Subject: Supplement to 9A5A

Supplement to
Agenda Item No. 9(A)5a

This supplement is to clarify agenda item number 9A5A regarding the use of Trust Fund proceeds.

The intent of the Trust Fund is to reimburse municipal building departments to offset the cost of permits transferred to a licensed contractor or homeowner who demonstrates documented claims of administrative costs associated with the resolution of those permits pulled by the 271 identified contractors holding illegally purchased licenses. Trust Fund proceeds may also be used to offset hard cost such as costs and fees associated with "Bogus Builder" inspections and permits. The Trust Fund is not intended to offset the cost of administrative related expenses associated to the "Bogus Builder" cases.
