Subject: Resolution Approving Targeted Jobs Incentive Fund Tax Refund for Confidential Project Gemini

---

Recommendation

The Beacon Council, on behalf of a firm requesting confidentiality, has submitted an application for economic development incentives under the Targeted Jobs Incentive Fund (TJIF) Ordinance, Article LXXXVI of the Miami-Dade County Code of Ordinances. Confidential Project Gemini is seeking to expand its commercial transportation, logistics, and supply chain management company in Miami-Dade County. It is recommended that the Board of County Commissioners (Board) approve the request to participate in the TJIF Program.

Scope

The business operations of this project will create 10 new full-time equivalent jobs and retain 747 full-time equivalent jobs, as defined in Florida Statute Section 288.106, over a one-year period. This project is considering purchasing an existing 230,000 SF building in District 12 (Commissioner Diaz) to establish its logistics headquarters. However, the jobs will have a positive countywide impact through indirect employment and an economic multiplier effect. The business is also considering Fort Worth, TX, Oakland County, MI, and Alpharetta/Fulton County, GA as alternative locations.

Fiscal Impact / Funding Source

The County uses general revenues to fund this incentive. Based on the conditions set forth in the TJIF Ordinance, Confidential Project Gemini is eligible for $269,688 in TJIF assistance to be paid over a ten-year period based on the capital investment stated in its application. However, the Beacon Council is also projecting approximately $375,347 in additional general fund revenues to the County from the capital investment commitment as stated in the company's TJIF application. Based on these projections, this incentive would yield a net positive fiscal impact of $105,659 to the Countywide General Fund over ten years.

The actual disbursement of the TJIF award is contingent upon verifying creation of the new jobs and the capital investment of the project appearing on the tax roll. The TJIF award for Confidential Project Gemini may equal up to 1.70 percent of the total real property capital investment and 1.15 percent of the tangible personal property capital investment and remain in accordance with the TJIF program. The disbursement of the TJIF award is capped at the incremental general fund County taxes actually generated by Confidential Project Gemini. This resolution commits funds to Confidential Project Gemini at a lesser percentage of real property capital investment and tangible personal property capital investment than those allowed by the program.

Track Record/Monitor

The TJIF program specifies that a Board-approved TJIF project generally must create at least 10 new jobs, retain those jobs for at least three (3) years, and make at least a $3 million capital investment to receive the incentive. This project is promising to make a capital investment of $15,864,000 and create 10 new jobs and retain 747 existing jobs.

Staff from the Department of Regulatory and Economic Resources, upon the company's request for incentive payment, will verify that it has met the required number of new jobs created, at the required wage rate and in accordance with the TJIF agreement. Staff will also confirm that the ad valorem and/or the tangible personal property taxes are sufficient to cover the TJIF payment.

Background

Confidential Project Gemini is a commercial transportation, logistics, and supply chain management company (NAICS Code #551114) that currently has a facility in Miami-Dade County and is now seeking to establish its world headquarters in Commission District 12 of Miami-Dade County. The company currently employs 747 workers at its Miami-Dade facility and is committing to create an additional 10 jobs over a one-year period as a condition to the disbursement of the TJIF award, in addition to retaining 747 existing jobs based in Miami-Dade County.

The company agrees as a condition of the TJIF award that the 10 new workers hired will have an average annual salary of $42,446 (excluding benefits). Project Gemini will expand its current operations and will also generate a number of indirect jobs resulting from the company's local purchases of goods and services, as well as consumer spending from labor income directly or indirectly earned from its business activities.

The anticipated dates for job creation and incentive award disbursements are set forth in the resolution but are subject to change upon the approval of the County Mayor or the County Mayor's designee so long as they remain consistent with the TJIF Ordinance.

The attached documents relating to the application of the incentive have been prepared by The Beacon Council and reviewed by the Department of Regulatory and Economic Resources.

CONFIDENTIAL PROJECT: GEMINI

Name of Business

(Note: If the name of company is confidential at time of application, said company name shall be provided and appended to this Application and Agreement within 60 days of being approved by the County.)

