Memorandum

MIAMI-DADE COUNTY

Date: April 21, 2015

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: Resolution Creating Implementing Order 10-15 Relating to the Minimum Specialized Equipment Requirements List for Motor Vehicle Mechanical Repair Facilities, Motor Vehicle Body Repair Facilities, and Motor Vehicle Paint Facilities in Miami-Dade County

---

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution creating Implementing Order Relating to the Minimum Specialized Equipment Requirements List for Motor Vehicle Mechanical Repair Facilities, Motor Vehicle Body Repair Facilities, and Motor Vehicle Paint Facilities in Miami-Dade County.

Scope

The minimum specialized equipment requirements are applicable countywide.

Fiscal Impact/Funding Source

No fiscal impact to the County.

Track Record / Monitor

The Office of Consumer Protection in the Department of Regulatory and Economic Resources (RER), or its successor department, will continue to enforce the County's Motor Vehicle Repair Ordinance, as amended, and will be responsible for overseeing compliance with the minimum specialized equipment requirements list for motor vehicle mechanical repair facilities, motor vehicle body repair facilities, and motor vehicle paint facilities in Miami-Dade County, as set forth in the accompanying Implementing Order 10-15.

Background

On December 2, 2014, the Board adopted on first reading an ordinance relating to Motor Vehicle Repair, amending Chapter 8A, Article VIIA of the Code of Miami-Dade County. The proposed changes to Sections 8A-161.34 and 8A-161.34.1 will remove the existing minimum specialized equipment requirements, replacing them with a mechanism to establish the specialized equipment list by Implementing Order. This will allow RER to update the list via resolution on a more frequent basis, removing outdated equipment and adding new equipment advancements in each certification category as appropriate.

The RER Office of Consumer Protection will continue to administer the Motor Vehicle Repair Ordinance, as amended, and will distribute the updated minimum equipment requirements list to motor vehicle repair and paint facilities countywide. Enforcement of the ordinance as amended, including the minimum equipment requirements list, will be incorporated into existing enforcement policies and procedures, including verification of equipment requirements during routine and complaint-driven inspections.

Jack Osterholt
Deputy Mayor

I.O. No.: 10-15
Ordered:
Effective:

MIAMI-DADE COUNTY
IMPLEMENTING ORDER

OFFICE OF CONSUMER PROTECTION MINIMUM SPECIALIZED EQUIPMENT REQUIREMENTS FOR MOTOR VEHICLE MECHANICAL REPAIR FACILITIES, MOTOR VEHICLE BODY REPAIR FACILITIES AND MOTOR VEHICLE PAINT FACILITIES IN MIAMI-DADE COUNTY

AUTHORITY:
Sections 1.01 and 2.02 of the Miami-Dade County Home Rule Charter; Chapter 8A, Article VIIA of the Code of Miami-Dade County.

POLICY:
This Implementing Order establishes minimum specialized equipment requirements for motor vehicle mechanical repair facilities, motor vehicle body repair facilities, and motor vehicle paint facilities to be enforced by Office of Consumer Protection (or its successor department), pursuant to Sec. 8A-161.34 and Sec. 8A-161.34.1 of the Code of Miami-Dade County.

MINIMUM EQUIPMENT REQUIREMENTS:
The minimum specialized equipment requirements list adopted by this Implementing Order is attached hereto and made a part hereof.

This Implementing Order is hereby submitted to the Board of County Commissioners of Miami-Dade County, Florida.

Approved by the County Attorney as
to form and legal sufficiency: _____

Department of Regulatory and Economic Resources
Office of Consumer Protection (or its Successor Department)
Minimum Specialized Equipment Requirements
Pursuant to Sec. 8A-161.34 and Sec. 8A-161.34.1 of the Code

The following minimum equipment requirements, unless otherwise stated, are separate from any other requirements set forth in any other provision of Chapter 8A, Article VIIA of the Code.

I. MOTOR VEHICLE MECHANICAL REPAIR FACILITIES – Chapter 8A – Article VIIA

The following minimum specialized equipment requirements pertain to Motor Vehicle Mechanical Repair Facilities and take effect on the same date this Implementing Order becomes effective.

A) For Certification Category: Engine Repair

1. Cooling System Pressure Tester

B) For Certification Category: Engine Performance

1. Diagnostic Data Stream Scanner or any device that is used to communicate with a motor vehicle's computer to determine if any trouble codes are present and to read the output from numerous electrical sensors that feed information to the computer.

C) For Certification Category: Automatic Transmission

1. Diagnostic Data Stream Scanner or any device that is used to communicate with a motor vehicle's computer to determine if any trouble codes are present and to read the output from numerous electrical sensors that feed information to the computer.

D) For Certification Category: Steering & Suspension

1. Wheel Alignment Machine
2. Wheel Balancer

E) For Certification Category: Brakes

1. Brake Bleeder

F) For Certification Category: Electrical

1. Battery Charger
2. Digital Multimeter

G) For Certification Category: Air Conditioning and Heating

1. Recycling or recovery equipment
2. Leak detector
3. Air-conditioning charging station

II. MOTOR VEHICLE BODY REPAIR FACILITIES AND MOTOR VEHICLE PAINT FACILITIES – Chapter 8A – Article VIIA

The following minimum specialized equipment requirements pertain to Motor Vehicle Body Repair Facilities and Motor Vehicle Paint Facilities take effect on the same date this Implementing Order becomes effective.

A) For Certification Category: Structural Repair

1. An operable metal inert gas welder (MIG).
2. An ability to raise (lift, rack or bench) motor vehicles for inspection.
3. Source of dimensions covering frames, upper body dimensions and wheel alignment specifications (blueprints) for the types of motor vehicles upon which repair work will be performed.
4. A measuring device suitable for each type of motor vehicle upon which repair work will be performed, symmetrical or asymmetrical, as well as body structural dimensions including the upper body.
5. A four-point anchoring system to hold motor vehicles in a stationary position during structural and body pulls and which is suitable for the type of motor vehicle upon which repair work is being performed.
6. Electrical or hydraulic equipment to make multiple and structural pulls for straightening.

B) For Certification Category: Painting & Refinishing

1. An on-site spray booth in good working order.
2. An operable paint application system with the ability to produce an appropriate finish.
