911. Amount of Contribution to the Miami-Dade County Stormwater Compensation Trust Fund as an alternative means of providing equivalent stormwater management within the same basin in lieu of implementing the Cut and Fill criteria on properties located within the North Trail Basin, Bird Drive Basin and Basin B, all located in Miami-Dade County.

The owner of a parcel of land located in a special drainage basin, defined as the Bird Drive Basin, North Trail Basin, or Basin B, all located within Miami-Dade County, and which 1. has continuously contained four and one-half (4.5) or less acres of gross area since

September 30, 1997; and 2. is subject to the Cut and Fill criteria set forth in Sections 24-58.1, 24-58.2 and 24-58.3 of the Code of Miami-Dade County; may to the Miami-Dade County Stormwater Compensation Trust Fund as an alternative means of providing equivalent stormwater management within the same basin in lieu of implementing the Cut and Fill criteria on the parcel of land itself.

The above-referenced contribution by the property owner shall be computed according to the following formula.

a. State Certified Property Appraised value as determined within the time period commencing one hundred and twenty (120) days prior to the date of contribution.

\$ \_\_\_\_\_

b. Percent to be paid into the Stormwater Compensation Trust Fund

\* \_\_\_\_\_ %

Total to be paid: (a) x (b) =

\$ \_\_\_\_\_

\*The following are the percentages applicable to each basin:

Basin	% Dry Retention
North Trail Basin	33.25
Bird Drive Basin	38.0
Basin B	39.0

The above percentages may be modified depending upon site-specific land use and topographical conditions applicable to each project, together with an engineering report in support of the percentage modification. Any proposed modifications to the above-referenced percentages shall be substantiated by an engineering report submitted to DERM by the applicant. The proposed percentages, when applied in the above formula, shall provide stormwater management equivalency to the stormwater management set forth in the Cut and Fill criteria established for the specific basin.

DERM shall determine if the proposed modification meets the stormwater management equivalency aforesaid based upon the engineering report prepared by a registered professional engineer licensed in the State of Florida. The burden shall be upon the applicant to prove that the proposed modification meets the aforesaid stormwater management equivalency standard.

No plat or waiver of plat shall be approved until the amount of contribution computed pursuant to the formula above has been paid to Miami-Dade County, and said fee shall be based upon the current appraised value as determined by a State Certified Property Appraiser within the time period commencing one hundred and twenty (120) days prior to the date of contribution.
