## (1) Introduction

Miami-Dade County (the County), through the Department of Regulatory and Economic Resources, Economic Analysis and Policy Unit (RER), as the local Enterprise Zone Coordinating Agency for the State of Florida (the State), as authorized by the Florida Enterprise Zone Act, is soliciting applications for the modification of Enterprise Zone boundaries (EZ) #1301 and/or 1301-A.

Under the provisions of the Florida Enterprise Zone Act, the County can apply once every three years for a modification of its EZ boundaries. This change cannot increase the current size of the EZ. Any modification requires an exchange of areas. Proposed modifications must meet the eligibility criteria of Florida Statutes 290.0055, 290.0058 and 290.0065. Responses to this RFA will be considered as important community input as the County prepares its application to the Florida Department of Economic Opportunity, Division of Community Development, for boundary modifications to the County's designated Enterprise Zone. The State may accept or deny the County's application for an EZ Boundary Modification. Upon acceptance of the application by the State, no further administrative boundary modifications may be considered for at least three (3) years after this modification.

The current composition of the County's EZ area includes parts of several municipalities (i.e., Hialeah, Miami, Opa-Locka, City of Florida City, City of Miami Beach, as well as others). Applicants seeking modifications of EZ boundaries in areas within municipal boundaries are strongly encouraged to secure the affected municipality's support prior to submitting their application to the County.

## (2) General Information about the RFA

- All applicants must submit an **Application Cover Letter** as the first page of the application. The cover letter must include the following: legal name of the developer/business; federal employer identification number (EIN); organization type (for-profit, not-for-profit, governmental institution); business address; the name of the contact person, title, telephone number(s) and e-mail address. The cover letter must also include a project title; the general boundaries of the proposed area to be included in the EZ; a brief description of the proposed development and/or redevelopment of the area and the projected socio-economic benefits to the residents of the EZ.
- All applicants must submit one (1) original and seven (7) copies of the application in a three (3) ring binder. All originals and copies of the application(s) must include all required documents. Do not exclude any documents from any copy. All pages in the application should be identified with consecutive page numbers.
- A separate application must be submitted for each non-contiguous/separate area proposed for inclusion in the EZ. Do not submit more than one application per binder.
- Applications not submitted in a three (3) ring binder will not be accepted. No pages are to be stapled or clipped.

**(3) FS 290.0058 Determination of Pervasive Poverty, Unemployment, and General Distress**

The proposed Boundary Modification **must prove and adhere to each of the following state statute provisions:**

**Census Data**

- In determining whether an area suffers from pervasive poverty, unemployment, and general distress, as stated in FS. 290.0055 and 290.0065, the governing body and the department shall use data from the most current decennial census, and from information published by the Bureau of the Census and the Bureau of Labor Statistics. The data shall be comparable in point or period of time and methodology employed.

**Determination of Poverty (as sited in FS 290.0058)**

- Pervasive poverty shall be evidenced by a showing that poverty is widespread throughout the nominated area. The poverty rate of the nominated area shall be established using the following criteria:
  - a. In each census geographic block group that contains the nominated area, the poverty rate shall be not less than 20 percent. If parts of the nominated area fall in separate block groups, then the poverty rate, total population, and population living in households at or below the poverty level must be provided for each of those block groups.
  - b. In at least 50 percent of the census geographic block groups within the nominated area, the poverty rate shall not be less than 30 percent.
  - c. Census geographic block groups with no population shall be treated as having a poverty rate which meets the standards of paragraph (a) (less than 20%), but shall be treated as having a zero poverty rate for purposes of applying paragraph (b).
  - d. A nominated area may not contain a noncontiguous parcel unless such parcel separately meets the criteria set forth under paragraphs (a) and (b).

**Unemployment (as sited in FS 290.0058)**

- Unemployment shall be evidenced by data indicating that the average rate of unemployment for the nominated area is not less than the state's average of unemployment, or by evidence of especially severe economic conditions which have brought about significant job dislocation within the nominated area.

**Distressed Conditions (as sited in FS 290.0058)**

- General distress shall be evidenced by describing adverse conditions within the nominated area other than those of pervasive poverty and unemployment. A high incidence of crime, abandoned structures, and deteriorated infrastructure or substantial population decline are examples of appropriate indicators of general distress.
- In making the calculations required by this section, the local government and the department shall round all fractional percentages of one-half percent or more up to the next highest whole percentage figure.
