

# Memorandum

Date: May 20, 2014

To: Honorable Chairman Esteban Bovo, Jr.  
and Members, Finance Committee

From: Carlos A. Gimenez  
Mayor 

Subject: FY 2014-15 Department Budget Presentation Directive Responses

---

The following are responses for information requested by the Finance Committee during the March 11, 2014 budget development process presentation and the April 21, 2014 Departmental Budget Presentation workshop.

1. Chairman Bovo requested a report on the number of employees under the Mayor's purview who continue to pay the five-percent healthcare contribution and the amount paid.

Attachment 1 is a listing by department of County employees under the Mayor's purview that continue to make a five or ten percent healthcare contribution and the amount paid to date.

2. Commissioner Heyman asked the Office of Audit and Management Services (AMS) whether reasonable collection and investigation costs up to 40 percent could be charged to vendors doing business with the County, pursuant to Florida Statute, in addition to the amount owed.

The section of State Statute referenced by Commissioner Heyman applies directly to the Clerk of Courts and its ability to pursue the collection of past due fees, fines, court costs, services charges, and liens for payment of attorney fees. The 40 percent charge is only applied if the Clerk hires an attorney or outside agency to collect outstanding debt on the Clerk's behalf.

Currently any revenue AMS generates associated with audit findings on County contracts is transmitted to the applicable department. In order for AMS to collect a surcharge on audit findings, vendor contracts would need to be modified allowing for the additional charge. The Board of County Commissioners would need to adopt policy that would allow for these charges on County contracts.

3. Commissioner Heyman asked the Department of Cultural Affairs (DoCA) to provide a report on the indirect economic impact associated with cultural affairs programming.

The Department is in the process of preparing a detailed report in response to similar requests recently approved by the Board through Resolutions R-248-14 and R-249-14. The legislation requested reports on the economic impacts of art, cultural, sporting, and other major events to Miami-Dade County.

4. Chairman Bovo requested a report on the amount of personnel costs paid by the DoCA associated with the administration of grant funded programs.

The Department is responsible for distributing \$13.741 million in grant revenue. There are 11 Grant Program Administrators who spend 65 percent of their workweek managing the grants at an estimated cost of \$755,000 for FY 2014-15.

- Chairwoman Sosa requested information on the increased rental expenses submitted in DoCA's Proposed Budget.

Building Leases under Fund SO125, Sub-object 25190 did not increase from FY 2013-14 to FY 2014-15 as these rates are part of the ISD charges:

• FY 12-13 Actual	\$226,996
• FY 13-14 Budget-Adopted	\$239,000
• FY 13-14 Projections	\$239,000
• FY 14-15 Budget-Proposed	\$239,000

- Commissioner Heyman requested a report on the annual direct costs associated with providing spay/neuter services.

In FY 2012-13, the cost to provide 3,398 public spay/neuter services was approximately \$238,000.

- Commissioner Heyman and Commissioner Souto asked whether the general services administration building currently used for surplus county property or other designated properties could be used as additional sites to provide animal services.

The Internal Services Department (ISD) building, currently used for the management of materials such as office supplies and the print shop, is not a viable option for the Animal Services Department (ASD) to use as an additional site for spay and neuter activities due to its size and adaptation to surgery. ASD has found another site that is better suited for the surgical operations that are required for the spay and neuter activities.

- Chairman Bovo requested a report on the rate of return and the amount of income received to support no kill programs through solicitations included in County bills and tax notices.

The amount collected from donations through the County's tax bill notices was \$31,009.26.

<b>Department</b>	<b>Amount</b>
Animal Services	\$12,365.00
Library	\$ 7,739.00
Fire Rescue	\$ 5,845.00
Police	\$ 5,035.26
Parks, Recreation and Open Spaces	\$ 25.00

- Chairman Bovo requested a report on the amount of outstanding commercial and residential debt owed to the County.

Attachment 2 details the outstanding receivables associated with County code violations, including but not limited to contractor, police, and animal citations as well as medical bills for Jackson Health System.

