FY 2012-13 CAPITAL BUDGET SUBMISSION MANUAL

Prepared by the Office of Management and Budget

Introduction

Like the Operating Budget, the Capital Budget is the annual implementation mechanism for the County's Strategic Plan and delineates construction and infrastructure projects needed to support service delivery and operations. It serves as both an annual budget for FY 2012-13 upon adoption by the Board of County Commissioners as well as a Multi-Year Capital Improvement Plan (CIP) through FY 2017-18 (and beyond in some cases).

The Capital Budget is a communication tool for departments to convey their prioritized projects, timelines, funding sources, expenditures, and any associated operating budget impacts to: residents and visitors, elected officials, other governmental entities (including other departments within the County), and the bond community at-large.

Like the Operating Budget Submission Manual, the Capital Budget Submission Manual (the Manual) shows how to approach the County's capital planning and budgeting process and guides use of the Capital Projects Budget Module in the County's Capital Improvement Information System (CIIS).

As in prior years, an ongoing emphasis of the County's FY 2012-13 Proposed Budget is to have capital project recommendations, just as with operating recommendations, reflect the County's Strategic Plan (http://www.miamidade.gov/stratplan/) and the departments' individual Business Plans. And, while similar in certain ways, capital planning and budgeting departs from budgeting for operations in primarily two ways. First, prior year expenditures have little bearing on future expenditures. Unlike the cyclical nature of the operating budget, the capital budget contains, independent projects that usually must be estimated and programmed separately from each other. Second, the revenue sources are much less interchangeable. That is, most revenues can only be used for specific purposes and only for specific project types. As such, there is less competition for dollars between departments, but in many ways more competition for available resources within each funding source.

Key Dates

Tuesday, December 6, 2011: CIIS will open for departments to begin

to enter capital projects

Friday, December 23, 2011: Business Cases due to IT Governance

Council

Wednesday, February 1, 2012: Departmental Capital Budget Plan

submission is due

Using this Manual

Please note the following icons below will be used throughout the Manual to highlight important issues.

<u>Tip</u>

Tips provide suggestions that simplify, shorten, or improve a process

Warning

Common errors and/or problems

Keynotes and essential points

Organization of the Manual

Section I – Overview of the Capital Budget Process

- The Timeline
- Changes from Prior Years

Section II – Estimation and Prioritization

- Begin with the Revenue Sources
- Estimate Expenses
- Prioritize

Section III - Considerations

- Definitions
- Sustainability Definitions
- Other Thoughts

Section IV – Capital Budget Projects Module in CIIS

Section V – Requesting Funding from the Capital Outlay Reserve (COR)

Section VI – Style Guidelines

<u>Section VII – Resources and Next Steps</u>

- The Best Resource
- Information on the Web
- Capital Budget Projects Module in CIIS Training
- Next Steps

<u>Section I – Overview of the Capital Budget Process</u>

The Timeline

As in prior years, the Office of Management and Budget (OMB) tries to mitigate the budget preparation workload by scheduling the development of the CIP ahead of the Operating Capital Budget.

Important

Departmental CIP submissions must be completed and entered into the Capital Projects Budget Module in CIIS by Wednesday, February 1, 2012

It is essential to the resource allocation plan process that departments adhere to the schedule for submitting their completed Capital Budget plan. If an unforeseen circumstance arises and your department is not able to complete their capital submission as required, please advise your OMB business analyst as soon as possible.

In order to facilitate the CIP development, you should work with your OMB business analyst.

Once your departmental CIP has been completed, please contact your OMB business analyst accordingly so that they can begin the initial review process.

Important

Each departmental capital plan submission will be reviewed with the department and will be discussed at the department's scheduled resource allocation meeting

CIP submissions will be viewed in relation to the department's operating submission and business plan. Specific attention will be given to those requests for funding from the Capital Outlay Reserve (COR).

All technology projects must be evaluated through the IT Governance Committee in order to be considered for funding.

Important

Departments will be kept up-to-date, by their OMB business analyst, as final decisions are made toward the end of the FY 2012-13 budget planning process and book production are in the finalizing stages.

Section II – Estimation and Prioritization

Start with the Revenue Sources

To start the process, begin by identifying and dividing out the revenue sources that are available to your department for those capital projects that are to be included in your FY 2012-13 Proposed Budget. By revenue source, estimate the new revenues that are anticipated for FY 2012-13 and the amount of carryover anticipated at the end of FY 2010-11. Both of these amounts should be justifiable based on prior year amounts (or have a logical reason for departing from prior year amounts). This procedure should be repeated for each available funding source.

