SUBJECT: Waterproofing Inspections

At their meeting of September 20, 2007, the Board of Rules and Appeals rendered an interpretation regarding required inspections for waterproofing systems installed in accordance with the Florida Building Code (FBCB) Section 1519 and Florida Residential Code (FBCR) R4402.8.16.

In addition to other requirements contained in Section 1519 and R4402.8.16, the Board determined that the mandatory inspections for waterproofing systems are to be conducted in the same sequence and manner as required for continuous roof systems.
