

MEMORANDUM

Agenda Item 15(B) 5

TO: Honorable Chairman Joe A. Martinez and
Members, Board of County Commissioners

DATE: November 15, 2005

FROM: Honorable Harvey Ruvin, Clerk
Circuit and County Courts

SUBJECT: Proposed Boundary Change
to the City of Homestead

Kay Sullivan, Director
Clerk of the Board Division

Pursuant to the provisions of Chapter 20-5 of the Code of Miami-Dade County, the Clerk of the Board has received a petition from the City of Homestead requesting a boundary change to the City of Homestead. (See legal description in the attached application.)

Following consideration by the County Commission, the Code provides that this request be forwarded to the Planning Advisory Board for review, study and recommendation.

Re: Application for Annexation of "Area NW2" into Homestead

Dear Mr. Velar:

On Tuesday, September 6, 2005, the Homestead City Council adopted Resolution No. R2005-09-128 requesting that the Miami-Dade County Board of County Commissioners approve the annexation of "Area NW2" into the municipal boundaries of the City of Homestead.

Enclosed are one original and two copies of the application supporting this request, which also includes the above-mentioned resolution. The application has been prepared to address all requirements contained in Section 20 of the County Code related to municipal boundary changes. Also included in this transmittal is a check in the amount of \$3,078 for the review fee as listed in Administrative Order No. 4-111.

If you have any questions concerning this application, please contact me or the Director of Development Services, Rick Sciandra. I look forward to receiving the proposed review schedule from your office for this critically important application in the near future.

Sincerely,

Curtis K. Ivy, Jr., City Manager

Executive Summary

The City Commission of Homestead has recently approved Resolution No. R2005-09-128, which requests Miami-Dade County to effect the annexation of presently unincorporated Area NW2 (the "Area") into the City, pursuant to the County Charter. This area is depicted on the location map contained in Section II of this report.

Area NW2 comprises 162.29 acres and is generally located north of SW 304th Street, south of SW 288th Street and west of SW 192nd Avenue. Area NW2 is shown on the Miami-Dade County Comprehensive Development Master Plan as "Estate Density," and the Area is located within the County's Urban Development Boundary (UDB). JMC Groves, Inc., Candace and Craig Wicke, Sunshine Family Homes Inc., William A. Pena, Annabell and S.E. Griffis, and Jolayne Pena Alger Trust own property within the NW2 area. All except for the Wicke and Griffis families have indicated their support of the annexation.

Area NW2 is generally low and largely vacant. The area is currently being used for agricultural purposes with a few residential units. Future development in Area NW2 will have to be consistent with environmental regulations in effect from Miami-Dade County, South Florida Water Management District and other governmental agencies.

The City of Homestead currently provides water and sewer service on the south side of SW 296th Street and east side of SW 192nd Avenue, which is directly across the street from Area NW2. The City also owns and operates two water treatment plants, and one wastewater treatment plant. The closest water treatment plant, Wittkop Park (505 NW 9th Street), is approximately 1.5 miles from the southeast portion of Area NW2, and the wastewater treatment plant (551 SE 8th Street) is approximately 3.5 miles from the southeast portion of Area NW2. Furthermore, the City owns and operates its own power plant; therefore, the City can provide electrical service to the annexation area. In fact, the City currently provides electricity to the annexation area.

From a public facilities viewpoint, the City of Homestead is the governmental entity in the best position to cost-efficiently extend a number of existing urban services, such as police protection, central water and sanitary sewer, to Area NW2 as future development occurs. Homestead has central water and wastewater service in place across the street (SW 296th Street), much closer to the Area than Miami-Dade County utilities. The Homestead Police Headquarters is located within less than 9 minutes from this Area where as County response is estimated to be approximately 25 minutes.

It is important to note that annexation will also make local government officials and services much closer and more accessible to the property owners and residents of Area NW2. As the dominant local government influencing this Area, Homestead will be better able to provide effective comprehensive planning and coordinated growth management. This is because of the fact that Area NW2 will become an integral component of a planned future land use

pattern emanating outward from the City rather than remaining as an outparcel barely within the County's Urban Development Boundary.

With rapid redevelopment and new development occurring after Hurricane Andrew, the City has a pressing need for additional rural residential lands, which can provide a diversity of estate and low density lifestyles and stable, productive neighborhoods with lots and houses suitable for young growing families. Area NW2 is one of Homestead's only remaining opportunities to effectively meet these critical needs.

Area NW2 is effectively an enclave area sandwiched between Homestead's boundary and the County's UDB. This Area is located on the outer range of County facilities and services, making them very expensive to serve. Homestead can cost-effectively serve this Area.

In summary, Area NW2 will provide for the future long-term residential growth of Homestead, create much-needed jobs and increase the City's tax base. Landowners and residents in this Area will have much greater and closer access to local government officials and services provided by Homestead, as well as benefit from future infrastructure improvements sponsored in part by the City.

This report has been prepared consistent with the requirements of Chapter 20, Article I, Section 20-3 of the Miami-Dade County Code in order to document the key characteristics and impacts of the proposed annexation by the City of Homestead of Area NW2.

