relive memories

Special Moments Graphics are printed on “PhotoTex”, a US patented adhesive polyester fabric which gives vivid, sharp print results with brilliant colors. The adhesive back is removable and reusable. It sticks to virtually any painted surface and can be easily removed with a 99% guarantee that surface will be residue free. This material does not rip and is not required to be removed over a certain period of time. Results will vary on stucco and eggshell finished surfaces or heavily painted spackled wall boards. Allow 30 days on newly painted surfaces for out-gassing and that the surface has been primed. This product is recommended for indoor use only. It is environmentally safe and is non-toxic.
