County Manager

INLUC
Agenda Item No. 7(I)

Subject: Report: Residential Permits Issued Outside the Urban Development Boundary (UDB)

This initial report is provided in response to the Infrastructure and Land Use (ILUC) Committee's request for a report on the number of residential permits issued in the last 12 years for the geographic areas located outside the Urban Development Boundary (UDB) as shown on the Miami-Dade County Comprehensive Development Master Plan (CDMP). The ILUC further requested that a more comprehensive report follow and contain development trend information of these geographic areas as well as staff's evaluation of the data and findings to be provided.

The initial findings as reflected in the attached report prepared by the Department of Planning and Zoning indicates that a total of 1,250 building permits for new residential construction were issued during the 12-year period between 1994 and April 2006. This report reflects a number of parcels that contain less than the 5 gross acres typically required by the underlying zoning districts for the majority of the lands located outside the UDB. The mere existence of these parcels under 5 gross acres does not signify that such parcels were lawfully created.

An extensive amount of research of these smaller parcels on a case-by-case basis will be required to determine whether any of these smaller parcels are either grandfathered pursuant to: an executed AU (Agricultural District)/GU (Interim District) Affidavit on file with the Department of Planning and Zoning; a provision of the AU district for lots created prior to 1951 and containing a minimum of 10,000 sq. ft.; more liberal zoning classifications that predate the CDMP and are, therefore, lawfully existing; or otherwise approved pursuant to a public hearing. Unless deemed lawfully created by virtue of any of the aforementioned grandfather provisions or zoning actions, the Department of Planning and Zoning must assume the smaller parcels are nonconforming. In addition, there may be instances in which the original building permit for the smaller lots shown in this report were issued together with contiguous properties which, taken as a whole, complied with the minimum lot size and dimensions of the underlying zoning district but then subsequently subdivided unlawfully, thereby, creating a nonconforming parcel. A comprehensive report detailing this information will be submitted to the ILUC at its June meeting.
