

FY 2012 - 13 Adopted Budget and Multi-Year Capital Plan

Public Works and Waste Management

The Public Works and Waste Management Department (PWWM) supports the infrastructure demands of Miami-Dade County and enhances the quality of life for residents, businesses, and visitors through the construction, operation, and maintenance of a safe, effective, and aesthetically pleasing physical environment. This includes managing traffic infrastructure, canal maintenance, rights of way, roads and bridges and providing solid waste management services such as the collection of garbage and trash in the Waste Collection Service Area (WCSA), waste disposal countywide, and related code enforcement.

As part of the Transportation and Neighborhood and Infrastructure strategic areas, PWWM administers the planning, construction, and maintenance of a safe and efficient system of roads, bridges, drainage improvements, pathways, traffic signals, signs, and street lights; administers infrastructure maintenance, inspection, compliance, and improvement programs; implements all highway and neighborhood improvement projects included in the Capital Improvement Plan and Transportation Improvement Program; implements various public works projects in the Building Better Communities General Obligation Bond (BBC GOB) Program; administers toll collection on the Rickenbacker and Venetian Causeways; administers the Storm Water Utility and ensures the maximum possible amount of flood protection in the secondary drainage canal system by providing adequate chemical and mechanical maintenance of these and other drainage facilities; and provides environmentally sensitive mosquito control services. In addition, the Department provides a variety of waste management services for residents, including garbage and trash collection and curbside collection of recyclable materials; operates 13 Trash and Recycling (T&R) Centers in the WCSA; and provides waste transfer and disposal services countywide to municipalities and private haulers. PWWM is also responsible for the operation and management of three regional transfer stations and associated fleet, two operating landfills, and the Resources Recovery facility (one of the largest waste-to-energy facilities in the world) and a co-located ashfill. Other services provided include residential and commercial code enforcement, litter clean-up, transit bus stop litter collection, maintenance of two County-owned closed landfills and three closed cells, illegal dumping enforcement and removal, and storm debris removal. Additionally, PWWM has countywide responsibility for the regulation of waste collection, transportation of waste, and recycling activities.

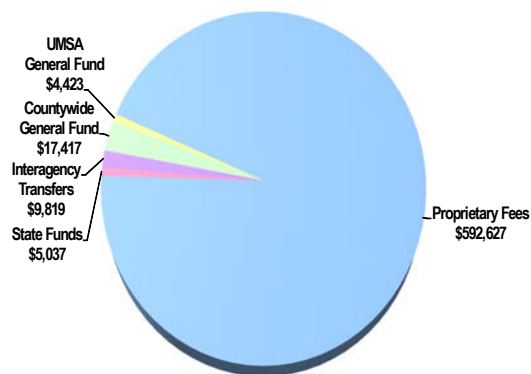

PWWM coordinates its activities with a variety of stakeholders throughout the community, including municipalities, community councils, homeowners' associations, other local neighborhood groups, private haulers, and landscape businesses. In addition, PWWM also partners with state and federal agencies to ensure regulatory compliance, and cooperation on large scale infrastructure initiatives, as well as the implementation of disposal site mitigation.