RESOLUTION NO. R2005-09-128

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOMESTEAD, FLORIDA, PROPOSING TO ANNEX INTO THE CITY AN AREA OF CONTIGUOUS REAL PROPERTY GENERALLY LOCATED NORTH OF SW 304TH STREET, SOUTH OF SW 288TH STREET AND WEST OF SW 192ND AVENUE, COMMONLY KNOWN AS "ANNEXATION AREA NW2" AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 20-3 of the Miami-Dade County Code of Ordinances ("County Code") requires a Resolution of the City Council of the City of Homestead (the "City Council") approving submittal of an application for the annexation of unincorporated property into the jurisdictional limits of the City; and

WHEREAS, the City Council desires to apply to Miami-Dade County for approval of the proposed annexation of property described in Exhibit "A" (the "Property") owned by JMC Groves, Inc., Sunshine Family Homes Inc., Candace and Craig Wicke, William A. Pena, Annabell and S.E. Griffis, and Jolayne Pena Alger Trust (the "Owners") as set forth within the annexation application attached as Exhibit "B;" and

WHEREAS, the existing Miami-Dade County zoning classification for the Property is AU (Agricultural) and the Land Use Designation on the Miami-Dade County Comprehensive Development Master Plan is Estate Density; and

WHEREAS, pursuant to Section 30-366 of the City Code of Ordinances ("City Code"), a property owner within the Property will not be permitted to develop his or her property after annexation, until such time as the owner applies for and the City Council amends the City's Comprehensive Plan (the "Plan") and re-zones his or her property to conform with the requirements of the City Code and Plan; and

WHEREAS, the City Council finds that the proposed annexation meets the goals and objectives of the City's Comprehensive Plan; and

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HOMESTEAD, FLORIDA, AS FOLLOWS:

Section 1. Approval. The City Council hereby expresses its support for the proposed annexation.

Section 2. Zoning of Annexed Lands. The initial zoning of the annexed lands shall be as provided by Section 30-366 of the City's Code of Ordinances.

Section 3. Effective Date. This Resolution shall become effective immediately upon its adoption.

PASSED AND ADOPTED this 6th day of September, 2005.

