MIAMI-DADE COUNTY, FLORIDA Aviation Revenue Bonds

SECURITY FOR THE BONDS

Pledge of Net Revenues

The Aviation Revenue Bonds (the "Bonds") issued under the provisions of the Amended and Restated Trust Agreement (the "Trust Agreement") entered as of December 15, 2002 with The Bank of New York, New York, New York, New York, as Trustee and Wachovia Bank, National Association, (predecessor in interest to U.S. Bank National Association) as Co-Trustee and accrued interest, are payable solely from and are secured, by a pledge of the Net Revenues of the Port Authority Properties ("PAP") under the provisions of the Trust Agreement. The Trust Agreement does not convey or mortgage any or all of PAP as a pledge or security for the Bonds. The Trust Agreement amended and restated a trust agreement entered into on October 1, 1954, as amended, with the Trustee and the Co-Trustee (the "Prior Trust Agreement"). For a brief description of such amendments, see "Amendments to the Prior Trust Agreement" below.

"Net Revenues" is defined in the Trust Agreement as the amount of the excess of the Revenues of PAP over the total of the Current Expenses of PAP. "Revenues" is defined in the Trust Agreement as all monies received or earned by the County for the use of, and for the services and facilities furnished by, the Port Authority Properties and all other income derived by the County from the operation or ownership of said Port Authority Properties, including any ground rentals for land on which buildings or structures may be constructed, whether such buildings or structures shall be financed by Bonds issued under the provisions of the Trust Agreement or otherwise, and Hedge Receipts. "Revenues" do not, however, include any monies received as a grant or gift from the United States of America or the State of Florida (the "State") or any department or agency of either of them or any monies received from the sale of property. "Current Expenses" are defined in part as the County's reasonable and necessary current expenses of maintenance, repair and operation of the Port Authority Properties and shall include, without limiting the generality thereof, amounts payable to any bank or other financial institution for the issuance of a Credit Facility, Liquidity Facility or Reserve Facility, but shall not include any reserves for extraordinary maintenance or repair, or any allowance for depreciation, or any Hedge Obligations or Hedge Charges.

For purposes of the Trust Agreement, unless otherwise provided by resolution of the Board, the proceeds of Passenger Facility Charges and interest earned thereon do not fall within the definition of Revenues and therefore are not included in Net Revenues. The Board has not provided by resolution for the Passenger Facility Charges to be part of Revenues. However, the County plans to transfer Passenger Facility Charges revenue into the Sinking Fund at the beginning of each Fiscal Year and the amount of such deposit will be credited against the Principal and Interest Requirements on the Bonds for that fiscal year.

Limited Obligations

The Bonds are special, limited obligations of the County payable solely from the Net Revenues pledged to the Bonds. Neither the faith and credit of the State of Florida (the "State") nor the faith and credit of any agency or political subdivision of the State or of the County are pledged to the payment of the principal of or the interest or premium, if any, of the Bonds. The issuance of the Bonds shall not directly or indirectly, or contingently, obligate the State or any agency or political subdivision of the State or the County, to levy any taxes for the payment of the Bonds or to make any appropriation for their payment except from the Net Revenues pledged and provided for the payment of the Bonds under the Trust Agreement.

Management's Discussion of Financial Information

Significant items affecting the financial results for Fiscal Year 2006 were:

As of September 30, 2006, the Aviation Department's operating cash position was:

Revenue Fund ^(a) \$59,023,818 Reserve Maintenance Fund \$34,185,224 Improvement Fund ^(b) \$130,728,819

