,491. This authorization is necessary to eliminate the receivables from the County's books in compliance with generally accepted accounting practice.

Scope

The impact of this agenda item is countywide since it affects multiple County departments, some of which provide countywide services.

Fiscal Impact/Funding Source

This item does not have a fiscal or funding impact because the debts have been deemed uncollectable but may still be pursued. County departments with high volumes of accounts receivable regularly reserve a percentage of the receivables for doubtful accounts/bad debt expense. The adjustments to accounts receivable items for departments presented in this item have been charged to bad debt expense in order to properly and fairly match revenues and related expenditures to the appropriate accounting period. Fund balances have already been adjusted to reflect the bad debt expense. There is no fiscal impact to any of the County funds, and this item does not impair the County's ability to continue pursuing any and all remedies permitted by law.

Track/Record Monitor

County departments are responsible for tracking and monitoring accounts receivable. The County uses a number of mechanisms to collect current and past due outstanding balances. Most balances are collected through normal billing and collection activities, including invoicing on a scheduled basis and department/customer contact activities. Additionally, for balances that have been delinquent for longer periods of time and for which collection efforts were unsuccessful, County departments often engage the Finance Department's Credit and Collections Section or outside collection agencies to pursue further collection efforts as permitted by law. All accounts referred to the Credit and Collection Unit are maintained in a database for future collections via any and all remedies as permitted by law. Revenues from stale accounts will be used to fund reserves, but uncollected debts are only considered for accounts receivable adjustments when staff has exhausted all reasonable measures and believes that further actions – whether by County staff or private debt-collection contractors – would be fruitless. Nonetheless, the County will continue to pursue remedies as permitted by law.

A revised implementing order related to adjustments of accounts receivable would require monthly departmental reconcilements of accounts receivable to the County's general ledger. This implementing order has been placed on the same Board agenda for your consideration. The aging of these amounts will be monitored through a measure that will be added as a component of each departmental scorecard used in monitoring the performance in strategic initiatives.

Background

From time to time, in the normal course of business, amounts owed to the County become past due (30+ days late). In some cases, these amounts become delinquent (90+ days late), which greatly reduces the probability that the debts will be collected in full. These accounts receivable include: customer billings for services rendered; unpaid fees, fines or penalties from permits, licenses or violations; and receivables from loans, mortgages or long-term contracts. In these cases, the County establishes an allowance for doubtful accounts to appropriately reflect anticipated revenues on its books. This is a standard practice for both public and private entities and reflects responsible and accurate accounting.

The County uses a number of mechanisms to collect current and past-due outstanding balances. Most balances are collected through normal billing and collection activities, including invoicing on a scheduled basis and departmental customer-contact activities. Additionally, for balances that have been delinquent for longer periods of time and collection efforts unsuccessful, County departments often engage the Finance Department's Credit and Collections Section or outside collection agencies to pursue further collection efforts as permitted by law. All accounts referred to the Credit and Collection Unit are maintained in a database to pursue remedies as permitted by law. Despite continuous collection efforts, however, it is generally accepted in both the public and private sectors that a portion of the delinquent balances will not be recuperated and will necessitate an adjustment to the accounts receivable.

Generally Accepted Accounting Principles (GAAP) require that when the value of an asset is impaired, it be removed from the accounting system used in the preparation of financial statements to provide a fair representation of financial position. In the instance of accounts receivable deemed fully uncollectible for financial reporting purposes, the act of adjustment of an account in no way affects the County's legal rights in pursuing and securing delinquent account balances as permitted by law. The County will continue its efforts to collect the amounts due, including legal action where practicable, until an equitable restitution is made or agreed upon where possible as permitted by law. This activity, in other words, does not represent abandonment of debt collection, but a necessary and responsible step to ensure our financial reports accurately represent only anticipated revenues that the County can reasonably expect to collect.

Ordinance 99-162 established a "Registry of Delinquent Contractors," which departments are required to review prior to entering into a contract. Individuals or entities in arrears under any individual contract, final appealable judgment, or lien with the County that exceeds $25,000 and delinquent for more that 180 days, must first pay the amounts owed to the County or make suitable arrangements to pay.

Appendix 1 summarizes the detailed information provided in attachments A-F, including the department name, fiscal years covered in write-off total, accounts receivable total, number of accounts billed during that period, represented by the account receivable total amount of revenues generated during that timeframe, percent of revenues being adjusted versus total period revenues, as well as a brief high-level description of the receivable types.