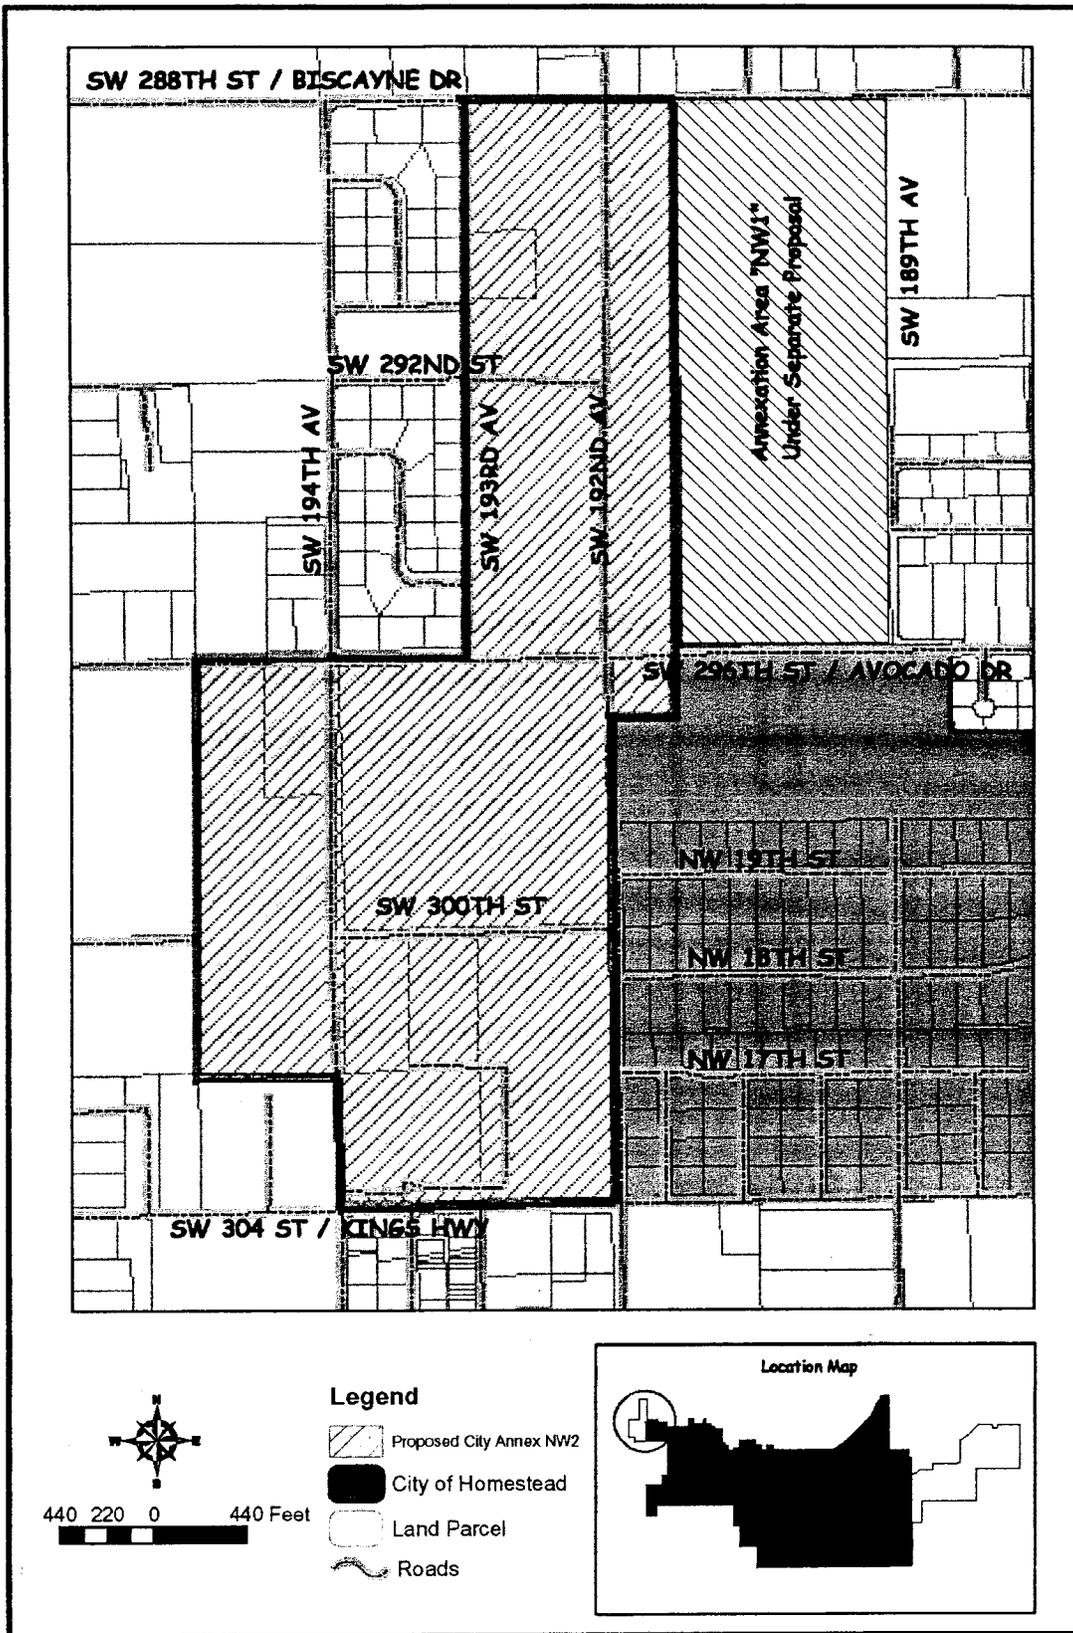

EXHIBIT 1: Location Map of Proposed "NW2" Annexation Area

III. Grounds for the Proposed Boundary Changes

Area NW2

The location of the Northwest Area (NW2) is shown in **EXHIBIT 1**. It is bordered by the City of Homestead along its southern and eastern boundaries; otherwise the remaining boundary is adjacent to unincorporated Miami-Dade County. Area NW2 is 162 acres in size, and generally undeveloped with significant acreage in active farmland use.

Elimination of Enclaves

Area NW2 is effectively an enclave area sandwiched between Homestead's boundary and the County's UDB. Because of its location on Miami-Dade County's far southwest periphery, it is not realistically possible for the County to effectively serve the Area.

Infrastructure Provided More Efficiently

Homestead can cost-effectively serve this area to a much greater level than Miami-Dade County. Homestead has central water and wastewater services in place near the Area and owns approximately 88 miles of sewer lines of various sizes with a total of 45 pump stations owned by the City. The City's wastewater treatment plant was enlarged in 1999 to be able to treat up to 6 MGD. The operation of the plant is such that an average of 3.5 million gallons of treated, high-quality effluent water is being returned to the aquifer daily. By the year 2010, the Comprehensive Plan indicates that about 4.0 MGD of the plant's capacity will be needed to accommodate the development within the existing boundaries of the city, thus leaving 2 MGD of available capacity to serve the annexation areas at the adopted level-of-service of 100 gallons per capita per day.

The water capacity of the city is similarly well able to serve the proposed Area. The treatment capacity for potable water in the City is 17 million gallons per day; however, the City only averages approximately 7.72 million gallons a day. The Comprehensive Plan indicates that the projected need to serve the projected 2010 population within the current City limits is only about 8 MGD. Thus, approximately 9 MGD of capacity should be available to serve the annexation area when necessary at the adopted level-of-service of 200 gallons per capita per day.

The City has also addressed transportation improvements in their 5-Year Schedule of Capital Improvements found in the 2001 Comprehensive Plan, including road widening, intersection improvements, and the installation/replacement and repair of sidewalks. To address more comprehensive transportation issues, the City is currently developing its first Transportation and Transit Master Plan (TTMP). The project goal is to provide a guiding document that creates a vision for and adequately ensures the development of the roadway and transit infrastructure in the City of Homestead.

