

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

Information Technology

The Information Technology Department (ITD) provides information technology (IT) enterprise and infrastructure services that support the operations of all County departments.

As part of the General Government strategic area, the Department deploys emerging technologies in support of County government operations and services to the public. ITD provides a reliable and secure IT infrastructure, including network and hardware/software platforms, to support departmental applications and enterprise services. ITD partners with other County departments and management to implement and maintain technology solutions that enable efficient operations and delivery of County services, to include telecommunications and radio operations. ITD ensures that its services improve government access, efficiency, and effectiveness through the implementation of appropriate IT standards, methodologies, security, and project management practices.

The Department's stakeholders include all County departments, elected officials, Miami-Dade County residents, local businesses, visitors, and anyone who visits the County's website.

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

DIVISION: OFFICE OF THE DIRECTOR AND OPERATIONAL SUPPORT

The Office of the Director and the Operational Support Division include the CIO and activities that support the IT operational areas of the Department, including procurement, accounting, budget and management, human resources, IT Service Center, and project management functions.

- Oversees the development and use of technologies in order for County departments and their service partners to deliver quality customer service to the public
- Directs strategic enterprise-wide integration of new technologies into the County's IT infrastructure and oversees IT resources and services
- Provides asset management, financial and administrative support; manages human resource activities
- Provides County residents with electronic access to public records and information
- Provides IT project management oversight to better manage funding, improve project outcomes, and increase customer satisfaction

DIVISION COMMENTS

- In FY 2013-14, ITD continued to work with various County departments including Internal Services (ISD), Miami-Dade Police, Regulatory and Economic Resources (RER), and Public Works Waste Management (PWWM) to streamline County IT functions; as of April 2014, 16 resources from PWWM, one resource from Animal Services, and 46 full-time and two part-time resources from MDPD have transferred to ITD as part of the initial effort to consolidate IT functions and services under a centralized model; this on-going effort will produce operational efficiencies, reduce total County IT spend, provide for expanded capabilities, improve continuity of operations, and allow for better collaboration and information sharing
- As part of the establishment of an IT Service Center under ITD, two 311 Senior Call Center Specialists were transferred from Community Information and Outreach (CIAO) to ITD during FY 2013-14; these resources, in combination with other staff that had been transferred in the first phase of IT consolidations and with ITD staff, form the foundation of an enhanced enterprise IT Service Center that will continue to evolve during FY 2014-15

DIVISION: ENTERPRISE APPLICATIONS

The Enterprise Applications Division provides multi-platform Countywide and departmental automated application systems.

- Supports and maintains citizen service applications including Park and Recreation systems, Real Estate and Property Tax Assessment, and Value Adjustment Board related systems
- Supports and maintains MDPD and criminal justice systems and applications relied upon by County, state, municipal, and other public safety agencies
- Provides support to court-related applications such as Civil, Traffic and Parking, Jury, and Electronic Subpoena systems
- Provides application system support for legislative, capital improvements, occupational licenses, and tax collection systems

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

DIVISION COMMENTS

- ITD continues to work with the Miami-Dade County Association of Chiefs of Police to automate the Arrest Affidavit (A-Form) for all County law enforcement; implementation of this centralized repository of arrest information, with interfaces to other criminal justice systems, will be completed during FY 2013-14 and will facilitate data sharing between law enforcement agencies involving 34 municipalities, other arresting agencies, and over 8,000 police and correctional staff
- The FY 2014-15 Proposed Budget includes \$478,000 in General Fund to begin the analysis of Miami-Dade County's Criminal Justice Information System (CJIS), the system of record for defendant-associated data from the time of arrest to case disposition, in order to determine the modernization requirements

DIVISION: ENTERPRISE ARCHITECTURE

The Enterprise Architecture Division delivers enterprise middleware, architecture, and database services; provides support for 311.