Appendix 2 details information for each of the departments included in Appendix 1.

Assistant County Manager

RESOLUTION NO. _____

RESOLUTION AUTHORIZING ACCOUNTS RECEIVABLE ADJUSTMENT FOR MULTIPLE FISCAL YEARS OF CERTAIN MIAMI-DADE COUNTY DEPARTMENTS' UNCOLLECTIBLE ACCOUNTS RECEIVABLE IN THE AGGREGATE OF $34,832,491, PURSUANT TO ADMINISTRATIVE ORDER 3-9

WHEREAS, the Finance Department has compiled a listing of all accounts receivable from the Animal Services Department, Fire Department, Library, Parks and Recreation, Police Department and Vizcaya (the "County Departments"), which in the aggregate equal $34,832,491, and has been deemed by each County Department Director as uncollectible; and

WHEREAS, pursuant to Administrative Order 3-9, accounts receivable adjustments in excess of $500 are to be reviewed and approved by this Board; and

WHEREAS, an accounts receivable adjustment would provide for the elimination of customer accounts from the accounting records, but does not preclude continuing collection efforts, to the extent deemed practicable, as stated in Administrative Order 3-9; and

WHEREAS, customers for whom accounts have been declared uncollectible shall not be considered for future business relationships with the County until restitution has been made or agreed to; and

WHEREAS, this Board desires to accomplish the purposes outlined in the accompanying memorandum, a copy of which is incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that

Section 1. The foregoing recitals are incorporated in this resolution and are approved.

Section 2. The Board approves the adjustments to the accounts receivable set forth in the County Manager's memorandum in the aggregate amount of $34,832,491, pursuant to Administrative Order 3-9.

The foregoing resolution was offered by Commissioner , who moved its adoption. The motion was seconded by Commissioner and upon being put to a vote, the vote was as follows:

Joe A. Martinez, Chairman
Audrey M. Edmonson, Vice Chairwoman

Bruno A. Barreiro	Lynda Bell
Esteban L. Bovo, Jr.	Jose "Pepe" Diaz
Sally A. Heyman	Barbara J. Jordan
Jean Monestime	Dennis C. Moss
Rebeca Sosa	Sen. Javier D. Souto
Xavier L. Suarez	

The Chairman thereupon declared the resolution duly passed and adopted this 7th day of July, 2011. This resolution shall become effective ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, shall become effective only upon an override by this Board.

[1] Source: Provided by Departments from individual accounts receivable subsidiary systems
[2] Animal Services was a division under other county departments until FY 05-06. As such, revenues generated prior to FY 01-02 are not available. ASD is only able to report those revenues collected from FY 01-02 to FY 07-08.
[3] Estimated accounts billed during the time period since the Fire Department bills over 50,000 accounts per year for transport fees alone.

Generally Accepted Accounting Principles require accounts receivable to be evaluated as to their collectability in order to prevent distortion of the financial statement balances. For this purpose, an amount is regularly reserved and charged to bad debt expense.

Animal Services Department

When the Animal Services Department (ASD) became a department in October 2005, the administration's first steps included the purge of obsolete and duplicate accounts to ensure that citations were accurately issued. This effort included an amnesty period to update accounts, eliminate duplicate, void and erroneous citations and increase compliance. In 2007, a memorandum of understanding between Finance and ASD was signed approving the transfer of outstanding accounts for collections as permitted by law. In 2009, this effort was further streamlined by having outstanding citations electronically transferred to Collections if no payment activity occurs within a 120-day period. Prior to 2005, when ASD was a division of the Miami-Dade Police Department, outstanding citations were also transferred to Finance for collections. Unfortunately, the department does not have any records to determine the parameters or results of this effort. To ensure that this does not occur in the future, a program was developed to identify those outstanding accounts and any citations with no payment activity for 120 days from issuance date are automatically transferred to Credit and Collections to continue pursue remedies as permitted by law.

Miami-Dade Fire Rescue

Medical transports by Miami-Dade Fire Rescue (MDFR) have not been adjusted since 1989. Collection efforts included initial attempts by the County's private billing to the vendor, referring accounts to the County's outside collection agencies, and reporting delinquent accounts to the Finance Department pursuant to Administrative Order 3-29 relating to the prohibition of contracting with individuals and entities that are in arrears to the County.

