

Dear BAT Users:

The BAT system will be down beginning at 5 PM today, January 28, 2014. The Information Technology Department will be adjusting the system's security settings in an effort to improve the system's performance. This update will take approximately one hour. We ask that, if planning to work in the system this evening, you log back in at 6:30 pm.

Should you experience any problems while working in the system, please remember to report the issue(s) using the BAT Incident Report Form and e-mail it to [BAT@miamidade.gov](mailto:BAT@miamidade.gov).

Thank you! ☺