- As part of its agreement to relinquish program management control over the North Terminal, American
 Airlines agreed in FY2005 to contribute \$105 million over the next ten years to pay claims and
 construction costs related to the North Terminal Development capital project. American has now made
 two payments to the Aviation Department; one for \$15 million in June 2005 and a second one for \$15
 million in July 2006.
- The airline industry has been in financial turmoil in recent years resulting in a number of bankruptcies. As of September 30, 2006, the Aviation Department had approximately \$4.9 million in receivables in pre-petition debt from bankrupt carriers. These revenues are not reflected in the historical operating results table because these financial results are presented on a cash basis.
- Aviation fees continue to increase in FY 2006 reflecting the additional debt issued by the Aviation Department to fund its Capital Improvement Program including the major terminal development for the North and South Terminals.
- Management agreement revenue decreased along with a corresponding decrease in management agreement expenses reflecting the Aviation Department's change from owning and operating (through a management agreement) retail concessions to contracting with an outside entity to operate the concession, who pays the Aviation Department a percentage of revenue and rent. The Aviation Department has been undergoing this change for a number of years starting with the duty-free contract, then the food & beverage and currently the retail concessions. A nominal amount of in-terminal concessions such as the Miami International Airport Hotel and the pharmacies will remain under a management agreement type operation.
- Although the retail concession revenue decreased as described above, a net corresponding increase
 was not achieved in concession revenues because a number of the new retail concession locations
 were under construction in FY 2006 thus they did not generate any revenue during this time frame
 resulting in an overall decrease in these revenues on a net basis.

In September 2006, the Board approved the Aviation Department's Fiscal Year 2007 budget. This budget reflects the Aviation Department's expectation of moderate growth in budgeted enplaned passenger traffic (4.4 percent); essentially no growth (i.e., flat) in landed weight (consistent with prior years); increase in operating expenses due to the planned opening of the South Terminal; use of \$73.6 million in PFC revenues to pay debt service (compared to \$65 million used in FY 2006); and an increase from \$7.5 million to \$17.0 million in the annual deposit to the Reserve Maintenance Fund.

During Fiscal Year 2006, the Aviation Department, in conjunction with another County department, implemented a new ERP or Enterprise Resource Planning financial system. This system represents an integrated software platform that runs on a single database that enabled the Aviation Department to replace its legacy financial systems with a fully integrated suite of financial applications, resulting in more timely and

Includes the operating reserve requirement of 13.5% of the current fiscal year's Current Expenses budgeted amount.

Includes \$63.6 million to be transferred to the Revenue Fund during Fiscal Year 2007 as required in the AUA.

valuable financial data. In addition, the system give the Department more flexibility in producing financial reports and make the data more readily available via the web to all authorized users.

Commercial Operations Revenues at the Airport

The Aviation Department received \$147.9 million in commercial revenues in FY 2006, which represents a \$1.3 million or 0.9 percent decrease over FY 2005. The primary reason for this decrease was explained above; the changeover in the retail concession from management agreement to third party operator. Other reasons for the overall decrease include less revenue from decreases in duty free (-25.5), merchandise (8.0%), passenger services (4.6%) and transportation and operation support (30.9%). On the upside, there were notable increases in some of the other major commercial operations at MIA. For example, parking revenue increased from \$34.1 million to \$41.1 million or 20.6% mostly due to increased parking activity and food and beverage revenue increased from \$11.3 million to \$13.5 million or 19.1%.

⁽¹⁾ At the beginning of each Fiscal Year and in accordance with the terms of the Airline Use Agreement (AUA), monies from the previous Fiscal Year remaining in the Improvement Fund are deposited, unless determined otherwise, into the Revenue Fund. The amount of such deposit is Revenue and is required by the AUA to be taken into account in determining the landing fee rate for such Fiscal Year in which the deposit is made.

⁽²⁾ Represents the first eight months of the fiscal year of Port Authority Properties activity and the final four months (June through September) of combined Port Authority Properties and ADF Facilities post-merger activity.

⁽²⁾ Airports Council International (ACI) rankings include Anchorage Airport ("ANC") in its rankings. The Airport excludes ANC from its rankings because of ANC's particular methodology of accounting for freight. The Airport's total freight reflects only enplaned and deplaned freight, while ANC chooses to include a large amount of transit (same aircraft) freight.
