No Measure	CSBE	

**Reasons for Recommendation**

This is a resubmittal from 04/05/2012. This is a single trade contract. There are no changes in scope; however, the estimated cost was increased from \$204,444 to \$307,769 to offset the increase in construction prices over the last 2 years.

An analysis of the method of award for this JPA revealed that a Set-Aside for Miami-Dade County's portion is not practical as the City of Miami will advertise all work under one contract and all components of the contract will be constructed by one contractor. Ancillary work on this project is minimal yet required and incidental to the primary scope of work. It is typically performed by the Prime Contractor utilizing skilled and/or unskilled labor.
