Re: Request for Additional Expenditure Authority to Prequalification Pool No. 9418-0/16, Equipment, Components, Parts and Services for Metrorail and Metromover, and Other Rail Vehicles and Rail Systems for Miami-Dade Transit

The attached item was prepared by the Internal Services Department (ISD) on behalf of Miami-Dade Transit (MDT). **The MDT allocation on this contract is \$15,000,000.00. No Surtax funds requested.**

This item does not request the use of Surtax funds. Although Surtax funds are not being requested, the Mayor has asked that the CITT examine the item and provide a recommendation prior to consideration by the Board of County Commissioners.

The attached item is a modification to an existing competitive contract to increase MDT's allocation to purchase Equipment, Components, Parts and Services for Metrorail and Metromover, and other Rail Vehicles and Rail Systems. MDT's current rail system infrastructure exceeds thirty years of age and requires ongoing improvements, upgrades and rehabilitation, to ensure continued operations and passenger safety. The revenue cars are subject to breakdowns due to their age and daily wear, requiring replacement parts for repairs and preventive maintenance. Outdated parts must often be manufactured due to their unavailability and/or replaced or transferred from one railcar to another in order to keep the trains in service. This contract was competitively bid and reviewed for compliance and application of Small Business Enterprise (SBE) program measures.

This item falls under the 2009 unification amendment described on page 117 of FY 2014 Five Year Implementation Plan of the People's Transportation Plan (PTP).

This item will be heard at the appropriate Committee of the Board of County Commissioners (BCC) and is scheduled for the February 2, 2016, agenda of the Full BCC. If action is taken at the Transportation Trust committee, the item will appear on the January 14, 2016, CITT Full Trust agenda. **(BCC Legislative File No. 152848)**

Mayor

Subject: Request for Additional Expenditure Authority to Prequalification Pool No. 9418-0/16, Equipment, Components, Parts and Services for Metrorail and Metromover, and Other Rail Vehicles and Rail Systems

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize increased expenditure authority of \$15,000,000 to *Prequalification No. 9418-0/16, Equipment, Components, Parts and Services for Metrorail and Metromover, and Other Rail Vehicles and Rail Systems* for the Miami-Dade Transit Department. This pool award was established in August 2011 and provides the County with an open pool of pre-qualified vendors for the spot market purchase of components, replacement parts, and maintenance and repair services, as needed, for transit infrastructure (e.g., Metrorail, Metromover).

The Transit Department's current rail system infrastructure exceeds 30 years of age and requires ongoing improvements, upgrades and rehabilitation to ensure continued operations and passenger safety. Railcars breakdown due to age and daily wear, requiring replacement parts for repair and preventive maintenance. Outdated parts must be manufactured due to lack of availability and/or replaced or transferred from one railcar to another in order to keep trains in service.

The daily service required for preventive maintenance, including various planned rehabilitation projects (e.g., Traction Power Rectifier Transformer Project; Traction Power Switchgear Upgrade Project; and Train Control Project) is expected to deplete the Transit Department's current allocation. The additional expenditure authority, which is based on current monthly usage and projected expenditures for the remaining pool term, will ensure the proper maintenance of transit infrastructure so that patrons have uninterrupted use of the rail systems. The projected costs are broken down as follows: rail maintenance \$7,000,000; track and guideway maintenance \$6,000,000; and mover maintenance \$2,000,000.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

This pool, which expires on July 31, 2016, has an existing allocation of \$56,975,000, for the initial five-year term. Miami-Dade Transit Department's existing allocation is \$56,450,000. To date, the Transit Department has released approximately \$52,984,188 of that allocation. Transit's remaining allocation, as well as the other departmental allocations under the pool, are projected for expenditure. This modification will authorize additional expenditure authority of \$15,000,000, as shown in the table below, increasing the total pool value to \$71,975,000.

Department	Existing Allocation	Additional Allocation Requested	Modified Allocation	Funding Source	Contract Manager
Transit	\$56,450,000	\$15,000,000	\$71,450,000	MDT Operating Revenues	Rodney McMillan
Various	525,000	0	525,000	Various	Various
Total:	\$56,975,000	\$15,000,000	\$71,975,000		

Track Record/Monitor

Jesus Lee, CPPB of the Internal Services Department, is the Procurement Contracting Officer.

Delegated Authority

There is no additional delegation of authority sought in this item as the authority to solicit pricing and award contracts up to an aggregate amount of the allocation authorized by the Board, exercise all provisions of the solicitation documents and any resulting contracts pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38, and add vendors to the pool at any time, subject to ratification by the Board on a bi-annual basis, was granted when the pool was established under Resolution No. R-616-11.

Awarded Vendors

See Attachment No. 1, Vendor Table. There are currently 61 pre-qualified vendors in the pool, of which 12 have local offices.

Due Diligence

Pursuant to Resolution No. R-187-12, due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine contractor responsibility, including verifying corporate status and review of performance or compliance issues. The lists referenced include convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There are no adverse findings relating to contractor responsibility.

Applicable Ordinances and Contract Measures

- The two (2) percent User Access Program provision applies where permitted by the funding source.
- The Small Business Enterprise Bid Preference and Local Preference Ordinances apply at the time of spot market competition where permitted by the funding source.
- The Living Wage Ordinance applies.