Important: This Application and Agreement for TJIF shall be in compliance with Miami-Dade County Board of County Commissioners Ordinance No. 00-98 as codified in the Code of Miami-Dade County, Chapter 2, Article LXXXVI, and as further modified by Ordinance No. 11-08, as may be amended.

Section 1. Targeted Jobs Incentive Fund (TJIF) Background

1.1 The Targeted Jobs Incentive Fund is an initiative fashioned by The Beacon Council and Miami-Dade County and patterned after the State of Florida Qualified Target Industry Tax Refund Program (QTI). The program's intent is to attract relocating out-of-area businesses and encourage expansion of existing local companies by providing cash incentive awards. As with the QTI Program, a Company is required to create a certain number of jobs and must also generate enough new revenue to Miami-Dade County to fund its TJIF benefit.

1.2 The TJIF is an inducement program available only to companies from outside the County (with the exception of Palm Beach, Broward, and Monroe Counties) wishing to relocate here, and to Miami-Dade companies which undertake a business expansion and which create jobs as a result of the local expansion. Nevertheless, a Palm Beach, Broward or Monroe County-located Company that is planning to relocate outside South Florida is eligible for this program. The Company must provide verifiable documentation supporting its consideration of other locales. Any business decisions, such as leasing of space or hiring of employees, made prior to the final TJIF approval will likely be grounds for disapproval unless waived by the Miami-Dade County Mayor or Mayor's designee after a showing of good cause.

1.3 Although the TJIF program is available to companies countywide, it is also used to encourage investment and the creation of jobs in Designated Priority Areas (DPA) i.e. Enterprise Zones, Empowerment Zones, Targeted Urban Areas, Community Development Block Grant eligible areas, and Brownfield areas, by providing business with additional incentives if the Company locates within these specified areas.

1.4 The TJIF program is strictly a performance-based incentive that is disbursed to the Company after it has met all of its job creation projections, capital investment commitments.

Section 2. Eligibility Criteria

2.1 The Targeted Jobs Incentive Fund (TJIF) is available to companies in the following industries:

a. Advance Manufacturing;
b. Aviation/Aerospace;
c. Clean Energy including, but not limited to, Solar Photovoltaic and Solar Thermal Energy, Biofuels, Smart Grid Technologies, Energy Storage, and Ocean Energy;
d. Financial/Professional Services;
e. Homeland Security/Defense;
f. Information Technology;
g. Life Sciences;
h. Creative Industries including, but not limited to, Fashion and Lifestyles;
i. Global Logistics;
j. Headquarters including regional headquarters (NAICS Code 5511); and
k. Any industry designated as a "Target industry business" under the State of Florida's Qualified Target Industry ("QTI") program, Section 288.106(1) of the Florida Statues.

The Board of County Commissioners, at its discretion, may waive the eligible industry requirement at the request and recommendation of The Beacon Council and the County Mayor and County Mayor's designee.

2.2 The Company must create at least 10 new jobs and make a minimum capital investment of at least $3 million.

2.3 The County Commission, recognizes its responsibility to set a community standard that permits full-time workers to live above the poverty line. Therefore, the TJIF Program will not be available to companies that pay any of their employees less than the Living Wage Rate as defined in Section 2-8.9 of the Code of Miami-Dade County, as adjusted annually by the Department of Small Business Development or its successor department. In addition, the New Jobs promised under the TJIF application/agreement must pay an estimated Average Annual Wage at least equal to the average private sector wage of the County or the statewide private sector average wage. In determining the Average Annual Wage, only New Jobs are to be included and wages for existing jobs shall be excluded from the calculation.

2.4 The Company's countywide ad valorem property taxes, excluding debt service, and countywide portion of sale taxes paid must generate sufficient additional general fund tax revenue to the County in order to fund the award. Additional general fund tax revenue generated by the project shall be determined by using a methodology acceptable to the County.

2.5 An economic impact analysis of the project will be determined using a professionally accepted econometric model such as Department of Commerce, BEA RIMS-II; Minnesota Implan Group, IMPLAN V.3; or REMI, Inc, REMI Model PI+, and reviewed by the County's Chief Economist.

