

Barry University | Frank J. Rooney | School of Professional And Career Education

Why a Bachelor's Degree in **INFORMATION TECHNOLOGY** at Barry?

The Bachelor of Science in Information Technology (BSIT) program at Barry University empowers you with the technical, business process management, and leadership skills necessary to compete and excel in today's age of innovation

The BSIT program enables you to:

- Choose the course delivery method that you prefer: evenings, Saturdays, and online available
- Acquire the knowledge and skills required to succeed as an information technology professional
- Become familiar with current technologies, tools, and methodologies
- Understand the different components of the information technology field, including hardware, software, communication, networking, research, and people
- Learn how to methodically and practically approach a variety of technological and managerial issues to improve business strategies
- Analyze and evaluate organizational systems and processes that meet an organization's needs and goals
- Earn up to 30 college credits from learning acquired through professional work experience and community service
- Choose from a variety of specializations and minors to customize your degree

Many of our core and elective courses are aligned with current industry certifications that aim to endorse a professional's knowledge and skills. We will help you prepare for the following certifications:

- CompTIA's A+, Network+, Security+, Linux+
- Microsoft's Certified IT Professional (MCITP), Certified Technology Specialist (MCTS), Certified Systems Administrator (MCSA), Certified Professional (MCP)
- Cisco Certified Network Associate (CCNA)

Barry is military-friendly institution
