

MIAMI-DADE COUNTY, FLORIDA
Water and Sewer System Bonds

SECURITY FOR THE BONDS

Pledged Revenues

The payment of principal premium if any, and interest on the Water and Sewer System Bonds (the "Bonds") is secured by a pledge and irrevocable lien on the Pledged Revenues which consist of Net Operating Revenues (Operating Revenues minus Operating Expenses as each is defined in the Master Ordinance) of the County's Water and Wastewater System (the "System") and investment income on moneys on deposit in the funds established pursuant to the Master Ordinance other than the Rebate Fund (the "Pledged Funds").

Limited Obligation

The Bonds are special and limited obligations of the County payable from and secured by the Pledged Revenues, and the faith and credit of the County are not pledged to the payment of the principal redemption premium if any, or interest on the Bonds. The issuance of the Bonds does not directly or indirectly or contingently obligate the County to levy any ad valorem taxes whatsoever or to make any appropriation for their payment except from the Pledged Revenues. Neither the faith and credit nor taxing power of the County, the State of Florida or any political subdivision of each is pledged to the payment of the Bonds.

THE MIAMI-DADE WATER AND SEWER DEPARTMENT

History

On October 3, 1972, the electorate of the County approved the formation of a new County-wide Water and Sewer Agency by expanding the then existing Department of Water and Sewer of the City of Miami (the "City"). Subsequently, the Board established the Miami Dade Water and Sewer Authority (the "Authority") which began operating on April 1, 1973. On March 13, 1975, the City, the County and the Authority agreed to the transfer of all water and sewer properties, facilities and funds of the Department of Water and Sewer of the City to the Authority with the condition that certain property donated by the City would be returned to the City in the future if such property was not needed for water or sewer utility purposes.

On October 4, 1983, the Board enacted Ordinance No. 83-92, which abolished the Authority effective November 1, 1983 and established the Miami-Dade Water and Sewer Authority Department as a department within Miami-Dade County government. On October 19, 1993, the Miami-Dade Water and Sewer Authority Department changed its name to the Miami-Dade Water and Sewer Department.

WATER AND SEWER SYSTEM

General

The System is divided into the Water System and Wastewater System. The Miami-Dade Water and Sewer Department administers each on a unified basis for purposes of billing but separates the two for rates, capital improvements and accounting.

Service Area

The System currently provides water and wastewater treatment to substantially all of the County either directly to retail customers or indirectly through wholesale contracts between the Miami-Dade Water and Sewer Department and various municipalities. The County is the largest county in the Southeastern United States in population. In 2004, the population of the County was estimated at 2,374,000.

The Miami-Dade Water and Sewer Department supplies treated water on a wholesale basis to 15 municipally owned water utilities in the County and to 401,181 retail customers. The only municipalities which operate water treatment facilities for customers located within their municipal boundaries are the Cities of Homestead, Florida City, North Miami and North Miami Beach. The Miami-Dade Water and Sewer Department also provides wastewater transmission treatment and disposal service to 13 municipally owned wastewater utilities and 316,170 retail customers. The City of Homestead is the only municipality in the County which owns and operates its own wastewater treatment plant.

Water System

The principal components of the Water System include 8 wellfields, 3 major water treatment plants, 5 smaller water treatment plants, 2 lime recalcining plants, and an extensive transmission and distribution system composed of storage reservoirs, pump stations and a network of transmission and distribution mains.

Wastewater System

The Miami-Dade Water and Sewer Department's Wastewater System consists of collection sewers, manholes, lift stations, force mains, interceptors, pump stations and 3 regional wastewater treatment plants: the North District Wastewater Treatment Plant at Interama (the "North District Plant"), the Central District Wastewater Treatment Plant at Virginia Key (the "Central District Plant") and the South District Wastewater Treatment Plant at Blackpoint (the "South District Plant").

Rates

In April 2002, the Board amended the Miami-Dade Water and Sewer Department's Schedule of Rates, Fees and Charges effective October 1, 2002 for providing services to its customers. The revisions to the retail rate structure and the numerical rates were projected to be revenue neutral for the Fiscal Year 2003, while making fundamental changes in the methods used to calculate customer's bills. This new structure created a consistent, simplified rate structure among retail customer classes and eliminated the seasonal surcharge. In addition, it provided some modest rate relief to most single and multi-family low to average user customers. High volume users and non-residential customers incurred a slight increase.