Enterprise funds should show transfers from operating accounts as capital revenues. Operating and capital budgets will be viewed together in these instances.

If there is no funding source identified for a project, use the Capital Outlay Reserve (COR) as the funding source.

Estimate Expenses

In many cases, departments will need to prepare a "high level" estimate of project expenses and timelines until a formal estimate is completed. OMB understands that estimates change over time. Nonetheless, departments should use all available information (including recent bidding experience, other departments' experiences, trade publications, and institutional knowledge) to arrive at reasonably accurate estimates for capital projects. Part of the effort in estimating capital project costs is the estimation of expenditures by fiscal year. Departments should not anticipate allocating more funds than they need to a particular capital project other than what they can reasonably expect to spend in a given fiscal year.

Tip

Once these estimates have been completed, revenues and expenses should be compared. The easiest way to accomplish this is by listing all projects by revenue source in an Excel spreadsheet, by year (much like the input screens I-1 in RFRO). By doing this, a clear picture is presented to OMB and the department as to whether or not there is a funding surplus or shortfall within each departmental funding source

If it is clear that a project will not be completed in the current fiscal year, the funding will need to be re-appropriated in the next fiscal year, even if it has been appropriated already.

Prioritize

Important

If there is a funding shortfall within any given funding source, departments must prioritize the projects that can and should be done in any given fiscal year. Even if there is a funding surplus, departments will need to prioritize those projects that can and should be done and in which order they should be completed

Programming Revenue

When allocating revenue to milestones, it is important to program revenues classified as "Pay As You Use" first and "Pay As You Go" last.

Pay As You Use revenues are typically:

- Bonds
- Grants
- Federal Reimbursements
- State Funds

Pay As You Go revenues are typically:

- Departmental Operating Revenues
- Capital Outlay Reserve (COR)
- Fuel Taxes
- Interest Earnings

Important

Bond and grant revenues should be reflected in the year that proceeds are realized

Section III –Considerations

Definitions

Capital Project: A project which results in the acquisition or addition of permanent fixed assets such as land, buildings, public infrastructure, building improvements, and equipment. The project should be at least \$5,000 and have a usable life of at least five (5) years.

Funded Project: A capital project for which funding has been identified and for which some activity is expected between October 1, 2012 and September 30, 2017. Proprietary departments that periodically issue revenue bonds and have revenue streams sufficient to cover future debt obligations should assume future revenue bond projects are funded. Departments that can realistically anticipate continued grant funding should do so and program future year grant revenues for funded projects.

Capital Outlay Reserve (COR) Request: A request for funding from the COR for a capital project. The COR is an annual pay as you go set-aside partially funded from the General Fund operating budget and used to fund needed capital improvement projects. Funding requests should be for FY 2012-13 and should be included as a funded project. Approved COR funding requests will be included in the proposed capital budget as funded projects. Certain disapproved requests may be included in the CIP as unfunded projects in a separate section of the proposed CIP.

Technology Projects: All technology projects must be evaluated through the IT Governance Committee in order to be considered for funding.

Unfunded Project: A capital project for which no funding has been identified that can be completed within the same time frame as the funded projects (between now and fiscal year 2017-18).

New Project: A capital project that is not in the current fiscal year's (FY 2011-12) CIP.

Sustainability Category Definitions

In continuing with the County's efforts to reflect sustainability initiatives, the following categories and definitions are to be used as a guide when labeling a project *sustainable*.

