

Memorandum

Date: July 24, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Agenda Item No. 12(A)(1)

Subject: Building Better Communities Bond Program Funding Recommendations – \$30 Million
Not-For-Profit Community Organization Capital Fund

Recommendation

It is recommended that the Board of County Commissioners approve the funding of 37 grants to not-for-profit groups for a total of \$30 million. The list of the 37 recommended proposals for funding are shown in **Exhibit 1**. These funds will be used for capital purposes which include the purchase of properties, the completion of additions to existing properties and the renovation of existing properties.

Scope

The impact of this agenda item is countywide.

Fiscal Impact/Funding Source

Funding is provided from the Building Better Communities Bond Program project number #223 totaling \$30 million.

Track Record/Monitor

The implementing agencies have a proven track record in our community. Roger T. Hernstadt, Director of the Office of Capital Improvements (OCI), is responsible for monitoring the implementation of these grants.

Background

On November 2, 2004 voters overwhelmingly approved the referendum to fund more than 300 capital improvement projects throughout Miami-Dade County over the next 20 years. The \$30 million Not-For-Profit Community Organization Capital Fund is one of those projects.

The Request for Proposals (RFP) was advertised in the Miami Herald, Miami Times, Haiti En Marche, Daily Business Review and Diario de Las Americas between July 28 and August 10, 2006. The OCI held two pre-proposal conferences which resulted in two addendums to the original RFP. On the deadline submission date, the Office of the Clerk received 74 proposals. In accordance with the Bond Program's Administrative Rules, I established a Review Committee to analyze each proposal and provide me with their recommendations.

The Review Committee met on November 17, December 13 and December 14, 2006, and provided me with their recommendations totaling approximately \$28 million (**Exhibit 2**). On May 17, 2007, the Review Committee reconvened in order to provide me with recommendations for the remaining \$2 million (**Exhibit 3**), less the costs associated with the preparation of the RFP (\$17,218). I have identified an alternative funding source for those expenses thus increasing the available funds for award, and recommend increasing the Review Committee's allocation of funds to WDNA - 88.9 FM Community Public Radio from \$335,166 to \$352,384. For your convenience, I have included under **Exhibit 4** a list of the recommended proposals along with a brief description of the services they provide and their proposed capital project.

This Agreement (the "Agreement") by and between Miami-Dade County, a political subdivision of the State of Florida (the "County"), through its governing body, the Board of County Commissioners of Miami-Dade County, Florida (the "Board") and _____, a Florida nonprofit corporation (the "Grantee") is entered into this ____ day of _____, 2007.

WITNESSETH:

WHEREAS, on July 20, 2004, the Board adopted Resolution Nos. R-912-04, R-913-04, R-914-04, R-915-04, R-916-04, R-917-04, R-918-04 and R-919-04 authorizing the issuance of \$2.926 billion in general obligation bonds for capital projects and on November 2, 2004, a majority of those voting approved the bond program (the "BBC GOB Program"); and

WHEREAS, the aforementioned Resolutions include specific projects such as but not limited to development, improvement, rehabilitation, restoration or acquisition of real property; and

WHEREAS, the Grantee is undertaking completion of [describe project] (the "Project") which was specifically approved as part of the BBC GOB Program or is eligible for funding from one of the programs to be funded under the BBC GOB Program and is described more specifically in Exhibit 1 to this Grant Agreement; and

WHEREAS, the [Project Name] is estimated to cost [total Project Cost] (the "Total Project Cost") and will be funded from the sources listed in Exhibit 1; and

WHEREAS, the [name of project]/GOB Project Number _____ is eligible for funding from the BBC GOB Program in a total amount not to exceed [Total GOB Project Allocation] (the "Funding Allocation"); and

WHEREAS, pursuant to the terms of this Agreement the County has agreed to allocate _____ from the Series A 2005 Bonds for the Project (the "Funding Cycle Allocation"); and