Retail Rates

Water Service. Under the new rate pay structure, water charges included a meter-based charge that recovers a portion of the Department's fixed costs associated with the retail water service from all customer classes. All retail water customers regardless of their water consumption pay the meter-based charge. The charge is calculated based on the water meter size and number of meters serving the account. A consumption inclining block structure was reduced from 5 to 4 block steps. The consumption charge for multi-families was based on the average consumption per dwelling unit. The new structure maintained the current conservation incentives derived from the inclining block rate structure and eliminated the seasonal rate differential.

Wastewater Service. All customers who utilize the Department's Wastewater System must pay a monthly or quarterly charge for wastewater service. The Department's rates for wastewater are based on a monthly or quarterly fee with an additional charge per usage based on cubic feet or gallons. As is the case with the Water Service in Fiscal Year 2003, the consumption inclining block structure was reduced for steps 2 and 3 to make them more revenue neutral.

Wholesale Rates

As a result of the Cost of Service Study, a wholesale rate structure was developed; however, the new rate structure was not recommended for implementation until the near future. The proposed wholesale rate structure includes a commodity charge to recover costs of average flows and a demand charge to recover costs related to "peak flow" demands made on the utility by its wholesale customers. The Department needed additional time to install the necessary metering devices to bill the wholesale customers, and to expand measures wholesale customers could implement to reduce the impact of this wholesale structure. It is anticipated that the new methodology for billing wholesale customers will be implemented in Fiscal Year 2005 - 2006. Also, the cost pursuant to the new rates would be the same or lower for those wholesale customers with well-maintained systems if they do not place additional demands on the Department's system during peak periods. Those wholesale customers whose systems have significant groundwater infiltration will experience higher costs and peak period demands will become more expensive as well.

Rate Increase

As part of the Public Hearing Budget process in September 2003, the Board approved a rate increase effective October 1, 2003. The retail water and wastewater rates increased an average of 6.5% for the average 7,500 gallons per month. The wholesale water rates experienced an average rate increase of 8.6% to 10.5%; meanwhile wholesale wastewater customers experienced an average rate increase of 2.4%.

- ⁽¹⁾ Represents five smaller water treatment plants.
- ⁽²⁾ South Florida Water Management District allocation.
- ⁽³⁾ Requires use water withdrawal from ASR wells
- ⁽⁴⁾ Hialeah Plant rated capacity is 60 mgd and Preston Plant is 165 mgd for a total of 225 mgd.
- ⁽⁵⁾ Treatment facility capacity is 248 mgd but water allocation and permitted treatment capacity is currently limited to 217.7 mgd., until completion of the ASR wells.
- ⁽⁶⁾ Raw water flows for the 12 months ending September 2004.

The following table is a summary of the treatment parameters and the actual flows of each of the wastewater treatment plants. The North and Central District Plants have available capacity and the South District Plant receives more wastewater flow than its permitted capacity, such that the total regional system's actual flow is below permitted flow.

SOURCE: Miami-Dade Water and Sewer Department.

- ⁽¹⁾ South District permit limitation revised to 112.5 mgd per Consent Order OGC File no. 03-13761
- ⁽²⁾ mg.L equals milligrams per liter.
- ⁽³⁾ These levels are below those allowed by permit.

The South District Plant at Blackpoint capacity was expanded to 112.5 mgd, as part of the Miami-Dade Water and Sewer Department's capital improvement program. The Miami-Dade Water

and Sewer Department has expanded the North District Plant at Interama to a capacity of 120 mgd. There are no current plans to expand the capacity of the Central District Plant.

The number of retail customers for the past five years are as follows:

Delivering Excellence Every Day

\$431,700,000
Dade County, Florida
Water and Sewer System Revenue Bonds
Series 1994

Dated: February 4, 1994

Final Maturity: 2022

Purpose:

The Series 1994 Bonds were issued pursuant to Ordinance No. 93-134 and Resolution No. R-74-94 to provide funds, together with other funds of the Department, to pay the cost of capital improvements to the Water & Sewer System (the "System") and to fund a Reserve Account.

Security:

The Series 1994 Bonds are limited obligations of the County payable solely from and secured by Net Operating Revenues of the System and any funds and accounts established on behalf of the Bondholders and investment earnings on those funds and accounts.

Form:

The Series 1994 Bonds were issued as variable rate bonds that bear interest at a Weekly Interest Rate determined by the Remarketing Agent as fully registered bonds in denominations of \$100,000 each or any integral multiples of \$5,000 in excess of \$100,000. The Series 1994 Bonds are in book-entry only form and are registered initially to The Depository Trust Company, New York, New York. Interest is payable semi-annually on the first Wednesday in April and October of each year, commencing April 6, 1994.

