**Memorandum**

**Date:** March 6, 2007

**To:** Honorable Chairman Bruno A. Barreiro  
and Members, Board of County Commissioners

**From:** George M. Burgess  
County Manager

**Subject:** Adoption of the County Comprehensive Emergency Management Plan (CEMP)

Agenda Item No. 9(A)(17)(A)

---

**Recommendation**

It is recommended that the Board approve the attached resolution adopting the Miami-Dade County Comprehensive Emergency Management Plan (CEMP). The CEMP adheres to the State of Florida Department of Community Affairs compliance criteria set forth in Florida Administrative Code Chapter 9G-6 and 9G-7 and this current submittal provides for the corrections of scrivener's errors throughout the document and the incorporation of the National Incident Management System (NIMS) requirements for Incident Command structure. In accordance with Rule 9G-6.006 (10), upon determination that the CEMP is in compliance with terms of this Chapter, the approved plan must be adopted by Board resolution.

**Background**

Miami-Dade County CEMP establishes official emergency management policy for all County agencies in response to, and recovery from emergencies and disasters within the County. The CEMP also establishes policy for any municipality that has not obtained official approval for its own plan formal filed with the Department of Community Affairs, Division of Emergency Management pursuant to Rule 9G.

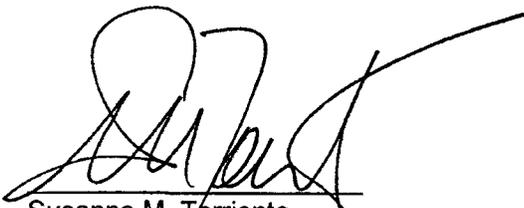

The intent of the CEMP is to provide an organized system for preparedness, response and recovery by which County officials are guided in applying their statutory responsibilities of direction and control during a disaster event. The backbone of the CEMP is its structure of Incident Command and use of this system in a format that is consistent with the State of Florida CEMP and Federal Emergency Management Agency (FEMA) National Response Plan. The CEMP provides a design for the effective management of any emergency situation within Miami-Dade County in coordination with the state and federal government.

Miami-Dade Fire Rescue, Office of Emergency Management (OEM) is responsible for publishing the Miami-Dade CEMP and its revisions. The Director of OEM or his/her designee is responsible for ensuring that the CEMP is maintained, reviewed, and developed. A comprehensive review and revision of the CEMP's Basic Plan is conducted once every four years.

During the four years prior to the comprehensive revision, the OEM reviews the effectiveness of the CEMP, publishing and distributing updates as necessary. Tabletop and full scale exercises, as well as, actual emergencies and disasters are the primary methods the OEM employs to evaluate the CEMP. Following each exercise and activation of the EOC, a critique of the event is conducted to determine those areas of the CEMP deemed insufficient in meeting the needs of the emergency or disaster. OEM compiles all of these findings and incorporates them into the CEMP at the appropriate time.

and Members, Board of County Commissioners

In addition to the comprehensive basic plan review process that occurs every four years, the OEM updates annually those sections of the CEMP that contain time sensitive data such as the demographics section of the basic plan. The subparts within the basic plan are also kept current and maintained by OEM Coordinators in cooperation with federal, state, county, municipal, and private entities that are responsible for, and have knowledge and experience in the specific issues addressed in a given subpart.