WHEREAS, the Project physically improves an area, facility, resource or site to increase its ability or capacity to serve the public; and

WHEREAS, the County and the Board of Directors of the Grantee have authorized, by resolution, their respective representatives to enter into this Agreement

for each Funding Cycle Allocation describing their respective roles in the funding for the Project costs with respect to such Funding Cycle Allocation,

NOW THEREFORE, pursuant to Resolution No. R-595-05, which specifically authorizes the County Manager to execute such agreements and other required contracts and documents, to expend Building Better Communities bond funds received for the purpose described in the approved funding allocation, and in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

Section 1. Parties, Effective Date and Term: The parties to this Agreement are the Grantee and the County. The County has delegated the responsibility of administering this grant to the County Manager, or his designee, who shall be referred to herein as the "County Manager."

This Agreement shall take effect upon execution and shall terminate upon the completion of the Project, including the completion of all final closeout documentation.

Section 2. Amount of Funding Cycle Allocation and Payment Schedule: A Project funding plan identifying the Funding Allocation to be funded by the County solely from BBC GOB Program proceeds and the costs to be funded by the Grantee through written project funding commitments from third parties is attached as Exhibit 1. Included shall be a projected timetable for each Funding Cycle Allocation and the amount funded to date, if any. The County agrees to provide solely from the BBC GOB Program proceeds for the Funding Cycle Allocation an amount equal to _____. This amount represents [all] [a portion] of the amount necessary to complete the Project. By making this grant, Miami-Dade County assumes no obligation to provide financial support of any type whatever in excess of the Funding Allocation. Cost overruns are the sole responsibility of the Grantee. The Funding Cycle Allocation shall be provided in accordance with the Administrative Rules which are attached as Attachment 1 ("Administrative Rules") and incorporated in this Agreement by this reference. In the event that the Funding Cycle Allocation is not expended on schedule, additional allocations may be delayed for one calendar year or more depending on the bond schedule, in accordance with the Administrative Rules and Section 22 of this Agreement.

Payment(s) of Funding Cycle Allocation funds will be made to the Grantee pursuant to the reimbursement provisions in the Administrative Rules and its Exhibits.

Miami-Dade County shall only be obligated to reimburse the Grantee provided the Grantee is not in breach of this Agreement and the Grantee has demonstrated that it has adequate funds to complete the Project. The County shall administer, in accordance with the appropriate regulations, the funds available from the BBC GOB Program as authorized by Board Resolutions. Any and all reimbursement obligations of the County shall be fully subject to and contingent upon the availability of funding solely from the BBC GOB Program funds. The Grantee shall be solely responsible for submitting all documentation, as required by this Agreement and by the Administrative Rules, to the County Manager.

Section 3. Project Description: The Grantee may only use the Funding Cycle Allocation for the purpose of purchasing, building, renovating and/or equipping facilities for the Project as specifically described in Exhibit 1. Further, it is expressly understood and agreed, that the Grantee's Project which is supported by Funding Cycle Allocation must be open and accessible to the public, provide public exposure and benefit the public unless otherwise noted under Section 25 of this Agreement.

For at least thirty (30) years from the completion of the Project, the Grantee shall use the facility and/or equipment acquired and/or improved under the Project for activities benefiting the public, and for no other purposes. The Grantee agrees to: a) maintain the Project; b) keep the Project open to all Miami-Dade County residents; and (c) allow all Miami-Dade County residents equal access and use of the Project.

If the Grantee wishes to revise the Project for the purpose of completing the Project and such revisions substantially alter the original Project, the Grantee must request in writing that the County Manager review and approve such revisions. Grantee's request must be given at least fourteen (14) days prior to implementation of revisions. The County Manager will make the final determination on revisions within fourteen (14) business days of the date of receipt of the request in the County Manager's offices.

