Description of Project/Bid: To establish a Joint Participation Agreement (JPA) between Miami-Dade County and The City of Miami intended to alleviate the flooding located within the project's boundaries. This project is intended to alleviate the flooding problems on the roadway areas that have an ineffective drainage infrastructure. MDC's scope of work includes furnishing all supervision, labor, materials, tools, and equipment in accordance with the JPA Documents including, but not limited to drainage improvements along South Miami Avenue from SW/SE 12th Street to SW/SE 10th Street which includes the construction and installation of drainage structures, exfiltration trench, grading, sodding, and miscellaneous roadway restoration (including construction of concrete curb and gutters, and sidewalks).

Contract Measures Recommendation		
Measure	Program	Goal Percent
No Measure	CSBE	

Reasons for Recommendation

An analysis of the method of award for this JPA revealed that a Set-Aside for Miami-Dade County's portion is not practical as the City of Miami will advertise all work under one contract and all components of the contract will be constructed by one contractor. Ancillary work on this project is minimal yet required and incidental to the primary scope of work. It is typically performed by the Prime Contractor utilizing skilled and/or unskilled labor.