Summary

Proposed Annexation Area NW2 is essentially an enclave area between Homestead and the UDB line. None of the proposed Area lies outside of the UDB. This Area cannot be cost-efficiently served by Miami-Dade County with infrastructure, police, or governmental services. Although this Area has a predominant agricultural lifestyle, it still requires facilities and services and this need will be growing in the future according to the County's own adopted Land Use Plan. Homestead is in the best position to provide these facilities and services to the Area's residents and landowners over the long-term. This Area is a drain of County coffers and thus this annexation will be revenue positive for the County and revenue negative for Homestead at least in the initial years. However, the City is planning for the future and what is best for Homestead's long-term health and prosperity.

The landowners of Area NW2 are JMC Groves, Inc., Sunshine Family Homes Inc., Candace and Craig Wicke, William A. Pena, Annabell and S.E. Griffis, and Jolayne Pena Alger Trust. As evidenced by the letters contained in Section XII of this to Report, all property owners except for the Wicke and Griffis families have submitted a "Consent Petition for Annexation" form indicating full support for the annexation of Area NW2 into Homestead. The landowners of Area NW2 will benefit greatly from this annexation proposal by receiving better, cheaper and more extensive facilities and services, and being closer to their local government, making more frequent participation much easier.

For the above-described reasons, the City Commission of the City of Homestead formally requests that the Miami-Dade County Board of County Commissioners approve the annexation of Area NW2 into the jurisdiction of the City.

IV. Services to be Provided

1. Police Protection

The Homestead police department (4 South Krome Avenue) is located approximately 2.7 miles from the Annexation Area, and would have less than a 9-minute response time to the Area. The Homestead police force is staffed with 97 full-time employees and 20 reserve officers. Currently, the Miami-Dade County police station serving Homestead is the Cutler Ridge District Station #4 (10800 SW 211th Street), which is located more than 13 miles away from the Annexation Area (drive time of approximately 25 minutes). Because of the proximity and large staffing of the Homestead police force, the City of Homestead can more effectively provide police service to the Annexation Area. A strong working partnership with Miami-Dade Police will be maintained after annexation to provide backup for City Police in cases of major crime events and traffic accidents, should they occur.

2. Fire Protection/Emergency Medical

Fire and emergency medical services would continue to be provided by Miami-Dade County through an interlocal agreement with the City. Fire station #16 (325 NW 2nd Street) currently serves the Annexation Area, and is only 2 miles from the Annexation Area with less than a 6-minute response time.

3. Water Supply and Distribution

The City's potable water system consists of a groundwater supply source, treatment plants, and distribution and storage network. Before being used for public consumption, water is treated by fluoridation and chlorinating. Homestead's water facilities are located at Harris Field and Wittkop Park. The two wells at Harris Field provide an average of 2.16 million gallons per day, and the four wells at Wittkop Park produce an average of 4.42 million gallons per day. Total treatment capacity is 17 million gallons per day. Currently, the City of Homestead is allocated 15.22 million gallons per day by the South Florida Water Management District, but the City only averages 7.72 million gallons a day with a maximum utilization of 9.4 million gallons per day. With the 15.22 million gallons per day being allocated to the City, and the projected population in the year 2010 requiring approximately 8.00 MGD of potable water, the City will have a sufficient enough surplus of water to serve the annexation area at the adopted level-of-service (LOS) standard of 200 gallons per capita per day.

4. Sanitary Sewer Facilities

As mentioned previously, the City's wastewater treatment plant was enlarged in 1999 to be able to treat up to 6 MGD. The operation of the plant is such that an average of 3.5 million

gallons of treated, high-quality effluent water is being returned to the aquifer daily. Homestead also owns approximately 88 miles of sewer lines of various sizes with a total of 45 pump stations owned by the City. The City's schedule of capital improvements found in their Comprehensive Plan calls for the installation of new sewer mains, infiltration and repair, and pump stations upgrades. These upgrades will help the City to maintain its sanitary sewer level-of-service (LOS) standard of 100 gallons per capita per day. With the 6 MGD sanitary sewer capacity, and the projected population in the year 2010 requiring 4 MGD wastewater treatment capacity, the City will easily be able to provide sanitary sewer service to the annexation area.

5. Solid Waste Removal and Disposal

The Homestead Solid Waste Division provides services for the collection and transport of solid waste to the Miami-Dade County Disposal System. The County Disposal System utilizes a combination of resource recover (waste-to-energy) and landfill facilities. The City collects approximately 24,114 tons of solid waste a year. Approximately 96% of the customers are from residential neighborhoods (15,653+), while approximately 4% are commercial/industrial customers (701). The Solid Waste Division utilizes semiautomatic, ninety-five gallon roll-out carts for residential garbage collection. The City provides garbage receptacles and residential service twice per week, as well as bulk trash service. In addition, service is provided one to six times per week for institutional and commercial customers. The City maintains a level-of-service (LOS) standard of 7 pounds of solid waste daily per person. With the current level-of-service and the projected population in the year 2010, the City will easily be able to provide sanitary sewer service to the annexation area.

6. Road Construction and Maintenance

Homestead maintains all local streets within its jurisdiction except arterials and expressways such as the Florida Turnpike, US Highway 1, and Krome Avenue. Many minor arterials and collector streets are constructed and improved by the private sector as development occurs with maintenance responsibility transferring to the City once improvements are completed.