Section 4. Project Budget: The Grantee agrees to demonstrate fiscal stability and the ability to administer the Funding Cycle Allocation responsibly and in accordance with standard accounting practices by developing and adhering to a Project budget that is based upon reasonable revenue development and expenditures projected to complete the Project within the Total Project Cost. This Project budget is attached as Exhibit 1. Further, Grantee agrees that all expenditures will be subject to the terms of this Agreement. If Grantee wishes to revise the budget for the purpose of completing the Project, including line item changes, and such revisions substantially alter the original Project, the Grantee must request in writing that the County Manager review and approve such revisions. Grantee's request must be given at least fourteen (14) days prior to implementation of the revisions. The County Manager will make the final determination on revisions within fourteen (14) business days of the date of receipt of the request in the County Manager's offices.

Section 5. Expenditure Deadline: The Grantee shall spend or commit all of the Funding Cycle Allocation and matching funds on or before _____ (the "Expenditure Deadline"). Any Funding Cycle Allocation funds not spent or committed by the Expenditure Deadline or for which a Project extension has not been requested shall revert to the County and this Agreement shall be terminated in accordance with the provisions of this Agreement. A Project extension may be requested in writing from the County Manager at least thirty (30) business days prior to the Expenditure Deadline. The County Manager, at his discretion, may grant an extension of up to one (1) year from the Expenditure Deadline so long as such extension will not significantly alter the Project including its quality, impact, or benefit to the organization, the County or its citizens. Additional extensions may be authorized by the County Manager if the Grantee can document in a written request sufficient Project progress and cause for such an extension to be warranted.

Section 6. Report Deadline: To demonstrate that the Funding Cycle Allocation has been used in accordance with the Project Description and Project budget information as outlined in Exhibit 1 and that Grantee has met and fulfilled all requirements as outlined in this Agreement, exhibits, and/or other substantive materials as may be attached or included as a condition to this Funding Cycle Allocation award, the Grantee must submit to the County Manager, a written report documenting that the Grantee is meeting or has fulfilled all Project and financial requirements. This report is to be received by the County Manager monthly. The Grantee shall also submit a written report to the County Manager on or prior to September 30th of each year from the time of the execution of this Agreement through the termination of this Agreement demonstrating that the Grantee is fulfilling, or has fulfilled, its purpose, and has complied with all applicable municipal, Miami-Dade County, state and federal requirements. The County Manager may also request that a compilation statement or independent financial audit and accounting for the expenditure of Funding Cycle Allocation funds be prepared by an independent certified public accountant at the expense of the Grantee.

In the event that the Grantee fails to submit the required reports as required above, the County Manager may terminate this Agreement in accordance with Section 15. Further, the County Manager must approve these reports for the Grantee to be deemed to have met all conditions of the grant award.

Section 7. Program Monitoring and Evaluation: The County Manager may monitor and conduct an evaluation of the Grantee's operations and the Project, which may include visits by County representatives to: observe the Project or Grantee's programs, procedures, and operations; discuss the Grantee's programs with the Grantee's personnel; and/or evaluate the public impact of the Project. Upon request, the Grantee shall provide the County Manager with notice of all meetings of its Board of Directors or governing board, general activities and Project-related events. In the event the County Manager concludes, as a result of such monitoring and/or evaluation, that the Grantee is not in compliance with the terms of this Agreement or the Administrative Rules or for other reasons which significantly impact on the Grantee's ability to fulfill the conditions of this Funding Cycle Allocation award, then the County Manager must provide in writing to the Grantee, within thirty (30) days of the date of said monitoring/evaluation, notice of the inadequacy or deficiencies noted which may significantly impact on the Grantee's ability to complete the Project or fulfill the terms of this Agreement within a reasonable time frame. If Grantee refuses or is unable to address the areas of concern within thirty (30) days of receipt of such notice from the County Manager, then the County Manager, at his discretion, may take other actions which may include reduction or rescission of the Funding Cycle Allocation award, or withholding Funding Cycle Allocation funds until such time as the Grantee can demonstrate that such issues have been corrected. Further, in the event that the Grantee does not expend the Funding Cycle Allocation for the Project or uses any portion of the Funding Cycle Allocation for costs not associated with the Project and the Grantee refuses or is unable to address the areas of concern, then the County Manager may request the return of the full or partial Funding Cycle Allocation award. The County Manager may also institute a moratorium on applications from the Grantee to County

grants programs for a period of up to one (1) year or until the deficient areas have been addressed to the satisfaction of the County Manager, whichever occurs first.