2.6 This Application and Agreement must be signed by the Company and Miami-Dade County stipulating the number of new jobs to be created, the projected amount of capital investment, the amount of the projected tax revenue and the date when the project will be completed. Disbursements of the TJIF award to the Company will only be made after it has achieved the capital investment and job creation benchmarks set forth in the Application and Agreement, and all other terms of the TJIF program.

2.7 The TJIF is an inducement program that is only available to companies considering a relocation and/or expansion in Miami-Dade County and one or more other communities. The TJIF is utilized to induce "New to Market" companies to relocate to Miami-Dade County (not available for companies located within Palm Beach, Broward and Monroe Counties unless a Company is planning to relocate outside South Florida). Companies located in other Florida counties are eligible for TJIF for any net *new* jobs being created in Miami-Dade County. The Company must identify the other metro areas being actively considered as locations for the project.

Section 3. Award Amounts Provided By Miami-Dade County

3.1 The TJIF Program is structured so that revenues received from the TJIF project will meet or exceed incentives paid by the County. As a result, the TJIF Program has a positive revenue impact on the countywide general fund during the incentive payout period. TJIF incentives are disbursed over a six-year period or longer, subsequent to the capital investment of the TJIF project appearing on the tax roll, and may equal up to 1.7 percent of the total real property capital investment and up to 1.15 percent of the tangible personal property capital investment. The TJIF project is eligible for additional incentive amount, for both real property and tangible personal property capital investment, if it is:

a. A Miami-Dade County "green certified" business, as applicable (an additional 0.175 percent);
b. Located in a DPA (an additional 0.175 percent);
c. Located in a "green certified" building pursuant to Section 2-1258 (an additional 0.05 percent); and/or
d. Classified as having its principal business activity in the manufacturing, installation, and repair of Solar Thermal and Photovoltaic energy production or other clean energy project (an additional 0.05 percent).

In no case will TJIF incentive disbursements exceed the amount of additional countywide ad valorem generated by the TJIF project. In the event that the actual capital investment is less than the amount of capital investment stated in the application, the TJIF project will only be eligible to receive an incentive based on the approved percentage of the actual capital investment.

Applications for a TJIF award within Miami-Dade County are evaluated on a case-by-case basis.

3.2 A TJIF award is usually provided to a Company for a period of up to six (6) years when the minimum number of new jobs has been created and when new capital investment by and/or for the Company exceeds $3 million in taxable property value. In some cases, the TJIF award may be provided for a period longer than six (6) years. This award is not applicable to the ad valorem property taxes paid-in on the subject property's land value nor to any improvements in place prior to the project.

3.3 A Company may not receive award payments of more than twenty five percent (25%) of the total awards specified in the approved application/agreement in any fiscal year even if all the New Jobs are created in one (1) year. Further, a Company may not receive more than $1.5 million in awards in any single fiscal year, or more than $2.5 million in any single fiscal year if the project is located in a Designated Priority Area. A Company may not receive more than $5 million in award payments in all fiscal years, or more than $7.5 million if the project is located in a Designated Priority Area. However, the Board of County Commissioners, at its discretion, may waive the applicable $5 million or $7.5 million total award cap at the request and recommendation of The Beacon Council and the County Mayor or the County Mayor's designee. However, in no event shall the total award exceed the amount of countywide general fund ad valorem property taxes paid in as a result of the project. While a Company can receive both a tax refund under the State of Florida Qualified Target Industry Program and a TJIF award at the same time, it cannot receive more than an amount equal to what it has paid-in under the project at any time.

Section 4. Payment of Incentive

4.1 The TJIF program is a performance based incentive program; therefore, verification of the new jobs created, capital investment made by the Company, and the additional general fund tax revenue generated to Miami-Dade County must be verified by the County prior to any disbursement of funds to the Company. This procedure must be repeated each year that the Company submits a claim for the TJIF payment. The year that is applicable for consideration of taxes paid-in resulting in the additional general fund tax revenue is April 1 through March 31. Company award claims must be submitted each year during the period of April 1 through May 15. Any award appropriation, if made by the Miami-Dade County Board of County Commissioners will be paid in the County's fiscal year that begins on October 1 following the May 15 claims-submission deadline date.