Any roads and streets built in the future in Area NW2 would be constructed/improved by private development and maintained by Homestead.

7. Parks and Recreation

Homestead has an exceptional system of parks with onsite facilities and recreational programs for youth and adults. The City has 16 parks totaling approximately 326 acres. These parks include playing fields, courts running tracks, a YMCA complex (pool, community center, gym, fitness center, and child care), a rodeo arena, vita courses, bike paths

and tracks, picnic areas, and open space. Sports at these facilities include basketball, tennis, softball, baseball, football, soccer, swimming, bicycling, running, shuffleboard, and horseshoes. Currently, there are 2 County parks (Biscado Park and Fuchs Hammock Preserve) within 2 miles of the Annexation Area; however, there are ten City parks within 2 miles of the Annexation Area that total more than 75 acres. These parks include Blakey Park (7.8 acres), Harris Field (40 acres), J. D. Redd Park (9.6 acres), a mini park at SW 5th Street and 4 Avenue (0.7 acres), Mistretta Park (1 acre), Musslewhite Park (2.6 acres), Pioneer Park (2.5 acres), Roby George Park (4.8 acres), Tatum Park (2.5 acres), and Wittkop Park (3.9 acres). Homestead park and recreation sites and facilities are more accessible to Area NW2 than existing County facilities. It is also more cost-effective for Homestead to provide park and recreation services to the existing and future residents of the proposed Annexation Area than any other governmental entity.

8. Electric Service and Street Lighting

Electric service and the street lighting system in Homestead are provided by the City. The City also provides electrical service to the Annexation Area, and has adequate capacity to serve the future electrical needs of the subject Area as development occurs. The standards for street lighting in the proposed Area will be fully consistent with the South Florida Building Code and State Energy Code.

9. Stormwater Management

Regional stormwater management standards in Homestead are implemented by the South Florida Water Management District and Miami-Dade County Department of Environmental Resources Management. All proposed development projects must obtain the required regional and county stormwater management permits prior to issuance of a City building permit. This same procedure will apply to the subject Area, if annexation is approved.

10. Comprehensive Planning

The current City of Homestead Comprehensive Plan was approved, pursuant to Florida Statutes, on April 2, 2001. The City submitted their adopted Evaluation and Appraisal Report (E.A.R.) in July 2005 as is required by the State. The E.A.R. will be reviewed by the Florida Department of Community Affairs, and eventually found to be "sufficient" in terms of planning for the growth and development of the City. Within 18 months of sufficiency review, the City must adopt Comprehensive Plan amendments to address the issues identified in the E.A.R. Proposed land use categories for the Annexation Area are presented later in this document. It is intended at this time that the future land use in Area NW2 will be consistent with the designations shown on the County's Adopted 2005 and 2015 Land Use Plan.

Comprehensive Plan amendments are reviewed by the Planning and Zoning Board (PZB), which is also the designated Local Planning Agency (LPA). Following the LPA's review and

recommendation, Plan amendments are considered by the City Commission and, if approved, transmitted to the Florida Department of Community Affairs (FDCA) for review, pursuant to Florida Statutes.

If Area NW2 is approved for annexation, a Comprehensive Plan amendment will be initiated to formally add the new Area to the Future Land Use Map, include any capital improvements necessary to maintain level-of-service standards, ensure that all environmental goals, objectives and policies are met, and modify other Plan Elements as appropriate. In future land use planning for the proposed Area, the prevention of inefficient and costly urban sprawl, and conservation of agricultural and critical environmental resources will be priority objectives.

As the dominant municipal government currently influencing the future development of the subject Area, Homestead will be better able to provide effective and coordinated future comprehensive planning. This is because of the fact that this Area will become an integral component of a planned future land use pattern emanating outward from the center of the City rather than remaining as an “outparcel” on the distant periphery of Miami-Dade County’s future development boundary.

11. Site Planning and Zoning Administration

Homestead maintains a City Zoning Code consistent with the adopted Comprehensive Plan. All site plans for proposed development are reviewed for consistency with the Comprehensive Plan and Zoning Code by the Development Services Department planning staff.

The Planning and Zoning Board reviews all requests for rezonings, variances and special use permits, and submits recommendations related to these matters to the City Commission for final action. If annexation is approved, Area NW2 will receive the site planning and zoning administration services of Homestead, which are considerably more accessible to the property owners and residents of the proposed Area than similar County services, saving these citizens valuable time and money.

12. Building Permitting and Inspections

The City maintains a full service Building Division that processes building permits, conducts building inspections, and issues citations for City and Building Code violations. These City services would be much closer to the property owners and residents of the Area than similar services now provided by Miami-Dade County at the South Miami-Dade Government Center. All applicable federal, state, regional and county stormwater management and environmental permits are required to be obtained prior to the issuance of any specific City building permit.