If the Project involves construction work, the Grantee shall: notify the County Manager of any applicable federal labor compliance requirements regarding procurement and pre-award procedures prior to scheduling pre-construction conferences; submit to the County Manager all plans and specifications and receive the approval of the County Manager prior to issuance and implementation; and comply with all applicable provisions of municipal, state, federal and County laws, regulations and rules.

Section 8. Bank Accounts and Bonding: Monies received pursuant to this Agreement shall be kept in accounts in established Florida banks, credit unions or savings and loan associations whose identity shall be disclosed in writing, with the identity and title of individuals whom the Grantee authorizes to withdraw or write checks on Funding Cycle Allocation funds from the banking institution identified on the "Bank Account Disclosure" form submitted by the Grantee. These accounts must be segregated from other accounts maintained by the Grantee. All persons authorized to withdraw funds from the Funding Cycle Allocation account must be bonded by a reputable licensed firm.

Section 9. Accounting and Financial Review: The Grantee must keep accurate and complete books and records for all receipts and expenditures of this Funding Cycle Allocation award and any matching funds required in conformance with reasonable general accounting standards. These books and records, as well as all documents pertaining to payments received and made in conjunction with the Funding Cycle Allocation, such as vouchers, bills, invoices, receipts and canceled checks, shall be retained in Miami-Dade County in a secure place and in an orderly fashion by the Grantee for at least three (3) years after the later of: the Expenditure Deadline specified in Section 5; the extended Expenditure Deadline, as approved by the County Manager, if any; the completion of a County requested or mandated audit or compliance review; or the conclusion of a legal action involving the Funding Cycle Allocation award, the Grantee and/or Project or activities related to the Funding Cycle Allocation award.

The County Manager may examine these books, records and documents at the Grantee's offices or other approved site under the direct control and supervision of the Grantee during regular business hours and upon reasonable notice. Furthermore, the County Manager may, upon reasonable notice and at the County's expense, audit or have audited all financial records of the Grantee, whether or not purported to be related to this grant.

Pursuant to Section 2-1076 of the Miami-Dade County Code the County shall have the right to engage the services of an independent private-sector inspector general ("IPSIG") to monitor and investigate compliance with the terms of this Agreement. The Office of the **MIAMI-DADE COUNTY INSPECTOR GENERAL (IG)** shall have the authority and power to review past, present and proposed County programs, accounts, records, contracts and transactions, and contracts such as this Agreement for improvements some cost of which is funded with County funds.

As such, the IG may, on a random basis, perform audits on this Agreement throughout the duration of said Agreement (hereinafter "random audits"). This random audit is separate and distinct from any other audit by the County.

The IG shall have the power to retain and coordinate the services of an **IPSIG** who may be engaged to perform said random audits, as well as audit, investigate, monitor, oversee, inspect, and review the operations, activities and performance and procurement process including, but not limited to, project design, establishment of bid specifications, bid submittals, activities of the Grantee and contractor and their respective officers, agents and employees, lobbyists, subcontractors, materialmen, staff and elected officials in order to ensure compliance with contract specifications and detect corruption and fraud. The IG shall have the power to subpoena witnesses, administer oaths and require the production of records. Upon ten (10) days written notice to the Grantee (and any affected contractor and materialman) from IG, the Grantee (and any affected contractor and materialman) shall make all requested records and documents available to the IG for inspection and copying.