Sustainability Categories	Explanation		
LEED or Other Green Building Certification	Facility that has undergone a certification process for sustainability (design and construction, existing building operations and maintenance). U.S. Green Building Council, Green Globes, Florida Green Building Council and EPA Energy Star Portfolio Manager rating systems for buildings are among the potential applicable building certifications.		
Energy Efficiency (Electricity and Fuel)	Activities and capital investments that contribute to increased electricity use efficiency and/or improved fuel efficiency (e.g. cool roofs; higher efficiency heating, ventilation, and air conditioning systems; lighting retrofits; energy and building management systems; purchase of hybrid vehicles; GPS-based idling-tracking systems for service vehicles; etc.)		
Renewable Energy Feature/System	Includes solar photovoltaic, wind, geothermal, solar- thermal, co-generation (waste recovery) and other renewable energy projects or systems tied to facilities.		
Innovative Water/Wastewater Feature and Approaches	Use of or programs to encourage the use of alternative and innovative water/wastewater approaches including but not limited to substitution of chemical treatment processes with biological processes, rainwater harvesting (e.g. cisterns), use of grey water systems, energy efficient reclaimed water technology or other water and/or energy conserving approach.		
Climate Change Adaptation	Activities/capital investments that improve our understanding of our vulnerability to climate change impacts or help us to reduce or adapt to these impacts.		
Other Climate Change Mitigation	Any activity that reduces/avoids Green House Gas emissions that is not an energy efficiency activity/capital investment. The planting of new and additional trees that sequester carbon is also considered a climate change mitigation strategy.		
Other Sustainability	Activities that improve the integrated bottom line of economy, environment and quality of life and don't contribute to the deterioration of aspects of this integrated bottom-line.		

Other Thoughts

As each department's Capital Budget plan is assembled, the following guidelines should be taken into account:

 One of the emphases of the FY 2012-13 resource allocation process is to have capital recommendations, just has been done with operating recommendations, reflect the County's Strategic Plan and the department's individual Business Plans.

Important

All information in CIIS will be shared with the Office of the Commission Auditor (OCA) throughout the process. Staff from OCA may have additional questions or requests for departmental staff based on the information contained therein.

OMB, Bond Administration Division is responsible for programmatic oversight of the Building Better Communities (BBC) General Obligation Bond Program, and the Miami-Dade Safe Neighborhood Parks (SNP) Bond Program. All departments with projects in either of the BBC, or SNP programs must closely coordinate the capital submission with OMB of the submission relating to these programs.

- As with prior year submissions, each department's CIP should be consistent with any current strategic capital improvement plans and should be developed hand-in-hand with the Transportation Improvement Plan (TIP), and as noted above, the current schedule of Building Better Communities projects and timelines as programmed, the Comprehensive Development Master Plan, the People's Transportation Plan Pro-Forma, or the Community Development Block Grant Work Plan, or any other plans as adopted by the Board of County Commissioners (such as the Aviation Capital Improvement Program), if applicable.
- The Capital Improvements Element (CIE) of the Comprehensive Development Master Plan will be updated with information from the FY 2012-13 CIP

Important

It remains critical that the budget information accurately reflects estimates for current year expenses and milestones (e.g., start dates or completion dates) and accurately projects information for next year's budget and for longer-range capital plans

 Complete information should be provided for all capital projects including, but not limited to, designating the County Commission District(s) and Community Council District(s) in which projects are located, the County Commission District(s) that the projects will serve, project start and completion dates, the strategic area, and reasonable estimates of operating impacts of planned capital projects.

- Expenditures in the current fiscal year's capital budget should not be overestimated. Anticipated expenditure levels should be projected realistically. Many departments have traditionally been optimistic regarding expenditures. Please be realistic with each project. Revenues should match the years that the funds were/will be appropriated; expenditures should match the years that the funds were/will be expended.
- Anticipated project cash carryover should be realistic and based on a review of actual prior year expenditure and carryover levels. Such a review should help reveal any unrealistic forecasting. Please be prepared to substantiate estimates of cash carryover into FY 2012-13 as well as anticipated FY 2011-12 and FY 2012-13 project expenditure levels.

 Departments should continue to anticipate and budget for the Capital Working Fund (CWF) to pay for services provided by the Small Business Development functions and OMB. A good rule of thumb is the budget at least the amount charged in the prior fiscal year. Please refer the FY 2012-13 Operating Budget Submission Manual.

 As a part of the County Radio Rebanding efforts, certain departments with proprietary divisions are impacted by the FCCdriven settlement. The enclosed chart identifies the number of radios attributed to each department as identified by Information Technology Department (ITD). Prior to FY 2011-12 if a department was identified as proprietary an amount was budgeted to cover their identified share. All general fund supported departments are funded through the COR.

