

Memorandum

Date: April 24, 2007

To: Honorable Chairman Bruno A. Barreiro
And Members, Board of County Commissioners

Agenda Item No. 8(F)(1)(J)

From: George Burgess
County Manager

Subject: Acquisition of approximately 5.68-acres of improved and vacant land located at 3501 N.W. 46th Street, for the purpose of the relocation and expansion of the GSA Design and Construction Services trade shops

RECOMMENDATION

It is recommended that the Board of County Commissioners approve the attached Contract for Sale and Purchase for the acquisition of a 90,100 square foot warehouse situated on a 5.68-acre site for the purpose of the relocation of the General Services Administration (GSA) Design and Construction Services Division Trade Shops. The item has been prepared by General Services Administration and is recommended for approval.

SELLER: Nicolas Villalba Wholesalers, Inc., a New Jersey Corporation

COMPANY PRINCIPAL: Nicholas Villalba, Registered Agent

TAX FOLIO NUMBER: 30-3121-000-0620

SIZE: 5.68-acres of improved and vacant land

LOCATION: 3501 N.W. 36th Street

COMMISSION DISTRICT: 2

PURCHASE PRICE: \$ 7,000,000.00

APPRAISED VALUE: \$ 7,100,000.00
\$ 6,500,000.00

Appraisals were performed by two MAI independent appraisers: In an attempt to negotiate with the owner, the County made numerous offers and counteroffers to purchase the property until the owner agreed to sell the property for \$7,000,000.00.

ZONING: IU-1 (Industrial, Light Manufacturing District). The proposed use is permitted under the current zoning; therefore, a Governmental Facilities hearing will not be required pursuant to Section 33-303 of the Code of Miami-Dade County.

The subject property is zoned heavy industrial or lumber yard use.

JUSTIFICATION: On December 14, 2004, by Resolution R-1464-04, the Board authorized the sale, for \$933,400, in lieu of condemnation, of a portion of County-owned property located at 1175 NW South River Drive to the State of Florida Department of Transportation for the reconstruction of the NW 12 Avenue Bridge. This property is where the GSA Design and Construction Services Division houses its trade shops. The shops provide fabrication areas for the plumbing, HVAC and carpentry trades, as well as the paint shop. The Trade Shops provide critical emergency repair services for buildings after hours and on weekends. The Shops are also responsible for providing hurricane preparations before, during and after storms as well as repairs to our buildings damaged by the storms. FDOT purchased the portion of the site that housed the maintenance, carpentry, paint, and millwork shops, and buildings were demolished when FDOT took possession of the land. At that time, the Board was advised that ultimately, due to the bridge construction, the entire operation would have to be relocated to a new facility.

On September 12, 2006, by Resolution R-989-06, the Board approved a lease agreement for an interim site for use by the trade shops due to its proximity to the Downtown Government Center and the move-in condition of the premises. While this site provides for a temporary location, it lacks the required trades machinery, and GSA has been contracting for fabrication and other jobs, which costs more than when done in-house. The carpentry shop has ceased its manufacturing of millwork due to the lack of space.

This proposed acquisition will provide the adequate space for proper trade shop facilities and equipment to complete requested work in house. The development plan is for a 100,000 square foot building consisting of 55,000 square feet for the carpentry, mechanical, electrical, construction and plumbing shops and a 45,000 square foot warehouse. Adequate parking will also be provided in the new facility.

This location will aid in the consolidation of the furniture warehouse which is currently housed in a separately leased space that will be canceled when the new location is available for occupancy.

Because the proposed building suffered extensive roof damage during Hurricanes Katrina and Wilma and requires a new roof and structural hardening of the building, it is more cost effective to demolish than to renovate. Using tilt-up construction for the new building will provide the County with a facility that is capable of functioning before during and after a category 4 or 5 windstorm.

If approved by the Board, the closing of this proposed acquisition is scheduled to take place on or before September 30, 2007. GSA will immediately prepare the specifications and documents to advertise for construction services. We anticipate commencing construction the summer of 2008.

FUNDING:

Purchase price of the property is \$7 million dollars

The total project cost is programmed at \$21.8 million including the land acquisition, demolition of existing structures, construction, and equipping of a new facility. It would be funded with \$933,400 from a 2004 sale of property to the Florida Department of Transportation (FDOT), revenue generated by a permit issued to FDOT's contractor to utilize the current Shops location as a staging area for the bridge expansion project (\$125,000) and \$20 million programmed in the proposed Series 2007 Capital Asset Bonds. The balance of \$741,600 would be made available from department operating revenues.

In addition, the policy shall insure title to the Real Property for the period between closing and recording of the Statutory Warranty Deed. If the title commitment shows title to the Property to be unmarketable and uninsurable, then this Contract shall be rendered null and void and both Buyer and Seller shall be released of all obligations hereunder, except that Buyer may waive any defects and proceed with closing at Buyer's option.

The legal description in the survey shall be subject to Seller's and Buyer's approval.