The IG shall have the power to report and/or recommend to the Board whether a particular project, program, contract or transaction is or was necessary and, if deemed necessary, whether the method used for implementing the project or program is or was efficient both financially and operationally. Monitoring of an existing project or program may include reporting whether the project is on time, within budget and in conformity with plans, specifications, and applicable law. The IG shall have the power to analyze the need for, and reasonableness of, proposed change orders.

The IG is authorized to investigate any alleged violation by a contractor of its Code of Business Ethics, pursuant Miami-Dade County Code Section 2-8.1.

The provisions in this section shall apply to the Grantee, its contractors and their respective officers, agents and employees. The Grantee shall incorporate the provisions in this section in all contracts and all other agreements executed by its contractors in connection with the performance of this Agreement. Any rights that the County has under this Section shall not be the basis for any liability to accrue to the County from the Grantee, its contractors or third parties for such monitoring or investigation or for the failure to have conducted such monitoring or investigation and the County shall have no obligation to exercise any of its rights for the benefit of the Grantee.

Section 10. Publicity and Credits: The Grantee must include the following credit line in all promotional marketing materials related to this funding including web sites, news and press releases, public service announcements, broadcast media, programs, and publications: "THIS PROJECT IS SUPPORTED BY THE BUILDING BETTER COMMUNITIES BOND PROGRAM AND THE MAYOR AND BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY."

Section 11. Naming Rights and Advertisements: In the event that any naming rights or advertisement space is offered on a facility constructed or improved with BBC GOB Program funds, then Miami-Dade County's name, logo, and slogan shall appear on the facility at least once. Lettering used for Miami-Dade County will be no less than 75% of the size of the largest lettering used for any sponsor or advertiser.

Section 12. Liability and Indemnification: It is expressly understood and intended that the Grantee, as the recipient of BBC GOB Program funds, is not an officer, employee or agent of Miami-Dade County, its Board of County Commissioners, its Mayor, nor the Miami-Dade County Department administering the Funding Cycle Allocation award. Further, for purposes of this Agreement, the Project or activity, the parties hereto agree that the Grantee, its officers, agents and employees are independent contractors and solely responsible for the Project.

The Grantee shall take all actions as may be necessary to ensure that its officers, agents, employees, assignees and/or subcontractors shall not act as nor give the appearance of that of an agent, servant, joint venturer, collaborator or partner of the Department administering this Grant, the Miami-Dade County Mayor, the Miami-Dade County Board of County Commissioners, or its employees. No party or its officers, elected or appointed officials, employees, agents, independent contractors or consultants shall be considered employees or agents of any other party, nor to have been authorized to incur any expense on behalf of any other party, nor to act for or to bind any other party, nor shall an employee claim any right in or entitlement to any pension, workers' compensation benefit, unemployment compensation, civil service or other employee rights or privileges granted by operation of law or otherwise, except through and against the entity by whom they are employed.

The Grantee agrees to be responsible for all work performed and all expenses incurred in connection with the Project. The Grantee may subcontract as necessary to complete the Project, including entering into subcontracts with vendors for services and commodities, provided that it is understood by the Grantee that the County shall not be liable to the subcontractor for any expenses or liabilities incurred under the subcontract and that the Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under the subcontract.

The Grantee shall indemnify and hold harmless the County and its officers, employees, agents and instrumentalities from any and all liability, losses or damages, including attorneys' fees and costs of defense, which the County or its officers, employees, agents or instrumentalities may incur as a result of claims, demands, suits, causes of actions or proceedings of any kind or nature arising out of, relating to or resulting from the performance of this Agreement by the Grantee or its employees, agents, servants, partners, principals, subconsultants or subcontractors. Grantee shall pay all claims and losses in connection therewith and shall investigate and defend all claims, suits, or actions of any kind or nature in the name of the County, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorneys' fees which may issue thereon. Grantee expressly understands and agrees that any insurance protection required by this Agreement or otherwise provided by the Grantee shall in no way limit the responsibility to indemnify, keep and save harmless and defend the County or its officers, employees, agents and instrumentalities as herein provided.