Department	Inventory	FY 2012-13
Aviation	1,423	\$142,929
Sustainability, Planning and		
Economics (Consumer Services)	52	5,223
Permitting, Environment and		
Regulatory Affairs (DERM)	19	1,908
Public Housing and Community		
Development (Housing Agency)	10	1,004
Library	30	3,013
Port of Miami	380	38,168
Public Works and Waste		
Management (Solid Waste)	1,127	113,198
Transit	3,175	318,903
WASD	2,118	212,736
Total		\$837,082

 Funding requests for technology projects must be submitted through the Information Technology (IT) Governance process with a deadline for submitting technology projects to the IT Leadership Council on December 23, 2011. Information regarding the IT Governance timeline as well as instructions, forms, and templates are available at the following website:

http://enterprisesharepoint/home/ET014/ITLC/IT%20Governance%20201220 13/Forms/AllItems.aspx

 Art in Public Places is required for all capital projects in Miami-Dade County, unless otherwise prohibited by funding source other legal restriction. A complete description of the Art in Public Places procedures can be found at the website:

http://intra.metro-dade.com/procedures/library/358.pdf

- For new expenditure commitments, assume five (5) percent inflation each year. If there is a proper reason for assuming a higher or lower percentage, please indicate such in the justification/comments section of that project.
- Capital projects funded through the Community Development Block Grant (CDBG) program appear in the Public Housing and Community Development (PHCD) capital budget as well as the department allocated the funding. Departments should work with PHCD and the appropriate OMB business analyst to ensure that all discrepancies are resolved.

In all other ways, the instructions for specifically filling out the fields
of the database have not changed or have been made easier. The
specific instructions may be found on the web or may be gained in
the training classes that are offered. Please see page 22 for more
information regarding times, dates, and locations of training
classes.

Tip

Departments should contact their OMB business analyst with any questions regarding the process, the system, or style concerns. The list of OMB business analysts can be found on the web at http://www.miamidade.gov/omb/library/matrix.pdf or by calling (305) 375-5143

<u>Section IV – Using Capital Projects Budget Module in</u> CIIS

The Capital Projects Budget Module is a blend between CIIS and CDPWeb.

Important

The complete training guide for the Capital Projects budget Module can be found on the web at:

http://www.miamidade.gov/budget/FY2012-13/budget-development.asp

Please see page 22 for more information on training sessions.

Below are descriptions of the system selections:

- Project The project name will automatically be all CAPITAL LETTERS. The project number, which appears before the project name, is automatically assigned by the system. Physical location of the project should not be abbreviated in the project title, i.e. Street, Avenue, etc.
- Chg Proj Name Check this box if the name of the project needs to be changed or updated and enter the new name in the appropriate field.

• Description – Describe the size, scope, and use of the project. It must begin with a verb such as: Construct, Design, Add, Waterproof, Replace, Modify, Expand, Provide, etc. The description may be extended with phrases separated by semicolons, beginning with verbs. Describe all years' activities, not just FY 2011-12. This field is limited to 255 characters. Do not put a period at the end of the description. The description is not a sentence or a paragraph; it is a phrase or series of phrases.

 Location - Physical location of the project: use these abbreviations, as applicable:

NW, SW, Ave, St, Blvd, Ln, Ct, US1<u>do not use periods</u> in the abbreviations

If a specific street address is not available, provide as specific a location as possible:

Notice there are no periods used with these abbreviations

a boundary – North, South, East and West; the beaches from 41 St to 79 St; Vicinity of Tamiami Airport, Port of Miami, Miami International Airport, etc.

- Strategic Area Indicate which strategic area this project falls within from the following list: Policy Formulation, Public Safety, Transportation, Recreation and Culture, Neighborhood and Infrastructure, Health and Human Services, Economic Development, and General Government.
- Function Use the most accurate and descriptive function available. Projects will be grouped by function in the expenditure summary that appears at the bottom of each department's narrative section. If function does not exist and must be added, contact your OMB budget analyst.