13. Housing and Economic Development Programs

Homestead offers a wide array of affordable housing and economic development programs, including a Federal Empowerment Zone, Community Redevelopment Agency, and Community Development Block Grant housing program. These programs are available at City Hall located at 790 North Homestead Boulevard, which is approximately 3.3 miles from the proposed annexation Area. If annexation is approved, existing and future residential and commercial owners in Area NW2 will have ready access to these nearby program services rather than having to drive a considerable distance to access similar County programs and compete countywide for program funding.

14. General Government

Homestead is a municipal corporation established under Florida Statutes and the Miami-Dade County Charter, and governed by an elected City Council consisting of seven (7) councilpersons (mayor, vicemayor and five council members). The City Manager is appointed by the City Council and is responsible for the direction and supervision of all departments, agencies and employees of the City. Annexation approval will provide the Area property owners and residents much better access to their local government and political leaders compared to the current situation where residents must either travel to Cutler Ridge (15 miles) or downtown Miami (30 miles) to participate in many Miami-Dade governmental activities and meet with their elected representatives.

V. Timetable to Supply Services

<u>Service</u>	<u>Timetable</u>
1. Police Protection.....	Immediate
2. Fire Protection/Emergency Medical.....	Immediate
3. Water Supply and Distribution.....	As required by future development

12. Building Permitting and Inspections.....	As required by future development
13. Housing and Economic Development Programs.....	As required by future development
14. General Government.....	Immediate

VI. Financing of Services

1. Police Protection

The Homestead Police Department is funded through the City's General Fund. If Area NW2 is annexed into the City, increased property tax collections from the Area will pay for police services needed in the near term. As development occurs in the Area, it is anticipated that increased property values will generate greater revenues, which will offset additional police service costs over the longer term.

2. Fire Protection/Emergency Medical

Fire protection and emergency medical services are funded through Miami-Dade County through an interlocal agreement with the City of Homestead using existing tax revenue. Any additional fire and emergency medical costs incurred by the County as a result of future growth in the proposed Annexation Area are expected to be offset by higher tax revenues from Area NW2.

3. Water Supply and Distribution

Future costs associated with water main extensions and connections will be paid for by private developers as development in the proposed Area progresses. Water treatment plant expansion will not be needed to accommodate future growth in the Area. Monthly water usage charges will provide the revenues necessary for operation and maintenance of the potable water treatment and distribution system.

4. Sanitary Sewer Facilities

Future costs associated with sanitary sewer line extensions and connections will be paid by private developers as development in the proposed Area progresses. Treatment plant capital costs, if needed, will be funded by impact fees and other existing sources. Monthly sewer usage charges will provide the revenues necessary for operation and maintenance of the wastewater treatment plant, pump stations and lines outside of Homestead by Miami-Dade County and the collection system within Homestead.

5. Solid Waste Removal and Disposal

Solid waste disposal costs generated from the proposed Area will be borne by the City of Homestead and paid from user fees.

6. Road Construction and Maintenance

New roadways and expansions of existing streets necessary to accommodate future development will be funded by the private development sector through direct construction and by the State, County and City using gas taxes, impact fees and ad valorem taxes generated from future development in the proposed Annexation Area.

7. Parks and Recreation

Parks and recreational programs are funded via the Homestead General Fund and impact fees. It is anticipated that existing development in Annexation Area NW2 will not impose any significant burdens on existing City park and recreation facilities. In addition, existing park and recreation facilities should easily serve the proposed Area as initial future development occurs, and expansions will be made as needed to adequately address longer-term recreational needs.

8. Electric Service and Street Lighting

Electric service and street lighting will be funded by the City through user fees as future development occurs.

9. Stormwater Management

Local drainage improvements in the proposed Area will be funded by the private sector as future development occurs. Regional stormwater management improvements, if necessary to serve future development in Area NW2, will be funded by the South Florida Water Management District through property tax revenues and other sources.

10. Comprehensive Planning

Comprehensive planning services in Homestead are paid from the General Fund. Planning for the proposed Area will be funded from increased property tax revenues. Private sector Comprehensive Plan amendments are funded from application fees.

11. Site Planning and Zoning Administration

Site planning and zoning administration are funded by fees collected from private developers as they submit project applications. This same source will be used to pay for site planning and zoning administration as future development occurs in proposed Area NW2.

12. Building Permitting and Inspections

Building permitting and inspections are paid for by fees collected from private developers as project applications are submitted. This same source will be used to pay for building permitting and inspections as future development occurs in the subject Area.

13. Housing and Economic Development Programs

These programs are funded from federal, state and county sources, and these sources are expected to continue and be available to serve the future residents of the proposed Annexation Area.

14. General Government

General government services in Homestead are funded from the General Fund. For the proposed Annexation Area NW2, these services will be funded from increased property tax revenues.

VII. Tax Load on Area to be Annexed

According to Miami-Dade County Property Appraiser's Office, the 2004 total taxable property value in Area NW2 is as follows (this includes a \$5,074,947.00 Agricultural Exemption and a \$25,000.00 Homestead Exemption):

Real Property	\$1,079,486
<u>Personal Property</u>	<u>\$-0-</u>
Total Property	\$1,079,486

Applying the 21.68070 mill unincorporated ad valorem tax rate, the 2004 property tax collections by Miami-Dade County from Area NW2 totals approximately \$23,404. If the Area is annexed into the City of Homestead, the County would collect the countywide ad valorem tax rate of 19.2337 mills (2004), but would not assess the Urban Municipal Service Area (UMSA) rate of 2.447 mills.

