

FY 2016 - 17 Adopted Budget and Multi-Year Capital Plan

Solid Waste Management

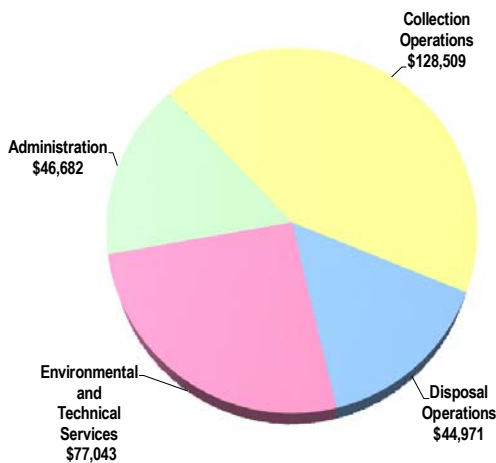

The Department of Solid Waste Management (DSWM) collects garbage and trash in the Waste Collection Service Area (WCSA), performs a series of waste disposal tasks countywide, provides mosquito control services countywide and enforces County ordinances as appropriate countywide.

As part of the Neighborhoods and Infrastructure strategic area, DSWM provides a variety of services for residents, including garbage and trash collection and curbside collection of recyclable materials. In addition, the Department operates 13 Trash and Recycling (T&R) Centers in the WCSA and provides waste transfer and disposal services countywide to municipalities and private haulers. DSWM is also responsible for the operation and management of three regional transfer stations and associated fleet, two operating landfills, and the Resources Recovery facility (one of the largest waste-to-energy facilities in the world) and a co-located ashfill. Other services provided include residential and commercial code enforcement, litter clean-up, transit bus stop litter collection, maintenance of two County-owned closed landfills and three closed cells, illegal dumping enforcement and removal, and storm debris removal. Additionally, DSWM has countywide responsibility for the regulation of waste collection, transportation of waste, recycling activities, and providing mosquito prevention, education and outreach for environmentally sensitive mosquito control services,

In fulfilling its purpose, the Department contracts with municipalities and private haulers to provide them with disposal services and manages an agreement for the operation of the Resources Recovery facility. Landscape businesses also obtain permits from DSWM for use of the T&R Centers, landfills and the waste-to-energy facility. The Department coordinates with federal and state regulators, other County departments, and municipalities for the implementation of disposal site mitigation. DSWM also works with community stakeholders such as homeowners' associations to maximize customer satisfaction, as well as the Department of Health on mosquito control issues.
