

The Taylor/Chaplin Breast Health Center operates a new digital mammography van to provide screening services to women in the South Florida area.

1. Women who are over the age 40, no prescription is required for services.
2. Women younger than age 40 must have a doctor's order.
3. Must be 366 days between exams.
3. No problems with your breasts, lump or discharge or previous major surgeries, mastectomy, or lumpectomy with radiation.
4. No breast implants.
5. Not pregnant or breastfeeding.
6. **Intake form** must be completed one week prior to mammography scheduled date with a copy of your license and insurance card.
7. Results are mailed to patients and/or ordering providers within 10 working days.
8. We are required that patients requiring follow-up will be referred to the Jackson Memorial Hospital – Taylor Breast Center, or the patient may consult with their primary physician.

We ask that all patients arrive 5-10 minutes prior to their exam time!