MDFR also has unpaid accounts for off-duty services, commercial occupancy inspections and public school inspections. While these amounts are not reflected as accounts receivable on the Fire District financial statements, the Board should be informed of the uncollectible amounts that have accrued and the actions taken to collect unpaid accounts as permitted by law.

MDFR has substantially altered the policies and procedures for off-duty fire-watch services, almost completely eliminating the need for uniformed personnel at private buildings for fire-alarm monitoring except for emergency situations. The department has also implemented a policy requiring deposits from all off-duty services entities except long-standing customers while improving the collection process for past due accounts. Since the changes in procedures and personnel, there have not been any unpaid accounts, and more than $830,000 (out of a total of more than $1.02 million) has been collected from various entities, including $144,372 from Towers of Quayside, $50,000 from Plaza of the Americas, $18,942 from Sports Authority, and $3,993 from Bird Bowl. The uncollectible amount for off-duty services totals $193,475.29, with all of these unpaid accounts for events that occurred prior to August 2006. MDFR is unable to collect these unpaid amounts due to the customer no longer being in business or lack of sufficient documentation for the off-duty personnel.

In accordance with Chapter 14 of the Miami-Dade County Code, the MDFR Fire Prevention Division conducts annual life safety inspections in commercial occupancies and other structures. After inspection, payment of an annual fee is required after an invoice from MDFR. If left unpaid, the fee and resulting penalties can exceed $500. MDFR will continue to pursue remedies as permitted by law.

The Fire Prevention Division also conducts annual inspections at all Miami-Dade County Public Schools in accordance with Florida Statutes. The Miami-Dade County School Board has refused to pay for these annual inspections despite efforts by MDFR.

Police Department
The Miami-Dade Police Department (MDPD) currently carries on its books a number of off-duty police billing accounts that are considered to be uncollectable, and an amount is regularly reserved and charged to bad debt expense.

These accounts reflect receivables from off-duty police billing accounts that have been inactive since 1996. The amount represents 0.28 percent of total receivables billed during this same period. Collection efforts as permitted by law included monthly statements, letters, phone calls, and where appropriate, referral to the County Attorney's Office. Upon contacting the permittees, many of these charges were disputed rate increases. Permittees requested copies of the original job tickets. As we performed research, it was learned that the original tickets are no longer available due to the expiration of the state's record retention schedule. This is the case with an old Dolphin Stadium account as well as with S.E. Institute of Criminal Justice. MDPD still provides off-duty services to a few organizations listed in the accounts receivable adjustment item. These organizations are the Dolphin Stadium Corp. and Miami Dade College.

MDPD has revised the design of the in-house work ticket used for off-duty assignments, which has minimized rate calculation errors. Additional revisions included off-duty coordinator review and authorization requirement, and a defined space for the printed name and title of customers' authorizing designee. These improvements reduced customer disputes. An improved billing software system has been implemented as well as internal administrative process revisions.

Library
All accounts that owe over $30 and have not responded to Library notices are referred to a collection agency, Unique Management, to pursue any and all remedies as permitted by law. Additionally, the Library requires annual renewals of Library cards, which then requires patrons to pay any outstanding fines and fees and update contact information. The accounts recommended for adjustment have not been pursued because the original overdue and bill notifications were sent by the Library Department at the time the items were declared lost. Prior to using Unique Management, the Library had no automated method for sending overdue accounts for collection.

Park and Recreation
Miami-Dade Park and Recreation (MDPR) currently carries on its books a number of accounts are considered uncollectable, and an amount is regularly reserved and charged to bad debt expense in order to offset any bad debts.

The proposed accounts receivable adjustments are accounts reflecting receivables from various MDPR facilities, primarily from October 1998 through September 2007. Collection efforts permitted by law include monthly statements, letters, phone calls, and where appropriate, referral to the County Attorney's Office. MDPR also maintains and distributes monthly a listing of delinquent customers, to prevent further use of facilities until account is paid. In addition, appropriate uncollectable accounts are referred to Credit and Collections for additional collection efforts as permitted by law.

Vizcaya
According to available records, various collection attempts were made by MDPR and the Finance Department with no success. Staff was not able to locate the client. Vizcaya does not have any outstanding accounts receivables at this time. Established procedures call for tracking all outstanding account receivables, including attempts to collect after 30 days due, 60 days, followed by certified letter after a 90-day period. If no resolution occurs after 120 days, the account is referred to the Credit and Collection section to pursue remedies permitted by law.