Area NW2 property owners would be subject to the City's ad valorem tax rate of 7.75 mills (current), which would generate an estimated \$8,366 annually in real property tax revenues for Homestead, based on the 2004 tax role. Based on 2004 millage rates for the City and the County, the annexation of the proposed Area would impose an additional ad valorem tax on Area NW2 property owners of 5.303 mills, which is the difference between the City of Homestead's millage rate (7.75 mills) and the County's UMSA rate (2.447 mills). Therefore, the total millage rate Area NW2 would increase from 21.68070 mills to 26.98370 mills.

VIII. Land Use Plan and Zoning for Subject Area

The City intends to apply future land use categories to proposed Annexation Area NW2 that are consistent with the designations shown on Miami-Dade County's Adopted 2005 and 2015 Land Use Plan. The current and proposed designation for the area is "Estate Density," which permits 1 to 2.5 dwelling units per gross acre. Maps of the Existing County Land Use for Annexation Area NW2 (**EXHIBIT 2**) and the Proposed City Land Use for Annexation Area NW2 (**EXHIBIT 3**) are included on pages 24 and 25 of this report, respectively.

The area adjacent to the north is designated as "Agriculture"; the area to the west is "Estate Density"; the area to the south is designated "Estate Density"; and the area to the east within the corporate limits of Homestead is "Low Density Residential" (2.5 to 6 dwelling units per gross acre). Furthermore, the area to the east within the unincorporated limits of Miami-Dade County is currently being considered for annexation into Homestead and is designated "Estate Density".

The County's zoning designation (AU – Agricultural) for Area NW2 is shown in **EXHIBIT 4** on page 26 of this report, and the zoning proposed by the City for Annexation Area NW2 (AU – Agricultural) is shown in **EXHIBIT 5** on page 27. The zoning proposed by the City for Annexation Area NW2 is the same as the current County zoning designation for the area, and it is generally consistent with the County's Future Land Use Plan for the Area.

AFFIDAVIT CERTIFYING THE
MAILING OF NOTICES OF ANNEXATION

STATE OF FLORIDA)
 ss

COUNTY OF MIAMI-DADE)

BEFORE ME, the undersigned authority, appeared Frances Schwartz,
personally known to me, being over the age of 18 years, and under oath, deposes and
says:

1. That she is the Zoning Clerk of the City of Homestead.
2. That under the direction of your Affiant the attached written notice
(Exhibit "A" hereto) regarding the proposed Annexation know as "Annexation Area
NW2" into the City of Homestead, was sent to all owners of property with the
annexation area "Annexation Area NW 2".
3. That the written notices were mailed individually by Frances
Schwartz, Zoning Clerk of the City of Homestead to such property owners on the date
of such notice letters.
4. That the names and addresses of each and everyone of the property
owners to which the notices were mailed are set forth on the attached list (Exhibit "B"
hereto)

FUTHER AFFIANT SAYETH NAUGHT.

Dated at Homestead, Miami-Dade County, Florida this 29th day of August
2005

FRANCES SCHWARTZ, ZONING CLERK
Affidavit

SWORN TO AND SUBSCRIBED
BEFORE ME THIS 29TH DAY OF
AUGUST 2005

NOTARY PUBLIC AT LARGE

My commission expires:

April 31, 2007

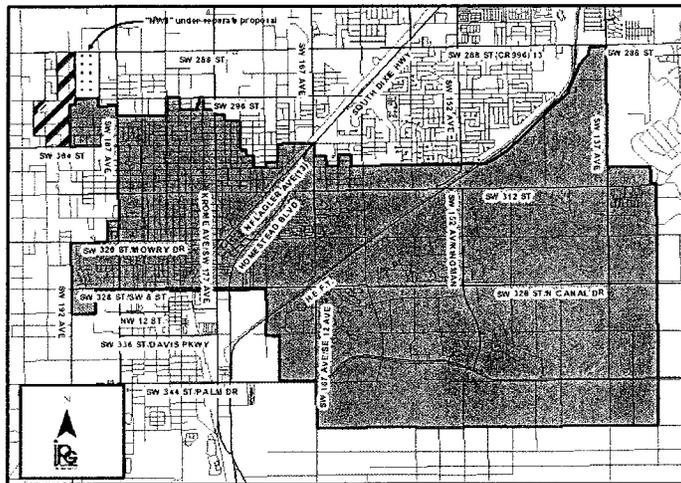

**NOTICE OF PUBLIC HEARING
CONSIDERATION OF ANNEXATION
CITY OF HOMESTEAD, FL**

PLEASE TAKE NOTICE AND BE ADVISED that the City of Homestead, Florida, will hold a Public Hearing on Tuesday, September 6, 2005 at 7:00 P.M. or as soon thereafter as can be heard, in the Council Chambers at City Hall, 790 N. Homestead Boulevard, Homestead, Florida, to consider the annexation of Area NW2. A legal description and map of the area may be reviewed by the members of the public during normal business hours, 8:00 A.M. to 5:00 P.M., Monday through Friday at the City Clerks office at the City of Homestead City Hall. All members of the public are invited to attend and participate in said meeting.

