

Memorandum

Date: March 7, 2006

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Designating the National Incident Management System (NIMS) as the Incident Management System for Miami-Dade County

Agenda Item No. 12(A)1

R-326-06

RECOMMENDATION

It is recommended that the Board approve the attached resolution designating the National Incident Management System (NIMS) as the incident management system for Miami-Dade County. Formally recognizing NIMS and adopting its principles and policies through Board resolution is one of several required steps towards Miami-Dade County becoming NIMS compliant.

BACKGROUND

On December 17, 2003 the Homeland Security Presidential Directive 5 (HSPD 5), *Management of Domestic Incidents*, required the establishment of mechanisms for improved delivery of federal preparedness assistance to state and local governments. The National Response Plan (NRP) was developed as an all-discipline, all-hazards plan that incorporates best practices from a wide variety of incident management disciplines to include fire, rescue, emergency management, law enforcement, public works and emergency medical services. The National Incident Management System (NIMS) was developed to provide a system that would help emergency managers and responders from different jurisdictions and disciplines work together more effectively to handle emergencies and disasters.

The NIMS is a comprehensive system that improves local response operations through the use of the Incident Command System (ICS) and the application of standardized procedures and preparedness measures. It is required so that all disciplines and jurisdictions respond in a uniform and coordinated manner to any major event, whether natural or manmade. The NIMS delineates authority and responsibilities to the first responders and the manner in which they communicate.

Miami-Dade County is using the NIMS implementation matrix guidelines (attached) provided by the Department of Homeland Security, in addition to NIMSCAST (a self assessment tool), to achieve NIMS compliance. County departments involved in incident management, response and/or emergency preparedness have trained appropriate staff in the required NIMS compliance course (IS-700). County departments are currently participating in the three additional required trainings (IS-100, IS-200 and IS-800), newly mandated for FY 06. County departments are also in the process of including NIMS into their emergency response procedure. The County is working closely with municipal police, fire and public works departments to assist them in their compliance activities.

Beginning in FY 07, all federal preparedness funding, and perhaps other federal funding, will be conditioned upon full compliance with the NIMS.

Susanne M. Torriente
Assistant County Manager

MEMORANDUM

(Revised)

TO: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

DATE: March 7, 2006

FROM: Murray A. Greenberg
County Attorney

SUBJECT: Amended
Agenda Item No. 12(A)(1)

Please note any items checked.

- _____ **“4-Day Rule” (“3-Day Rule” for committees) applicable if raised**
- _____ **6 weeks required between first reading and public hearing**
- _____ **4 weeks notification to municipal officials required prior to public hearing**
- _____ **Decreases revenues or increases expenditures without balancing budget**
- _____ **Budget required**
- _____ **Statement of fiscal impact required**
- _____ **Bid waiver requiring County Manager’s written recommendation**
- _____ **Ordinance creating a new board requires detailed County Manager’s report for public hearing**
- _____ **Housekeeping item (no policy decision required)**
- _____ **No committee review**

Agenda Item No. 12(A)(1)

3-7-06

RESOLUTION NO. R-326-06

RESOLUTION DESIGNATING THE NATIONAL INCIDENT
MANAGEMENT SYSTEM AS THE INCIDENT
MANAGEMENT SYSTEM FOR MIAMI-DADE COUNTY

WHEREAS, the President of the United States has issued Homeland Security Directive No. 5 that directs the Secretary of the Department of Homeland Security to develop and administer a National Incident Management System (N.I.M.S.), which would provide a consistent nationwide approach for Federal, state, local, and tribal governments to work together more effectively and efficiently to prevent, prepare for, respond to, and recover from domestic incidents, regardless of cause, size, or complexity; and

WHEREAS, the collective input and guidance from all Federal, state, local, and tribal homeland security partners has been, and will continue to be, vital to the development, effective implementation and utilization of a comprehensive N.I.M.S.; and

WHEREAS, it is necessary and desirable that all Federal, state, local, and tribal emergency agencies and personnel coordinate their efforts to effectively and efficiently provide the highest levels of incident management; and

WHEREAS, to facilitate the most efficient and effective incident management, it is critical that Federal, state, local, and tribal organizations utilize standardized terminology, standardized organizational structures, interoperable communications, consolidated action plans, unified command structures, uniform personnel qualification standards, uniform standards for planning, training and exercising, comprehensive resource management, and designated incident facilities during emergencies or disasters; and

WHEREAS, the N.I.M.S. standardized procedures for managing personnel, communications, facilities and resources will improve Miami-Dade County's ability to utilize Federal funding to enhance local and state agency readiness, maintain first responder safety, and streamline incident management processes; and

WHEREAS, the Incident Command System components of N.I.M.S. are already an integral part of incident management activities at the Miami-Dade Emergency Operations Center, including current emergency management training programs; and

WHEREAS, the National Commission on Terrorist Attacks (9-11 Commission) recommended adoption of a standardized Incident Command System; and

