**Dr. Kimberly Joseph** began chiropractic care at the age of 12, due to her suffering from migraine headaches and back pain. In 1989 she was involved in a serious skiing accident and broke her back. As an avid athletic outdoors person she was told due to her breaking her back she would never be able to be involved in strenuous outdoor sports again and advised to undergo surgery. Again, seeking complementary treatment she elected chiropractic care in order to avoid invasive spinal surgery. Two years later after intensive treatment with a Chiropractor she resumed her athletic lifestyle and is now healthier and stronger than ever, living without pain and headaches.

Since then **Dr. Joseph** has been a practicing Chiropractor for 18 years in a private family practice in the City of South Miami.