The City of Homestead proposes to adopt the following resolution:

RESOLUTION XX-XXX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOMESTEAD, FLORIDA, PROPOSING TO ANNEX INTO THE CITY AN AREA OF CONTIGUOUS REAL PROPERTY GENERALLY LOCATED NORTH OF SW 304TH STREET, SOUTH OF SW 288TH STREET AND WEST OF SW 192ND AVENUE, COMMONLY KNOWN AS "ANNEXATION AREA NW2" AND PROVIDING FOR AN EFFECTIVE DATE.

Annexation Area NW2 is shown as hatched; City of Homestead is highlighted.

PLEASE TAKE NOTICE AND BE ADVISED that if any interested person desires to appeal any decision made by the City Council with respect to any matter considered at this hearing, such interested persons will need a record of the proceedings, and for such purpose may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

SHEILA PAUL, CMC
CITY CLERK
CITY OF HOMESTEAD

AGRICULTURE

Ag community's future uncertain

By Robert D. Orr

1960s, praying for the water to recede.

"Nobody knows what's going to happen," Rubio said. "Nobody knows, and we're worried."

As Miami-Dade's agricultural community reels, the weather, ground, and labor are also being hit by the industry's own problems.

Early estimates place the damage at \$400 million, with many growers taking the biggest hit. Katrina's high winds and heavy rains inundated acres of carefully tended citrus and vegetable crops, topped row upon row of palm trees and shredded outdoor plants and shade screens that once sheltered delicate produce.

The full damage to Miami-Dade's \$1.5-billion-a-year agricultural industry — second to tourism as the county's top money generator — will take some time to assess.

"There are just preliminary numbers," said Paul Dylon, director of the University of Florida's Cooperative Extension Service in Miami-Dade County. He spent a large part of his day going over damage estimates with county officials and the U.S. Department of Agriculture, which coordinates disaster relief for farmers.

AVOCADO GROVES

Especially troubling is the fate of the county's avocado groves. Fykes said, "Spread over roughly 7,000 acres, the groves have suffered about 11 million worth of damage, with the ground peeling far from drying out, the long-term prospects of even a healthy harvest this year are dim."

"After two days of being wet, you start to worry about root rot," Fykes said. "You won't see anything for six weeks to a year. But the trees will dieback and eventually die."

The impact on South Miami-Dade's labor market may not be felt for a while, either. But in the coming days, at least, there is plenty of work to be done.

"I'm willing to work to get to field to be cleaning up," Fykes said.

Luckily — or what passed as such last week in South Florida — Katrina hit at the tail end of the fruit-picking season. But before long, farmers begin to plant the bulk of such winter row crops as tomatoes, peppers and beans.

IT'S NOT EASY

Angelita Herrera, a farmer who lives in Florida City, said he hopes he can hold on until the heavy planting season begins in a few weeks. He recently bought a work harvesting avocado used the end of the summer but Katrina knocked much of the fruit off the trees, leaving them too bruised or waterlogged for growers to salvage. "I need to find some work, at least until it's time for me to go in the grove," Herrera said.

"It's not easy. I have five kids and they need to be fed," he said. "For a moment, he thought up his youngest, 2-year-old Mari Magdalena, and gave her a tight hug. Before she was born, Herrera would leave behind his wife and kids to follow the picking season — up through the Carolinas and back down through Texas and Oklahoma before returning home. In the last two years, he's been able to earn enough money — and had enough steady farm work locally — to allow him to stay with his family year round. "I hope I won't have to start traveling again," he said. "I will have to worry about

FARMWORKER'S FAMILY: Augustin Herrera's children — from left, Hadasa, Mari Magdalena, and Daniel — watch him clean some of their belongings damaged by the storm.

state to state throughout the year, Garcia said. Another 15,000 are seasonal workers — laborers who shift their job with each season but have remained here because of past jobs.

Hilario Borquez, who owns a 15-acre nursery along Krome Avenue, said he and his grandson have raised more than 500,000 plants valued by the state.

"We had the good luck that it was only shut," Borquez said.

ESTIMATES

The exact damage to the industry, they may be hard pressed to say.

According to preliminary estimates, three-fourths of the \$400 million in damage can be found among South Miami-Dade growers.

Hilario Borquez, who owns a 15-acre nursery along Krome Avenue, said he and his grandson have raised more than 500,000 plants valued by the state.

"We had the good luck that it was only shut," Borquez said.

HOW TO HELP

To donate food, clothing and other supplies to Miami-Dade's farmworker community, call the South Dade Food Center at 305-275-0635.

AGRICULTURE STATE
Miami-Dade County has about 7,000 acres of agricultural land, according to early reports.

Total damage to the area's agricultural land is estimated at \$400 million, a number that could change in the coming

months, as well as further west — toward Florida's coast.

"There are just trees floating around," said Benjamin Garcia, who estimates his losses at more than \$700,000. A massive tree crushed one of his outbuildings, topped pine trees and strewn around his molting and hundreds of parrot chicks are now bobbing around his property here.
