Aviation

The Miami-Dade Aviation Department (MDAD) operates a system of airports that provides for the safe and efficient movement of people and goods while being responsive to the needs of customers and safeguarding the environment.

As part of the Transportation and Economic Development strategic areas, MDAD operates Miami International Airport (MIA) and four General Aviation Airports (GAA). MDAD operates the airport system as a financially self-sufficient entity without property tax support from the County. MIA is considered a primary economic engine for Miami-Dade County, and is the major trans-shipment point between the Americas, the Caribbean, and Europe. Servicing 89 airlines with routes to nearly 150 cities on four continents, MIA ranks number one in the USA for international freight and second for international passenger traffic. The Department completed \$6.509 billion in capital improvements to make the airport a more desirable and efficient transportation center. The key elements of the capital improvement program included a new North Terminal, expansion of the South Terminal, improvements to the Central Terminal, construction of an elevated automated people mover system known as the "MIA Mover," roadway and facility improvements, major security modifications, and replacement of the airport's business systems. The Department will continue with a capital program that replaces critical infrastructure and provides capital related maintenance at a cost of \$387.6 million over a five year horizon.

MDAD works closely with a diverse group of constituents, including cargo and passenger airlines and their customers, the support industries that form the air travel base, the Federal Aviation Administration, the Transportation Security Administration, the United States Customs and Border Protection, business leaders, and the media.

- The Department expects to maintain a competitive landing fee in FY 2013-14 at \$2.07 per 1,000 pounds, increasing \$0.32 from the FY 2012-13 level of \$1.75

- MDAD's revenue and expenditure model is based on a residual program per the bond user agreement that stipulates that any fluctuations in expenditures will be matched with a landing fee model that charges a fee per 1,000 pounds of landed weight; due to the debt service increases of a previous \$6.509 billion capital improvement program and a ten percent enplanement growth, it is anticipated that the landing fee will increase, making the cost per enplaned passenger grow to \$22.72 in 2018 from \$20.19 as forecasted in FY 2013-14

Transit

Miami-Dade Transit (MDT), the 15th largest public transit system in the country (based on passenger trips) and the largest transit agency in Florida, plans, markets, and provides regional public transportation services in Miami-Dade County. MDT also implements all of the County's transit-related capital projects in the People's Transportation Plan (PTP), including the expansion of the Metrorail and Metrobus systems.

As part of the Transportation strategic area, MDT provides approximately 29.2 million miles of Metrobus annual revenue service along 93 routes with a fleet of 722 full-sized buses, 25 articulated buses, and 75 minibuses, 2 contracted routes, a 25 mile dual track elevated Metrorail system, a 20 mile Bus Rapid Transit (BRT) line that is the longest in the United States, and a 4.4 mile dual lane elevated people mover system. MDT also provides Special Transportation Services (STS) to eligible participants.

MDT works closely with the Federal Transit Administration (FTA), the Florida Department of Transportation (FDOT), the Metropolitan Planning Organization of the Miami Urbanized Area (MPO), the Citizens' Independent Transportation Trust (CITT), the South Florida Regional Transportation Authority (SFRTA), the Public Works and Waste Management Department (PWWM), citizen advocacy groups, and other transportation stakeholders.
