a Intel's numbering is not a measurement of higher performance.

b For hard drives, GB=1 billion bytes. Actual formatted capacity is less. A portion of hard drive is reserved for system recovery software: for notebooks, up to: 8GB (XP and XP Pro), 12GB (Vista), 12GB (MCE). For desktops, up to: 10GB (Vista, XP, XP Pro), 12GB (MCE).

c Wireless performance is dependent on physical environment, distance from access point.

d Wireless access point and Internet service required and not included.

f HD content required to view HD images.

g Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality (including the wireless functionality) and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark www.bapco.com/products/mobilemark2007 for additional details.