Agents:

Registrar:	JPMorgan Chase Bank, New York, New York
Paying Agent:	JPMorgan Chase Bank, New York, New York

Call Provisions:

Optional Tender

During any Weekly Interest Rate Period all or any portion of a Series 1994 Bond then bearing interest at a Weekly Interest Rate will be purchased or deemed purchased on the date in the Redemption Notice at a purchase price equal to the principal amount, plus any accrued interest to the date of purchase, upon delivery on any business day by the Direct Participant to the Tender Agent at its principal office, and to the Paying Agent, the Qualified Swap Provider, the Remarketing Agent and the liquidity Purchaser of an irrevocable written notice, executed by the Direct Participant. Such written notice shall state the principal amount of such Series 1994 Bond,

the portion thereof to be purchased and the date on which the same is to be purchased, which date must be a business day at least seven days after the date of delivery of such notice to the Tender Agent. Upon confirmation from DTC to the Tender Agent that such Direct Participant has an ownership at least equal to the purchase price, the purchase price will be paid and the Series 1994 Bond will be redeemed.

Optional Redemption:

The Series 1994 Bonds, which bear a Weekly Interest Rate, are subject to redemption prior to maturity upon the exercise by the County of its option to prepay all or a portion of the Series 1994 Bonds and consent of the Insurer, during any Weekly Interest Rate Period, on any business day, in whole or in part, at the redemption price of 100% of the unpaid principal amount of the Series 1994 Bonds to be redeemed plus accrued interest to the date of redemption.

Mandatory Tender

The Series 1994 Bonds will be redeemed if the County, after notification to the Tender Agent and consent of the Insurer, elects, at any time, to cause the interest rate on the Series 1994 Bonds to be converted to an Alternative Interest Rate; if at any time the Paying Agent gives notice that any Series 1994 Bonds, then subject to purchase under the Standby Agreement will on the date specified in such notice cease to be subject to purchase and the Standby Agreement renewed or replaced or that there will be in effect more than one Alternated Liquidity Facility; or if an "event of default" occurs that under the Standby Agreement would terminate the Standby Agreement.

Mandatory Redemption:

The Series 1994 Bonds are subject to mandatory sinking fund redemption in part on the first Wednesday of October in each year by lot in the principal amounts set forth below, plus accrued interest to the date fixed for redemption.

<u>Year</u>	<u>Principal Amount</u>	<u>Year</u>	<u>Principal Amount</u>	<u>Year</u>	<u>Principal Amount</u>

\$346,820,000
Dade County, Florida
Water and Sewer System Revenue Bonds
Series 1995

Dated: October 1, 1995

Final Maturity: 2025

Purpose:

The Series 1995 Bonds were issued pursuant to Ordinance Nos. 93-134 and 95-155; and Resolution No. R-1192-95 to provide funds, together with other funds of the Department, to pay the cost of capital improvements to the Water & Sewer System (the "System") and to fund a Reserve Account.

Security:

The Series 1995 Bonds are limited obligations of the County payable solely from and secured by Net Operating Revenues of the System and any funds and accounts established on behalf of the Bondholders and investment earnings on those funds and accounts.

Form:

The Series 1995 Bonds were issued as fully registered bonds in denominations of \$5,000 or any integral multiples of \$5,000. The Series 1995 Bonds are in book-entry only form and are registered initially to The Depository Trust Company, New York, New York. Interest is payable semi-annually on April 1 and October 1 of each year, commencing April 1, 1996.

**MIAMI-DADE COUNTY, FLORIDA
WATER AND SEWER DEPARTMENT
INTEREST RATE SWAPS
as of September 30, 2004
(in thousands)**

The Water and Sewer Department has entered into three interest rate swaps in connection with the Series 1994 Bonds, the Series 1995 Bonds and the Series 1997 Bonds. On the Swap associated with the Series 1995 Bonds, the interest paid to the counterparty of the swap by the Department is a fixed rate of 4.40% until June 15, 2008, at which time the County will recommence paying a variable rate, and the amount to be received from the counterparty is a fixed rate of 5.225%. On the Swap associated with the Series 1997 Bonds, the Department pays BMA/.604 and the counterparty pays LIBOR + 1.455%. The Department's interest rate Swap associated with the Series 1994 Bonds is for the remaining outstanding period of these Bonds. The Department pays a fixed rate of 5.28% and the counterparty pays a variable rate on the outstanding Series 1994 Bonds.

If the counterparties to the swaps default, or if the swaps are terminated, the Department will be exposed to the rates established in each swap agreement. A termination of any swap agreement may result in the Department making or receiving a termination payment. The counterparties to the interest rate swap agreements are large international brokerage and insurance firms and accordingly, the County believes there is little risk of counterparty nonperformance.