10. Commissioner Moss requested the Internal Services Department (ISD) review options to reduce costs by eliminating duplicate procurement functions throughout individual County departments.
11. Chairman Bovo asked that ISD review the procurement process; its legislation and regulations; the number of layers in the process; the cone of silence as applied to bid protests; as well the bid protest process.

In response to both #10 and #11, on May 6, 2014, a memorandum was distributed advising the Chairwoman and members of the Board of County Commissioners about the creation of the Procurement Reform Task Force (see Attachment 3). This task force will be responsible for reviewing the County's current procurement process and policies with the intent of developing recommendations to improve and/or streamline for the Board to consider. ISD is continuing its efforts to streamline procurement processes and will facilitate the Task Force's review of these issues.

12. Chairwoman Sosa requested a report on funds spent for employee travel for all county departments over the previous two years; including the names of employees, the number of trips taken and the purpose of the trip.

Attachment 4 details by County department every employee that traveled in FY 2011-12 and FY 2012-13, including the location and purpose of the travel. Because of the volume of travels and sensitivity of information associated with extraditions and investigations in the Police Department, those were grouped together. As you are aware, not all travel expenditures are funded from the General Fund. Funding can also come from state and federal grants, proprietary revenues, as well as paid by the individual traveler. Overall the County spent \$1.14 million in FY 2011-12 and \$1.78 million in FY 2012-13.

13. Chairwoman Sosa requested a report reflecting the names of all county employees receiving executive benefits, broken down by County department.

Attachment 5 is a listing of every employee currently receiving executive benefits by Department. In addition, it is important to mention that some departments will have charges posted under the executive benefit line item even if it currently does not have any employee receiving the benefit. This is attributable to benefits that are being provided to those employees that either left or retired from the County that previously had the benefit for which the County is providing health insurance (i.e. former elected officials, County Managers, Directors, Assistant Directors, etc.).

14. Chairwoman Sosa requested a report on services provided by the Internal Services Department to other County departments, along with the costs for those services.

As part of the annual budget development process, the Office of Management and Budget (OMB) gathers the various rates, fees, and/or charges for services provided by the Information Technology Department and ISD that all County departments need to take into consideration when developing the departmental budgets. These rate, fees, and/or charges are compiled and published in the Budget Development Manual that is posted on the County's OMB website at <http://www.miamidade.gov/budget/bat-budget-manual.asp>.

15. Chairman Bovo, Commissioners Souto and Zapata requested a review of the provision in Article 7 of the County Charter preventing libraries from occupying County-owned facilities located in

County parks and other sections of the charter related to the necessity to pay the County rent for the use of those facilities.

The Article states that in order to use park property for anything other than park/recreational related activities requires approval from County voters via referendum. The Board also as the option of amending the County Charter to expand the allowable uses of park land, however, this too would require a referendum and approval from County voters.

Article 1 Section 1.01A(11) of the County Charter states that all County funds generated by special districts, such as the Library District, shall be provided by service charges, special assessments, or general tax levies within such districts only. The Library Department is required to provide rent as reimbursement for, and/or pay for, maintenance of the facilities managed by any other County department.

16. Commissioner Zapata requested that OMB provide the Finance Committee with an analysis of the increased revenue needed to maintain current service levels and to close the budget gap, excluding healthcare and Florida Retirement Services costs. He also asked for an analysis of the factors contributing to the County budget's rapid growth and to begin looking into the efficient management of the self-insured health plan.

A presentation will be made at the May 21, 2014 Finance Committee meeting to present this information as well as an update on the budget development status.

17. Commissioner Heyman requested a report identifying cost-saving measures and methods to generate additional revenue within each County department and the consideration of recommendations made by the union representatives at impasse hearings, pursuant to Resolution R-240-14, at the March 4, 2014 Board of County Commissioners meeting, be presented to the Finance Committee at the upcoming Special Budget Review meetings.

Staff is currently working through the budget development process that includes the review of cost-saving measures, departmental restructuring, and revenue generating opportunities. The information will be presented to the Board of County Commissioner within the 60-day timeline provided in Resolution R-240-14.