WHEREAS, under Florida Statutes §252.38, a county emergency management agency shall have jurisdiction over and serve an entire county and perform emergency management functions within the territorial limits of the county within which it is organized; and

WHEREAS, Florida Statutes §252.38 authorizes legally constituted municipalities to create municipal emergency management programs provided, however, that such municipal emergency management programs comply with all laws, rules and requirements applicable to county emergency management agencies and that each municipal emergency management plan be consistent with and subject to the applicable county emergency management plan; and

WHEREAS, Miami-Dade County has adopted the N.I.M.S. as the incident command system in its Comprehensive Emergency Management Plan; and

WHEREAS, since Miami-Dade County has adopted the N.I.M.S. as the incident command system for the County's Comprehensive Emergency Management Plan for the entire County, under Florida Statutes §252.38, all legally constituted municipal emergency management programs must hereafter adopt the N.I.M.S. as the incident command system for each municipalities' emergency management plan within the territorial limits of Miami-Dade County consistent with and subject to the County's Comprehensive Emergency Management Plan,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board adopts the following: The National Incident Management System (N.I.M.S.) is hereby declared the standard for incident management for all of Miami-Dade County including any municipalities within the territorial limits of Miami-Dade County.

The foregoing resolution was offered by Commissioner _____, who moved its adoption. The motion was seconded by Commissioner _____ and upon being put to a vote, the vote was as follows:

Joe A. Martinez, Chairman	
Dennis C. Moss, Vice-Chairman	
Bruno A. Barreiro	Jose "Pepe" Diaz
Audrey M. Edmonson	Carlos A. Gimenez
Sally A. Heyman	Barbara J. Jordan
Dorrin D. Rolle	Natacha Seijas
Katy Sorenson	Rebeca Sosa
Sen. Javier D. Souto	

The Chairperson thereupon declared the resolution duly passed and adopted this 7th day of March, 2006. This resolution shall become effective ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, shall become effective only upon an override by this Board.

MIAMI-DADE COUNTY, FLORIDA
BY ITS BOARD OF
COUNTY COMMISSIONERS

HARVEY RUVIN, CLERK

By: _____
Deputy Clerk

Approved by County Attorney as
to form and legal sufficiency.

Eric A. Rodriguez

TRIBAL GOVERNMENT AND LOCAL JURISDICTION COMPLIANCE ACTIVITIES: FEDERAL FISCAL YEAR 2006 (OCTOBER 1, 2005-SEPTEMBER 30, 2006)

In March 2004, the Secretary of Homeland Security, at the request of the President, released the National Incident Management System (NIMS). The NIMS is a comprehensive system that improves tribal and local response operations through the use of the Incident Command System (ICS) and the application of standardized procedures and preparedness measures. It promotes development of cross-jurisdictional, statewide, and interstate regional mechanisms for coordinating response and obtaining assistance during a large-scale or complex incident.

Tribal and local authorities, not federal, have the primary responsibility for preventing, responding to, and recovering from emergencies and disasters. The overwhelming majority of emergency incidents are handled on a daily basis by a single jurisdiction at the local level. It is critically important that all jurisdictions comply with the NIMS because the challenges we face as a nation are far greater than the capabilities of any one jurisdiction; they are not, however, greater than the sum of all of us working together through mutual support. Homeland Security Presidential Directive 5 (HSPD- 5), *Management of Domestic Incidents*, requires all federal departments and agencies to adopt and implement the NIMS, and requires state¹ and local² jurisdictions to implement the NIMS to receive federal preparedness funding.

NIMS compliance should be considered and undertaken as a community-wide effort. The benefit of NIMS is most evident at the local level, when a community as a whole prepares for and provides an integrated response to an incident. Incident response organizations (to include local public health, public works, emergency management, fire, emergency medical services, law enforcement, hazardous materials, private sector entities, non-governmental organizations, medical organizations, utilities, and others) must work together to comply with NIMS components, policies, and procedures. Implementation of the NIMS in every tribal and local jurisdiction establishes a baseline capability that once established nationwide, can be used as a foundation upon which more advanced homeland security capabilities can be built.

Small and/or rural jurisdictions will benefit from a regional approach. In many instances smaller communities may not have the resources to implement all elements of NIMS on their own. However, by working together with other localities in their regions, these jurisdictions will be able to pool their resources to implement NIMS.

¹ As defined in the Homeland Security Act of 2002, the term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any possession of the United States." 6 U.S.C. 101 (14)

² As defined in the Homeland Security Act of 2002, Section 2(10): the term "local government" means "(A) county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments... regional or interstate government entity, or agency or instrumentality of a local government: an Indian tribe or authorized tribal organization, or in Alaska a Native village or Alaska Regional Native Corporation; and a rural community, unincorporated town or village, or other public entity." 6 U.S.C. 101(10)

When NIMS is fully implemented, your local community or jurisdiction will be able to:

- Ensure common and proven incident management doctrine, practices, and principles are used to plan for, protect against, respond to, and recover from emergency incidents and preplanned events;
- Maintain a response operation capable of expanding to meet an escalating situation and the ability to integrate resources and equipment from intrastate and interstate mutual aid agreements, state-provided assistance, and federal government response;
- Order and track response assets using common resource typing and definitions, and draw on mutual aid agreements for additional assistance;
- Establish staging and allocation plans for the re-distribution of equipment, supplies, and aid coming into the area from other localities, states, or the federal government through mutual aid agreements;
- Conduct situational assessments and establish the appropriate ICS organizational structure to effectively manage the incident; and
- Establish communication processes, procedures and protocols that will ensure effective interoperable communications among emergency responders, 9-1-1 centers, and multi-agency coordination systems (Emergency Operations Centers).

