****New Service**

~~New service container volumes qualifying for the \$40 container rate will not count toward the calculation of the Volume Discount. However, a line may elect to forego the \$40 New Service rate at the time the service is introduced, thereby allowing the throughput to count toward the Volume Discount. New Service shall cease being deemed New Service as of September 30, 2014, and the volume discount for any New Service shall not extend beyond September 30, 2014~~

Definitions:

Lift(s): Any container, laden or empty, loaded onto or discharged from a vessel or barge in the Port of Miami, save that transshipments will only count as one (1) Lift and shall be assessed only one (1) Port Throughput Charge. Shiftings and restow moves are excluded.

Fiscal Year(s): Any twelve (12) month period from October 1st to September 30th of the following year.

~~New Service: Any new vessel line service calling at the Port introduced by a shipping line which exceeds 85,000 moves after the date of this Tariff publication.~~

Eligibility:

Only individual shipping lines that produce more than 85,000 moves in a Fiscal Year shall qualify for this Volume Discount program.

The total volume in the Port of an individual shipping line shall include any such shipping line's container moves performed in the Port of Miami, in one or more container terminals, on its own vessels or any other vessel or barge operated by another ocean carrier or barge operator through a vessel sharing or slot charter agreement.

However, if individual shipping lines participate in consortia or vessel sharing agreements with other shipping lines, individual shipping lines shall not be able to include the containers subject to a contract of carriage issued by their partners when calculating their eligibility under this Volume Discount program.

The above rates may vary for lines entering into agreements with the County, whereby the line(s) guarantee an annual minimum throughput commitment.