- Administers the County's web and employee portal systems and their supporting middleware software systems (Websphere, IIS, etc.)
- Supports and maintains Regulatory and Economic Resources systems including Construction Permitting, Environmental Resources, For-Hire Transportation Licensing, Consumer Protection Services, and Film and Entertainment Permitting
- Supports test and production systems using various server database management systems across multiple platforms
- Delivers support services Countywide for the 311 Answer Center
- Delivers program services for ITD internal productivity applications (ePSR, etc.)
- Delivers program services for all Smarter Cities initiatives
- Delivers Countywide enterprise architecture services (software tools standardization, standard technology model, etc.)

DIVISION COMMENTS

- In FY 2014-15, several Smarter Cities initiatives in the areas of water management, intelligent law enforcement, government transparency, health and human services, and intelligent transportation will be enhanced or implemented
- ITD, in partnership with RER, will continue to expand the digital municipal plans review initiative as additional municipalities elect to join the program; as of May 2014, Miami Lakes, Doral, and Cutler Bay had become program participants

DIVISION: ENTERPRISE DATA CENTER

The Enterprise Data Center is responsible for the 24 X 7 operations, maintenance, and support of the hardware and operating system software that run the County's mainframe and distributed systems computer environments. This Division provides enterprise storage and backup services, mainframe printing services, server and application virtualization services (Private Cloud) and desktop virtualization services.

- Manages all enterprise-class operating system software, including performance tuning and capacity planning
- Operates the Command Center which monitors production system operations and high-speed printing and provides after-hours call-center support
- Provides systems administration for all enterprise operating systems (AIX, Solaris, UNIX, WINTEL/Linux, VMWare and Citrix) and hardware in support of distributed systems and applications
- Provides mainframe application report printing, delivery and archive services
- Supports desktop virtualization infrastructure, deployment and support services, and provides server and application virtualization services
- Support the County's "private cloud" infrastructure
- Provides mainframe Disaster Recovery services

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

DIVISION COMMENTS

- ☛ As of April 2014, ITD had provisioned virtual desktop functionality to over 3,300 employees countywide, including deployment of over 2,376 thin client devices which generate an annual power savings of \$71,300; ITD will continue to deploy virtual desktop devices through FY 2014-15
- The implementation of "sub-capacity" licensing metrics, and "soft-capping" technology has enabled the Data Center Division to reduce expenditures for mainframe software licensing, and increase utilization of "effective capacity" on the hardware; sub-capacity licensing makes it possible to control mainframe licensing costs

DIVISION: ENTERPRISE RESOURCE PLANNING

The Enterprise Resource Planning Division delivers enterprise program services for Enterprise Resource Planning (ERP) and core legacy systems including human resource and financial systems.

- Leads the County's Enterprise Resource Planning implementation to support the full HR/recruitment, payroll, financial, budgeting and procurement business processes
- Provides program services for PeopleSoft ERP and Hyperion
- Supports legacy financial and procurement systems (FAMIS & ADPICS)
- Supports legacy human resource and payroll systems
- Supports various County social service and e-Commerce applications

Strategic Objectives - Measures

- GG2-4: Provide customer-friendly human resources services

| Objectives | Measures | | | FY 11-12 | FY 12-13 | FY 13-14 | FY 13-14 | FY 14-15 |

