

MIAMI-DADE COUNTY, FLORIDA
Water and Sewer System Revenue Bonds

SECURITY FOR THE BONDS

Pledged Revenues

The payment of principal, premium if any, and interest on the Water and Sewer System Revenue Bonds (the "Bonds") is secured by a pledge and irrevocable lien on the Pledged Revenues which consist of Net Operating Revenues (Operating Revenues minus Operating Expenses as each is defined in the Master Ordinance) of the County's Water and Wastewater System (the "System") and investment income on moneys on deposit in the funds established pursuant to the Master Ordinance other than the Rebate Fund (the "Pledged Funds").

Limited Obligation

The Bonds are special and limited obligations of the County payable from and secured by the Pledged Revenues, and the faith and credit of the County are not pledged to the payment of the principal redemption premium if any, or interest on the Bonds. The issuance of the Bonds does not directly or indirectly or contingently obligate the County to levy any ad valorem taxes whatsoever or to make any appropriation for their payment except from the Pledged Revenues. Neither the faith and credit nor taxing power of the County, the State of Florida or any political subdivision of each is pledged to the payment of the Bonds.

THE MIAMI-DADE WATER AND SEWER DEPARTMENT

History

On October 3, 1972, the electorate of the County approved the formation of a new County-wide Water and Sewer Agency by expanding the then existing Department of Water and Sewer of the City of Miami (the "City"). Subsequently, the Board established the Miami-Dade Water and Sewer Authority (the "Authority") which began operating on April 1, 1973. On March 13, 1975, the City, the County and the Authority agreed to the transfer of all water and sewer properties, facilities and funds of the Department of Water and Sewer of the City to the Authority with the condition that certain property donated by the City would be returned to the City in the future if such property was not needed for water or sewer utility purposes.

On October 4, 1983, the Board enacted Ordinance No. 83-92, which abolished the Authority effective November 1, 1983 and established the Miami-Dade Water and Sewer Authority Department as a department within Miami-Dade County government. On October 19, 1993, the Miami-Dade Water and Sewer Authority Department changed its name to the Miami-Dade Water and Sewer Department.

WATER AND SEWER SYSTEM

General

The System is divided into the Water System and Sewer System. The Miami-Dade Water and Sewer Department administers each on a unified basis for purposes of billing but separates the two for rates, capital improvements and accounting.

Service Area

The System currently provides water and wastewater treatment to substantially all of the County either directly to retail customers or indirectly through wholesale contracts between the Miami-Dade Water and Sewer Department and various municipalities. The County is the largest county in the Southeastern United States in population. In 2010, the population of the County was estimated at 2,564,500.

The Miami-Dade Water and Sewer Department supplies treated water on a wholesale basis to 13 municipally-owned water utilities in the County and to 418,000 retail customers. The only municipalities in the County which operate water treatment facilities for customers located within their municipal boundaries are the City of Homestead, Florida City and City of North Miami and the City of North Miami Beach. The City of North Miami Beach operates a water treatment facility which serves approximately two-thirds of their customers who do not live within their municipal boundaries. The City of North Miami Beach is also an occasional wholesale customer on an as-needed basis. The Miami-Dade Water and Sewer Department also provides wastewater transmission treatment and disposal service on a wholesale basis to 11 municipally-owned wastewater utilities and Homestead Air Reserve Base and approximately 336,000 retail customers. The City of Homestead is the only municipality in the County which owns and operates its own wastewater treatment plant.

Water System

The principal components of the Water System include 15 wellfields, three major water treatment plants, five smaller water treatment plants, two lime recalcining plants, and an extensive transmission and distribution system composed of storage reservoirs, pump stations and a network of transmission and distribution mains.

Sewer System

The Miami-Dade Water and Sewer Department's Wastewater System consists of collection sewers, manholes, lift stations, force mains, interceptors, pump stations and 3 regional wastewater treatment plants: the North District Wastewater Treatment Plant at Interama (the "North District Plant"), the Central District Wastewater Treatment Plant at Virginia Key (the "Central District Plant"), and the South District Wastewater Treatment Plant at Blackpoint (the "South District Plant").

Rates

Effective October 2010, the Department's retail rates were increased by 6.0% consistent with the U.S. Department of Labor Bureau of Labor Statistics, Consumer Price Index for "All Urban Consumers Water & Sewage Maintenance – U.S. Cities Average." Beginning in fiscal year 2006 the Board approved use of a maintenance index annually to provide additional revenues to recover increases in the Utility systems' requirements. This water and sewer maintenance index cannot exceed U.S. Department of Labor Statistics, Consumer Price Index for Urban Consumers Water & Sewage Maintenance – U.S. Cities Average."

In addition, during September 20, 2009 Commission's Public Hearing regarding the County's FY 2009-10 Budget, the Board of County Commissioners adopted an additional 6% rate increase to become effective April 1, 2010. The rate increases are projected to increase revenues by \$35.8 million or a 7.5 % increase for the average retail customer.

For Fiscal Year 2011, wholesale customers' water and sewer rates remain unchanged. An annual true-up of prior wholesale rates occurs annually.

Additionally, as part of the adopted rates, the Board approved a water restriction surcharge in FY 2008 based on permanent or phase of water restrictions imposed by the South Florida Water Management District and applied to fourth tier rate charges.

⁽¹⁾ During September 2008, the Department acquired the water and sewer of a former wholesale customer, the City of Miami Springs. This acquisition added approximately 4,200 water and sewer customers to the Department's retail customer base. Had this acquisition not occurred, the Department's retail water and sewer customers for Fiscal Year 2008 would have been 414,015 and 331, 983 respectively. The drop in customers is a result primarily of increased foreclosures and a decrease in new housing connections.

**MIAMI-DADE COUNTY, FLORIDA
WATER AND SEWER DEPARTMENT
INTEREST RATE SWAPS
as of September 30, 2010 (in thousands)**

The Water and Sewer Department has entered into three interest rate swaps in connection with the Series 1999A Bonds, the Series 2005 Bonds and the Series 2007 Bonds. On November 19, 2008, the Department refunded the Series 2005 Bonds and terminated the swap associated with the Series 2005 Bonds.

On July 29, 2009, the Department was advised by Rice Financial Products that they were assigning their interest in the Series 1999A swap over to Bank of New York/Mellon ("BONY"), with BONY replacing Rice as the counterparty. The Department received this Notice of Assignment Dated August 20, 2009, all terms remain the same under the Swap Documents.

During this time Rice also chose to replace AMBAC and at the same time transferred their interest on the Series 2007 swap to the Bank of New York/Mellon ("BONY") through Novation and Assumption Agreement. This transaction provides for a 1 basis point increase to 1.465 in the constant and all other terms of the swap payment remains the same. Effective date of this transaction is October 2, 2009.

If the counterparties to the swaps default, or if the swaps are terminated, the Department will be exposed to the rates established in each swap agreement. A termination of any swap agreement may result in the Department making or receiving a termination payment.