- Est. Start Date Enter the date the project started or is expected to start.
- **Est. Completion Date** Enter the date the project was completed or is expected to be complete.
- Location Code This is the general location of the project. It may
 be a municipality in which a project is located (City of Miami), an
 area (Unincorporated Miami-Dade County), or a departmentaldefined operational area (Public Housing Region 1). If the project
 is located in more than one municipality or area, but not the entire
 County, use "Various Sites". If the project is located in most or all
 areas of the County, use "Throughout Miami-Dade". If the location
 of the project has not been determined, select "To Be Determined".
 Use "Not Applicable" as necessary.
- Commission District Located Select the district(s) where the project is located. If the project is truly in all districts, then select "CW". If it is throughout UMSA select "UM". If it is throughout the Fire District, select "FR". If it is throughout the Library System, select "LB". If it is Systemwide (as in the case of the Water and Sewer Service System), select "SW". If the location of the project has not been determined, select "To Be Determined".
- Commission District Served Select the district(s) that will be served by the project. If the project is truly in all districts, then select "CW". If it is throughout the entire UMSA area, select "UM". If it is throughout the Fire District, select "FR". If it is throughout the Library System, select "LB". If it is Systemwide (as in the case of the Water and Sewer Service System), select "SW". If the location of the project has not been determined, select "To Be Determined".
- **Community Council** Designate Community Council only if the project is located in Unincorporated Miami-Dade County. Otherwise, select "*Not Applicable*".
- Estimated Annual Operating Costs All projects must take into account the costs associated with personnel and other operating costs.
- CIE Info This information is required for the Capital Improvements Element (CIE), which is a component of the Comprehensive Development Master Plan. Departments included in the CIE are Aviation, Transit, Public Works and Waste Management (PWWM), Port of Miami, Parks, Recreation and Open Spaces (PROS), Permitting, Enforcement and Regulatory Affairs (PERA), and Water and Sewer. Select one of the following:

- "Combined/Other", "Existing Deficiency", "Future Growth", "Not-Applicable" (for all other departments not mentioned above)
- CIE Element Select which element will apply to each project (if applicable).
- Mark Project for Deletion Check this box if the project is being deleted for reason(s) other than being completed. The project will not appear in the Funded Project Report or the departmental capital budget submission if this box is checked.
- Project Completed Check this box if the project is complete or expected to be complete by September 30, 2012. The project will not appear in the Funded Project Report or the department's capital budget submission if this box is checked.
- PTP Project Check this box if the project is part of the People's Transportation Plan (PTP).
- **TIP Project** Check this box if the project is part of the Transportation Improvement Plan (TIP).
- **BBC Project** Check this box if the project is part of the Building Better Communities (BBC) General Obligation Bond Program.
- Justification/Comments Use this field to indicate the reason a project is being deleted and for all other comments.

Revenues, expenditures, and donations may have occurred or will occur for a project in prior years and FY 2012-13 through FY 2017-18 and beyond. The revenue, expenditure, and donation screens include the project name and number, as well as the project description fields.

- Prior Include all years' actual revenues, expenditures, or donations through FY 2011-12. It is the sum of all actual revenues, expenditures or donations from the beginning of the project through December 31, 2011 plus projected revenues, expenditures or donations from January 1, 2012 through September 30, 2012. <u>All</u> <u>dollars must be entered in thousands</u>.
- 2012-13 through Future For each year enter the appropriate revenue, expenditure, or donation amount. <u>All dollars must be</u> entered in thousands.
- Current Year Projection (2011-12) Enter the amount of revenue, expenditure, or donation allocated in FY 2011-12 only. This

FY 2012-13 Capital Budget Plan Submission Manual

amount is not included in the total project amount because it is already included in the "Prior" field. <u>All dollars must be entered in thousands.</u>

• Always check project totals whenever revenues, expenditures, or donations are added, modified, or deleted.

The unfunded projects have the same fields as funded projects. The only difference is that there is only a total project cost (not revenues and expenditures) and that each project must be prioritized.

Important

Please ensure that work is saved after each data step has been input.

<u>Section V – Requesting Funding from the Capital Outlay</u> Reserve (COR)

Departments are encouraged to submit requests for funding from the COR. If the department's opinion is that a project warrants COR funding, and the project will be initiated during FY 2012-13, it should be included in the funded portion of the departmental capital budget submission. OMB will review each request, and, to the extent funding is available, priority projects will be included in the FY 2012-13 Proposed Capital Budget.

If the project is not funded, it will be moved to the unfunded portion of the capital submission.

As COR requests are prepared, be as specific as possible in defining projects and try to relate the project to the department's strategies for delivering services.

- Describe how the project, if funded, will enhance performance and the furtherance of strategic departmental goals
- > Request only as much COR as can be spent within a given fiscal year
- Linkage to the departmental business plan will be critical in this regard

Important

The way to request funding from COR is by including the project as a funded project with COR as the funding source. Treat the project as funded unless otherwise informed.