4.2 The TJIF incentive award is paid beginning after the first year the new jobs are created. For example, if a Company committed to creating 100 new jobs by December 31, 2011, meets this benchmark (and all other conditions of the incentive award), and submits a claim for disbursement by May 15, 2013, then the first incentive payment will be disbursed in the County's fiscal year that begins on October 1, 2013. Disbursements shall occur according to the disbursement schedule set forth in the Board resolution granting the TJIF award even if all the new jobs are created prior to the end of the disbursement schedule. Payment to the Company will only be made after it has achieved all economic benchmarks. The Company's additional general fund tax revenue paid to Miami-Dade County must be equal to or greater than the Company's TJIF award less the County's portion of any Florida Qualified Target Industry incentive the Company may be receiving for the same project.

4.3 The Company must be current on its Miami-Dade County taxes in order to receive the disbursement of its approved TJIF incentive. Failure to meet this condition may cause that year's incentive to be forfeited.

4.4 No incentive amounts shall be disbursed after the last fiscal year set forth in the TJIF application agreement and the Board-approved TJIF Resolution.

4.5 If in any year the applicant does not achieve the job creation schedule outlined in the applicant's approved resolution, but achieves at least 80% of the required net new jobs created, the company will receive a pro-rated incentive award less a 5% penalty of the scheduled award amount for that year. **If job creation falls below 80% of the required jobs, the company will not receive a refund and will be terminated from the program.**

Section 5. Application Process

5.1 Any Company that meets the criteria and objectives of the TJIF program must submit this Application and Agreement to the County through The Beacon Council for review. The Beacon Council will prepare an economic impact analysis for the project, based on the information provided by the Company and submit the application to the County Mayor or County Mayor's designee. An officer of the applying Company must sign the application.

Section 6. Review and Approval Process

6.1 Subsequent to an evaluation of the Application and Agreement by the County, staff will recommend its approval or denial to the County Mayor or the County Mayor's Designee and prepares an agenda item for the next available Board of County Commissioners meeting where the TJIF incentive is considered for approval. The County Mayor or the County Mayor's Designee will recommend Application and Agreement approval or denial to the Board of County Commissioners. Per Miami-Dade County Ordinance No. 00-98 creating this program as amended by Ordinance No. 11-08, the Board of County Commissioners shall have no obligation to approve any Application and Agreement that comes before it.

6.2 The Beacon Council staff and a Company representative (when requested) will attend the Board of County Commissioners meeting to be available to answer any questions related to the project and the TJIF Application.

6.3 If the Board of County Commissioners approves the Application and Agreement, the Company and the County Mayor or the County Mayor's Designee will execute said document(s). Upon request, a

Company's confidentiality will be protected for any information regarding a project's location and/or expansion evaluation of any site in Florida in accordance with Sections 288.075 and 288.1066 of the Florida Statutes. If confidentiality is requested, then the Company name and identifying information shall be provided by the Company within 60 days of being approved by the County. Upon said approval, as the applying Company you will be sent a letter by The Beacon Council stipulating the conditions of the approval.

6.4 The Company, upon Board of County Commissioners approval, shall submit a current employee roster and tangible personal property and/or real property tax bill(s) for Miami-Dade County within 60 days after the Board's approval of the Application and Agreement.

Also, specifically address the role the incentive will play in creating Miami-Dade County jobs. This statement should include an analysis of the impact of any incentive awards granted on the viability of the project and the probability that the project will occur in Miami-Dade County if such incentive awards are granted to the applicant, taking into account the expected long-term commitment of the applicant to economic growth and employment in Miami-Dade County.

State and County incentives are very important in the expansion and location decision. Locations being considered include: Miami-Dade County, FL; Oakland County, MI; Alpharetta/Fulton County, GA; and Fort Worth, TX.
