Dear Ryan White Program-funded Service Provider:

**RE: Revised Ryan White Program Oral Health Care Formulary - Fiscal Year 2011-2012**

Enclosed for your information and internal distribution is a revised Fiscal Year (FY) 2011-2012 Ryan White Program Oral Health Care Formulary. All revisions can be easily identified in bold italics and shading within the revised formulary. This transmittal letter identifies the changes as well.

Effective March 14, 2011, the following code was added to the Ryan White Program Oral Health Care Formulary for use when a tooth to be extracted is located under a bridge and the bridge needs to be cut. Please see the 2011-12 current Dental Terminology (CDT) book for the complete definition. A copy of the complete definition for this code can be requested from OGC.

CDT-2011-12 Code	Dental Procedure (Added)
D9120	Fixed partial denture sectioning

The fixed partial dental sectioning procedure is a supplemental procedure with a flat rate reimbursement. The reimbursement rate for D9120 is \$180.00 per procedure.

As a reminder, Ryan White Program oral health care services are available to eligible HIV+ clients who have a gross household income that does not exceed 400% of the Federal Poverty Level, and who permanently reside in Miami-Dade County.

Ryan White Program Part A-funded oral health care services continue to be limited to \$3,000 per client per Ryan White Part A fiscal year (e.g., March 1, 2011 through February 28, 2012). However, very limited exceptions to the annual cap may be approved by the County, with consultation from the Miami-Dade HIV/AIDS Partnership's Oral Health Care Subcommittee as needed, on a case-by-case basis for the provision of preventative oral health care services only.
