MEDICAL EXAMINER FY 2012-13 DEPARTMENT BUDGET PRESENTATION

FY 2012-13 DEPARTMENTAL ISSUES

*	Restore one forensic Photographer (75K) to preserve the department's ability to provide forensic imaging services to its medical examiners, investigators and evidence recovery technicians; cooperate with federal law enforcement agencies; conduct forensic photography workshops; and continue its student internship program. These last three items are revenue-generating activities. Student interns provide 90% of imaging services annually in the morgue and thus free staff photographers to handle other duties, but each student requires an estimated 300 hours of individualized teaching. The switch to digital photography requires 40 hrs/wk of staff time for processing. Filing is currently backlogged 30 days.
*	Restore one Forensic Records Technician (43K) to ensure proper filing of all documents in medical examiner case files (current 30 day backlog of filing all documents in case file folders) and filing of case file folders in storage; prepare copies of case file documents for release as public records to families, attorneys, law enforcement, and the media (current delay of 3 weeks for records requests); store histology slides in cabinets (current 6 month backlog in this area).
*	Restore one Clerk 2 (38K) to provide support to the Public Interment Program (PIP) and the Personnel/Procurement Office. The PIP receives over 1,000 inquiries annually from local families seeking assistance with final disposition. Current staffing of one person in PIP results in delays of 2 months to process cases for indigent families; as many as 30 phone calls and 30 e-mails are left unanswered daily whenever the PIP coordinator is out of the office. The AO3 handling both procurement and personnel duties is backlogged to the extent that procurement delays are seriously hampering departmental operations and delays in resolving personnel matters have created a negative work environment.
*	Restore one Forensic Evidence Recovery Technician (60K) to improve scene response time to requests for assistance at crime scenes and to ensure prompt removal of deceased persons from crime/death scenes, traffic scenes, and deaths in private residences and patient care facilities. Currently 28% of our calls exceed the 60-minute standard and result in bodies remaining at scenes for longer periods, delaying law enforcement personnel at scenes, and creating unpleasant situations for families with bodies remaining on site for several hours.
*	Add one Systems Analyst/Programmer 1 (80K) to expedite ongoing IT projects within the department. Currently projects that should be completed in 2 weeks requires 2 to 3 months or longer. Staff maintain and modify existing software that includes both CME and LIMS, perform network administration, teach employees on new applications, undertake new programming, conduct data mining (5 times/month), provide desktop support (3 – 4 times/day), assist toxicologists with laboratory instrumentation (2 – 3 times/month) and maintain the primary phone system. As many as 6 to 8 new projects are undertaken annually, such as the drug tracking system in 2012. One staff medical examiner with a graduate degree in computer programming kindly contributes as many as 12 to 15 hours/month to assist.
*	Convert one Evidence Recovery Technician from PT to FT. The Evidence Recovery Team was originally created with 15 FT and 2 PT positions, but recent staff reductions necessitate having all current staff on FT basis to provide coverage of 24/7 operation.
*	Convert one Forensic Technician from PT to FT. The Morgue Bureau has been inadequately staffed this past year, resulting in delays in case processing and consequent delays in releasing bodies to funeral homes. In the past decade the bureau has shrunk from 11 to 5 technicians. Although some hires are currently ongoing, the bureau will still have reduced staffing, and these levels necessitate having all current positions at FT to provide appropriate turn-around time and prompt release of cases to funeral homes.
*	Capital funding is needed to replace fragile PBX phone system; instrumentation and equipment that is reaching its age expectancy in the toxicology laboratory and in the photography studio; and other miscellaneous items (such as the forklift and the kitchen appliances) that have already ceased functioning (925K).

Activity (FY 2012-13)	Position +/-	Fiscal Impact & Justification
Death Investigation and Education	1	Restore one forensic photographer (75K) to provide appropriate photographic services to the department and maintain revenue-generating activities that include workshops, student program and cooperative efforts with law enforcement; student program alone offsets work of two full-time staff photographers.
Death Investigation and Education	1	Restore one Forensic Records Technician (43K) to ensure proper filing of all documents in medical examiner case files (current 30 day backlog of filing all documents in case file folders) and filing of case file folders in storage; prepare copies of case file documents for release as public records to families, attorneys, law enforcement, and the media (current delay of 3 weeks for records requests); store histology slides in cabinets (current 6 month backlog in this area).
Administration	1	Add one systems analyst/programmer 1 (80K) to expedite completion of ongoing IT projects; current projects needing 2 weeks require 3+ months; all major departmental functions, including investigations, pathology, photography and toxicology require regular IT support and assistance.
Death Investigation and Education	1	Restore one forensic evidence recovery technician (60K) to expedite removal of deceased bodies from police scenes, including public areas, private residences and patient care facilities; currently 28% of all calls exceed the 60-minute standard and create unpleasant situations.
Public Interment Program	1	Restore one Clerk 2 (38K) to provide support to the Public Interment Program (PIP) and the Personnel/Procurement Office. The PIP receives over 1,000 inquiries annually from local families seeking assistance with final disposition. Current staffing of one person in PIP results in delays of 2 months to process cases for indigent families; as many as 30 phone calls and 30 e-mails are left unanswered daily whenever the PIP coordinator is out of the office. The AO3 handling both procurement and perso
Death Investigation and Education	1	Convert one Evidence Recovery Technician from PT to FT. The Evidence Recovery Team was originally created with 15 FT and 2 PT positions, but recent staff reductions necessitate having all current staff on FT basis to provide coverage of 24/7 operation.
Death Investigation and Education	1	Convert one Forensic Technician from PT to FT. The Morgue Bureau has been inadequately staffed this past year, resulting in delays in case processing and consequent delays in releasing bodies to funeral homes. In the past decade the bureau has shrunk from 11 to 5 technicians. Although some hires are currently ongoing, the bureau will still have reduced staffing, and these levels necessitate having all current positions at FT to provide appropriate turn- around time and prompt release of cases
