Join the Climate Movement!

While you're enjoying a free scoop, how about adding your name to the fight for a better climate future? This year, Ben & Jerry's has teamed up with friends at Avaaz to urge global leaders to address the growing climate crisis, and commit to 100% clean energy by 2050.

During the #SaveOurSwirled tour, they'll be giving ice cream lovers the chance to join 3,000,000 others in signing the 100% Clean Power Petition urging world leaders to transition to 100% renewable energy by 2050.

SAVE OUR SWIRLED!
