

## Harvey Ruvin

### MIAMI-DADE CLERK OF COURT

From the Clerk:

Although 2006 was a light hurricane season, the County's trail blazing efforts to assess what recommendations need to be implemented to adapt to and minimize the effect of negative impacts predicted from Climate Change continues and is receiving interest from local governments all over the world.

Implementation of our major General Obligation Bond for infrastructure construction approved in 2004 is on track. This is an important piece so that so that recent construction has the necessary concurrent urban elements to support it.

The Clerk's Office continues to move forward in advancing technology to improve efficiencies and access to the public and official records. Our motto being "we want to serve more and more of the public on-line" rather than 'in-line."

I deeply appreciate our Finance Department staff, in particular its Bond Administration Division, for the pride and thoroughness apparent in the preparation of this fully compliant **Annual Report to Bondholders**.

Sincerely,

Harvey Ruvin  
Clerk