DIVISION COMMENTS

- During FY 2013-14 ITD, in partnership with RER, implemented a web-based self-service one-stop-shop portal where citizens will be able to obtain comprehensive guidance on the start-up of a business within Miami-Dade County and municipalities including information on federal state and local licensing requirements
- E-Commerce services, an efficient and secure means to pay for County services via the Internet, continues to grow, with over \$1 billion in collections annually; additional e-Commerce functionalities planned for FY 2014-15 include new Voice Recognition service structure to receive payments over the telephone, an enterprise reconciliation process that will provide County departments an automated solution to reconcile the County's payment gateway and the clearing house daily settlements, and an online payment application that will enable Veterinary Clinics to automatically submit vaccine certificate information to the County
- ☛ In December 2013, ITD and the Office of Management and Budget (OMB) went live with the initial phase of the Budgeting Analysis Tool (BAT); development of new functionality and deployment of Phase II includes capital budgeting and position management
- Phase 1 of the Vendor Consolidation Project, "Online Vendor Registration," is planned for completion in FY 2013-14
- *The FY2014-15 Proposed Budget includes the elimination of one vacant Chief-RER Computer Services position that was originally transferred as part of the consolidation of RER IT resources; the position is being eliminated to help restore the staff-to-manager ratios to target levels (\$123,000)*

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

DIVISION: ENTERPRISE SECURITY

The Enterprise Security Division develops and implements data security policies, manages enterprise security risk, and manages the County's data security infrastructure, remote access, directory services, and mobile messaging.

- Reduces risk exposure present in the County's computer infrastructure by establishing mitigation programs, to include cyber security and business continuity planning
- Provides information security services management including firewalls, intrusion detection and prevention, anti-virus, Domain Name Services (DNS), and Internet proxy infrastructure
- Provides electronic mail (e-mail) and e-mail archiving services for communications within the County and with external entities, agencies, and constituents while protecting against virus attacks and unsolicited commercial e-mail (SPAM)

Strategic Objectives - Measures

- GG3-3: Improve information security

| Objectives | Measures | | | FY 11-12 | FY 12-13 | FY 13-14 | FY 13-14 | FY 14-15 |

FY 2014 - 15 Proposed Budget and Multi-Year Capital Plan

DIVISION COMMENTS

- The implementation of asset management technology to automate preventive and corrective maintenance for the Aviation Department is targeted for completion in FY 2014-15; expansion of automated asset management functions for Miami-Dade Transit bus and rail operations is planned for FY 2014-15
- In FY 2013-14, several GIS initiatives were started in partnership with municipal governments, including the Mayor's Bike305 initiative, developed in collaboration with the Parks, Recreation and Open Spaces Department (PROS) and five municipalities, featuring bike trails, events and points of interest across the County; in collaboration with municipal public safety partners, started development of the Helping First Responders Operate System (HERO); a GIS-based system enabling first responders and command personnel to make more informed and effective decisions
- In FY 2013-14, GIS technology was utilized to complete the balancing and re-precincting of elections precincts based on the 2010 Census data; the "Know Where to Vote" site shows new precinct and polling information
- The ITD FY2014-15 Proposed Budget includes \$415,000 in funding for the acquisition of ortho-photography images which are updated annually as part of the on-going maintenance required to keep the data and images current in the GIS database; additionally, the ortho-photography, in combination with oblique imagery which is funded in the Property Appraiser's budget, is used to facilitate the determination of a property's assessment value in compliance with Section 193.114(2)(n) of the Florida Statutes

DIVISION: FIELD SERVICES

The Field Services Division is responsible for engineering, services for the integration of voice and data solutions, enterprise management and maintenance services to support the County's data, voice, and wireless point-to-point and broadband, private wired line, telecommunications equipment infrastructure, encompassing personal computing devices and auxiliary peripheral devices.

- Provides telecommunications design and engineering services for new facilities, and updates to existing facilities, including network solutions services for the integration of voice and data solutions
- Provides infrastructure cabling services for data, voice, video and cable TV
- Provides installation and setup of new telecommunication equipment including network, video, telephone systems and devices, personal computing, wireless and print devices, mainframe terminals, and auxiliary peripheral devices; delivers equipment maintenance and support services
- Provides support 24 X 7 for the 911 and 311 call centers
- Manages a carrier class core fiber optic network, as well as the routed and switched network configuration, connecting over 600 sites to MetroNet
- Provides carrier-class wireless point-to-point, point-to-multipoint, fixed outdoor or mobile Broadband, and Wi-Fi/WiMax services
