# Memorandum

MIAMI-DADE  
COUNTY

**Date:** July 12, 2012

**To:** Johnny Lariosa, Buyer  
Administrative Services

**From:** Wilbur Mayorga, P.E., Chief  
Environmental Monitoring and Restoration Division 

**Subject:** Request for Contractual Services

---

The Environmental Monitoring and Restoration Division of the Department of Regulatory and Economic Resources (the Department) is requesting a new two year contract with Dr Steve Roberts of the University of Florida Center of Environmental and Human Toxicology to provide toxicology support services for the Department. The proposed contract is for the amount of \$50,000. The Department previously contracted with the University of Florida and Dr Roberts (contracts WM686: 10/26/2008, WM686-A: 2/1/2003, HW520 10/03/2005, and HW520-A: 8/29/2007).

Under the requested contract the Department will retain the services of Dr Roberts through the University of Florida CEHT on an as needed basis to perform, without limitation, the following services:

Development and management of the Risk Based Corrective Action (RBCA) cleanup target levels for Chapter 24, Miami-Dade County Code

Develop Risk Assessment on behalf of the Department and conduct review of Risk Assessments submitted to the Department

Provide toxicology review to evaluate potential human health and environmental risk associated with products proposed for use or products released into the ground, groundwater or surface waters of Miami-Dade County.

By renewing contractual services with Dr. Roberts the Department will realize significant cost savings, ensures method consistency with the Florida Department of Environmental Protection's Risk Based Corrective Action procedures, and ensure that reports and reviews conducted with Dr. Roberts' input is readily accepted within the state and federal regulatory communities based on his established credibility.

Dr. Roberts has provided toxicology support services to the Department since 1995 and was responsible for developing the initial cleanup target levels for Miami-Dade County's RBCA ordinance in 2001. The Department is required to maintain the cleanup target levels periodically, when the underlying assumptions utilized in RBCA decisions are revised and new chemicals are encountered. Since Dr. Roberts is contracted with the Florida Department of Environmental Protection to provide toxicology support services, he is able to utilize the research conducted and the databases previously developed, by him, on behalf of the FDEP in the development of or revision to Chapter 24 cleanup target levels. This will result in a significant reduction in cost to the Department since these tasks will not need to be duplicated. If

an alternate vendor were contracted for the development and management of the Chapter 24, cleanup target levels the research and database development cost would be borne by the Department.

The fact that Dr. Roberts is also on contract with the FDEP for toxicology support services ensures that such services performed on behalf of the Department by Dr. Roberts are consistent with the methodologies used by the FDEP. This facilitates ready acceptance and expeditious approval of the contaminant cleanup decisions that the Department make based on Dr. Roberts recommendations. Work performed by any other vendor would be subjected to quality assurance review and method justification resulting in lengthy review processes.

In addition to his work with the FDEP, Dr. Roberts holds several advisory positions at the federal level including with the Environmental Protection Agency, the National Research Council and the National Toxicology Program. As such he is very familiar with and remains current and at the forefront of the issues and changes related to environmental risk and environmental regulations. This experience cannot be guaranteed with another vendor and the Department would incur additional cost in the time that would be required to bring someone else "up to speed". In addition Dr. Roberts's involvement and recognition at the state and national levels assures that his work product has ready peer acceptance.

Based on the above, the Environmental Monitoring and Restoration Division request the renewal of contractual services with Dr. Roberts to provide toxicological support services for the Department. If you have any questions concerning the above please contact me at x6708.
