### Project Worksheet

**Project/Contract Title:** WATER AND SEWER DEPARTMENT (WASD) STREET REHABILITATION CONTRACT  
**Received Date:** 03/23/2012  
**Project/Contract No:** 20120008 (7360) **Funding Source:**  
**Department:** PUBLIC WORKS DEPARTMENT **WASD**  
**Estimated Cost of Project/Bid:** \$555,000.00 **Resubmittal Date(s):** 03/05/2012

**Description of Project/Bid:** To establish a contract that consists of the replacement of pavements where the original repair has sunken due to backfill sediment, or when previous utility repairs, either temporary or permanent will require additional pavement removal and replacement beyond the original scope of work completed by Miami-Dade Water and Sewer Department's repair crews or its Contractors. This project will provide various size and depths of finish for contracted patch repairs on various asphalt streets. Some streets have a moderate condition rating due to new construction and isolated defects on an otherwise good pavement. They do not warrant resurfacing but can be substantially up-graded by patching the problem areas and then possibly rejuvenating and/or crack filling.