- Putting a project on the list of unfunded capital projects <u>does not</u> request funding from COR
- Sending an email to an OMB business analyst <u>does not</u> request funding from COR
- Mentioning the project in the RFRO forms <u>does not</u> request funding from COR

<u>Tip</u>

The highest consideration will be given to projects that:

- Link to a department's business plan and the County's Strategic Plan
- > Cannot be funded from other sources
- > Can be spent within the fiscal year in which the funds are allocated
- ➤ Have the best business case as presented by the department; this argument should show the impact of this project being funded in measurable terms

<u>Tip</u>

Please include as much information as possible in the "Justifications/Comments" section. There is no limit on the number of characters that can be input in this section.

Section VI – Style Guidelines

Since the information to be input into Capital Projects Budget Module will directly be printed in the FY 2012-13 Proposed Budget (Volume 3), it is important to standardize the information as much as possible.

Project names should be consistent within each department. That is, all Road Widening Projects should start with "Widen . . . ", all Fire Stations should have the station number in parentheses after the station name, all Corrections Projects should start with the facility in which the improvement will be done, etc.

Tip

Keep in mind that the projects will be ordered alphabetically by function. It is easiest for the reader to keep all similar projects together.

Notice there are no periods used with these abbreviations If a roadway descriptor ("Street", "Avenue", "Road", etc.) appears in the project name, then spell it out. All other instances of a roadway descriptor should be abbreviated (St. Ave, Rd, Ln, Terr, etc.).

The description should begin with a verb and have no periods (semicolons should be used if necessary).

The second location code should be the municipality in which a project is physically located (unless there is a more descriptive location, such as a Road Impact Fee District).

Style is not important in the "Justification/Comments" section.

If location is typed in (such as Various Sites, Countywide, or Dante B. Fascell Port of Miami-Dade), please make sure that it matches the drop down menu of the same information.

Please be consistent with the style and project descriptions in the current year capital budget documents.

Capital documents may be spelled checked by pasting the information from any webpage in the Capital Projects Budget Module into a Word document.

<u>Tip</u>

For additional style guidelines, review the OMB Budget Style Guide that is attached to the FY 2012-13 Operating Budget Submission Manual.

<u>Section VII – Resources and Next Steps</u>

The Best Resource

By far, the best resource while preparing a capital budget submission is your OMB business analyst. The questions that they ask and the information that they provide will smooth the process for a department more than anything else will. Please keep in contact your departmental OMB business analyst throughout the process.

Information on the Web

Many useful documents are available at www.miamidade.gov/budget. These include all submission manuals (capital and operating), prior year budget documents (books, memos, reports, etc.), OMB budget style guide, and the County Manager's Priorities for the next fiscal year.

<u>Tip</u>

New information will be posted at both the Capital Projects Budget Module CIIS introductory screen and the RFRO introductory screen. Schedules of Resource Allocation Meetings will be kept here. A list of contact names and numbers within OMB is also available at this site.

Capital Budget Module CIIS Training

The FY 2012-13 CIP will be created within the Capital Projects Budget module in the Capital Improvements Information System (CIIS). This training will provide a step-by-step explanation of how to enter, change, delete, and retrieve data into/from the module. Topics include:

- > The importance of each report
- Inputting and updating funded projects (including COR requests)
- Inputting and updating unfunded needs
- Prioritizing unfunded reports

Representatives from OMB will attend each session to provide training and to answer any questions.

<u>Important</u>

Due to the implementation of the Capital Projects Budget Module in CIIS, departmental staff responsible for preparing

the capital budget and CIP is <u>REQUIRED</u> to attend these trainings.

Available Training Dates:

December 5, 20111:00pm-5:00pmDecember 15, 20111:00pm-5:00pmJanuary 5, 20121:00pm-5:00pmJanuary 11, 20121:00pm-5:00pmJanuary 16, 20121:00pm-5:00pm

Where:

Stephen P. Clark Center

111 NW 1st Street

17th Floor Conference Room

Parking is available downtown for a nominal charge directly north of the Stephen P. Clark Center.

How to Register:

Call Amelia Moya of OMB at 305-375-5143 and provide the employee name, position title, and department. Seating is limited and classes will be filled on a first come first served basis.

Materials Needed:

Handouts of the presentation will be provided and available on-line.

Next Steps

The Capital Projects Budget Module in CIIS will be opened for use on **Tuesday**, **December 6**, **2011**. Please contact the appropriate OMB business analyst with the names of those staff members to whom access should be given. Access from last year will be discontinued.

Important

As in prior years, access to the Capital Projects Budget Module in CIIS must be requested on an annual basis.