Should you have any questions, please contact Edward Marquez, Deputy Mayor, at 305-375-1451.

c: Honorable Chairwoman Rebeca Sosa  
and Members, Board of County Commissioners  
Robert A. Cuevas, Jr., County Attorney  
Office of the Mayor Senior Staff  
Jennifer Moon, Director, Office of Management and Budget

# Memorandum

**Date:** May 6, 2014

ATTACHMENT 3

**To:** Honorable Chairwoman Rebeca Sosa  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor

A handwritten signature in black ink, appearing to read "Carlos A. Gimenez", written over a horizontal line.

**Subject:** Procurement Reform Task Force

---

As Miami-Dade County brings greater transparency, efficiency, and fiscal responsibility to everything we do, we will continue our work to improve and simplify our procurement process. Our goal is to build on what works best, improve what does not and secure the best possible value in each contract so that it benefits taxpayers.

To that end, I am convening a Procurement Review Task Force comprised of business and community leaders, including a member of the County Commission, to review our current procurement policies and processes. The group's membership and meeting date(s) will be shared under separate cover within the next two weeks.

Task Force members will be asked to maintain our proactive approaches to competition and transparency, cutting red-tape and making it easier to do business with Miami-Dade County. They will seek greater simplicity and flexibility for county departments and vendors while ensuring a fair and equitable playing field. And, in an effort to speed up the process for new ideas, recommendations will be made as they emerge and gain consensus from the Task Force, along with a final report. This work will also complement my administration's continued efforts to move forward with vital reform recommendations.

Miami-Dade County spends billions of dollars for goods and services each year from vendors ranging in size from multi-national corporations to small mom and pop businesses throughout our community. It is critically important that everyone involved – taxpayers, County departments, policymakers, and vendors – have all of the information necessary to secure the best possible value, and that all procurements continue to be conducted with the maximum level of transparency, fairness and integrity.

The review of procurement ordinances will yield recommendations with a goal of significant reductions in non-value added requirements. This also includes a full review of any changes needed to promote and implement Public-Private Partnerships and innovations from the private sector.

The Task Force will make recommendations regarding additional administrative and legislative reforms that would make procurement more efficient, easier to navigate for vendors, as well as reducing the layers of requirements that have been added to the basic processes.

The scope of the Task Force will include goods and services, as well as construction and design services. Areas of review will include:

- Alternative competitive procurement methods such as Requests to Negotiate, Cooperative Purchasing, Reverse Auctions, Best and Final Offers, and Pre-qualification Pools
- Bid protest procedures
- RFP scoring, negotiations and other related functions
- Integrated technology systems

- Delegated authority thresholds
- Contract award approval process

By way of background, in April 2013, Audit and Management Services (AMS) completed a comprehensive audit of the County's internal procurement operations and processes, including a review of opportunities to enhance operational effectiveness. The Audit Report made a point to commend the Procurement Management Services Division of the Internal Services Department (ISD) for its diligence and integrity in managing the County's Procurement Program. ISD was found to be in full compliance with county policies and procedures and is well underway for implementing administrative improvements to the process.

The Audit Report also included several opportunities to streamline operations and enhance overall effectiveness. Most of the recommendations were embraced by ISD and have been implemented or are in the process of being implemented as technology and resources allow. Additionally, ISD has identified other improvement opportunities that have significantly reduced the number of non-value added transactions in the procurement cycle. The observations and recommendations of AMS and the improvements made by ISD have had a significant impact on the County's ability to procure goods and services that meet the needs of our residents and visitors. However, there is still a great deal more to be done.

The Task Force will also review the recommendations of the Procurement Review Advisory Board (PRAB) established in 2005 by Resolution R-1205-5, and assess the status of implementation of their recommendations, and update these as necessary. The PRAB consisted of business and community leaders that provided valuable insight and recommendations that are still in effect today. The improvement opportunity identified by the PRAB focused on business requirements and value-added best practices consistent with the time. Now, nearly nine years later, it is time to refresh our procurement reform efforts.

c: Lisa M. Martinez, Chief of Staff, Office of the Mayor  
Edward Marquez, Deputy Mayor, Office of the Mayor  
Lester Sola, Director, Internal Services Department