In federal Fiscal Year 2005, the Secretary of Homeland Security provided guidance to each state, outlining initial actions that should be taken to implement the NIMS. The letter to the nation's governors included a list of recommended actions for tribal and local governments to help them work towards NIMS compliance. A copy of this letter is posted on the NIMS webpage at: http://www.fema.gov/nims/nims_compliance.shtml. Recommended FY 2005 NIMS activities included:

- Institutionalize the use of the Incident Command System;
- Complete the NIMS awareness course IS-700 NIMS: An Introduction;
- Formally recognize NIMS and adopt NIMS principles and policies;
- Establish a NIMS compliance baseline by determining the NIMS requirements that have already been met; and
- Develop a strategy and timeline for full NIMS implementation.

By completing these activities, communities will have made substantial progress toward full NIMS implementation by the start of Fiscal Year 2007 (i.e. October 1, 2006). In federal Fiscal Year 2006, tribes and local communities will be required to complete several activities to comply with the NIMS. The attached implementation matrix describes the actions that jurisdictions must take by September 30, 2006 to be compliant with NIMS.

Completion of these actions will position tribal and local communities to better manage prevention, response and recovery efforts. The matrix identifies activities that are underway by the NIMS Integration Center (NIC) to support the effective implementation of NIMS as well as activities that will be required for NIMS implementation in future years.

The NIMS Integration Center
DHS/FEMA
October 4, 2005

The matrix also provides information on where to find technical assistance resources to support these compliance actions. For example, the National Incident Management Capability Assessment Support Tool (NIMCAST) is an example of a product designed to assist communities in determining their current NIMS compliance baseline. The NIMS is much more than just a list of required elements; it is a new approach to the way we prepare for and manage incidents, one that will lead to a more effective utilization of resources and enhanced prevention, preparedness, and response capabilities. Moreover, full NIMS implementation is a dynamic and multi-year phase-in process with important linkages to the National Response Plan (NRP), the Homeland Security Presidential Directive - 8 (i.e. the "National Preparedness Goal") and the National Infrastructure Protection Plan (NIPP). Future refinement to the NIMS will evolve as policy and technical issues are further developed and clarified at the national level. This may well result in additional requirements being issued by the NIC as to what will constitute continuous full NIMS compliance in FY2007 and beyond.

More information on NIMS, NIMS compliance, and answers to frequently asked questions are available on the NIMS Integration Center Web page (<http://www.fema.gov/nims>).

NIMS Implementation Matrix for Tribal and Local Jurisdictions

FY 2006 Compliance Activities		
Required Tribal/Local Jurisdiction Action for FY 2006 Compliance	Guidance and Technical Assistance Resources	Future Activities
Community Adoption		
<p>Adopt NIMS at the community level for all government departments and agencies; as well as promote and encourage NIMS adoption by associations, utilities, non-governmental organizations (NGOs), and private sector incident management and response organizations.</p>	<ul style="list-style-type: none"> • Adopt NIMS through executive order, proclamation, resolution, or legislation as the jurisdiction's official all-hazards, incident response system. • Develop a baseline assessment of the NIMS implementation requirements that your jurisdiction already meets and using that baseline, develop a strategy for full NIMS implementation and maintenance. • The NIMS Capability Assessment Support Tool (NIMCAST) is available at: www.fema.gov/nimcast/index.jsp • Sample templates for executives: www.fema.gov/nims/nims_toolsandtemplates.shtm 	<ul style="list-style-type: none"> • Amend or re-authorize, as necessary.
Command and Management		
<p><u>Incident Command System (ICS):</u> Manage all emergency incidents and preplanned (recurring/special) events in accordance with ICS organizational structures, doctrine, and procedures, as defined in NIMS. ICS implementation must include the consistent application of Incident Action Planning and Common Communications Plans.</p>	<ul style="list-style-type: none"> • Institutionalize ICS: Terms and definitions: www.fema.gov/bxt/nims/institutionalizing_ics.txt • Incorporate concepts and principles of NIMS Chapter II, Command and Management including ICS characteristics such as common terminology, modular organization, management by objectives, incident action planning, manageable span of control, pre-designated incident facilities, comprehensive resource management, integrated communications, transfer of command, unity of command, unified command, personnel and resource accountability, and information and intelligence management. 	<ul style="list-style-type: none"> • Continue to manage incidents and events using ICS.
