Supreme Harmony Program

What is the first thing that comes to your mind when you think of **Harmony**? The Merriam-Webster dictionary defines harmony as: *the combination of different musical notes played or sung at the same time to produce a pleasing sound*. It also defines harmony as: *a pleasing combination or arrangement of different things*.

That is how we define **harmony** at DeJongh Acupuncture Clinic because we treat the root cause of the problem, not just your symptoms. You see, the approach and philosophy of Chinese medicine is to treat your body as a whole: **"Mind, Body & Spirit"**.

If your suffering from pain, stress, lack of energy or motivation and emotional disorders, Dr. DeJongh will tailor a treatment plan to bring you "Supreme Harmony" using Acupuncture and Therapeutic Massage.