Section 13. Assignment: The Grantee is not permitted to assign this Agreement or any portion thereof. Any purported assignment will render this Agreement null and void and subject to immediate rescission of the full amount of the

Funding Cycle Allocation award and reimbursement by the Grantee of its full value to the County.

Section 14. Compliance with Laws: It shall be a contractual obligation of the Grantee hereunder and the Grantee agrees to abide by and be governed by all Applicable Laws necessary for the development and completion of the Project. "Applicable Law" means any applicable law (including, without limitation, any environmental law), enactment, statute, code, ordinance, administrative order, charter, tariff, resolution, order, rule, regulation, guideline, judgment, decree, writ, injunction, franchise, permit, certificate, license, authorization, or other direction or requirement of any governmental authority, political subdivision, or any division or department thereof, now existing or hereinafter enacted, adopted, promulgated, entered, or issued. The Grantee shall comply with Miami-Dade County Resolution No. R-385-98 which creates a policy prohibiting contracts with firms violating the Americans with Disabilities Act of 1990 and other laws prohibiting discrimination on the basis of disability and shall execute a Miami-Dade County Disability Non-Discrimination Affidavit confirming such compliance.

All records of the Grantee and its contractors pertaining to the Project shall be maintained in Miami-Dade County and, upon reasonable notice shall be made available to representatives of the County. In addition, the Office of Inspector General of Miami-Dade County shall have access thereto for any of the purposes provided in Sec. 2-1076 of the Code of Miami-Dade County.

The Grantee shall cause each contract to include a provision that contractor shall comply with all requirements of Section 2-1076 as provided in Section 9 herein, and that

contractor will maintain all files, records, accounts of expenditures for contractor's portion of the Work and that such records shall maintained within Miami-Dade County and County shall have access thereto as provided in this Agreement.

 - (2.) Either party may institute litigation to recover damages for any default or to obtain any other remedy at law or in equity (including specific performance, permanent, preliminary or temporary injunctive relief, and any other kind of equitable remedy).

14

- (3) Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the parties are cumulative and the exercise by any party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default.

No delay or failure to exercise a right under this Agreement shall impair such right or shall be construed to be a waiver thereof. Any waiver shall be limited to the particular right so waived and shall not be deemed a waiver of the same right at a later time or of any other right under this Agreement. Waiver by any party of any breach of any provision of this Agreement shall not be considered as or constitute a continuing waiver or a waiver of any other breach of the same or any other provision of this Agreement.

Pre-proposal Conferences

Pre-proposal conferences were held to answer questions related to the RFP. The first conference was held on August 14, 2006 at the Miami Art Museum and the second was held on September 14, 2006 at the Port of Miami. Each conference was attended by over 80 prospective applicants and staff answered a number of questions initially verbally and followed up in writing in the addendums.

Addendums

Two addendums were issued as part of this RFP with addendum #1 answering 60 questions and addendum #2, 70 questions. Additionally, changes to the RFP were made as needed and included in each addendum.

Establishment of the Review Committee

The committee initially consisted of 7 members and an alternate. An individual from the Alliance for Human Services and an employee from the Dade Community Foundation were selected in accordance with the BBC Administrative Rules that recommended using an employee from each of these organizations. OCI recommended an employee from the County's Office of Cultural Affairs and an employee from the County's Office of Strategic Business Management. The chairperson of the Citizens Advisory Committee recommended a private citizen to also serve on the committee. The remaining two individuals, and the alternate, were selected by the County's Department of Business Development (DBD) and consisted of an employee with the County's Human Services Department, one from DBD, and the alternate from the County's Office of Community and Economic Development. I was the Committee's non-voting chairperson.

Prior to the initial meeting of the Committee the member selected from the Alliance for Human Services and the private citizen asked to be excused from the committee due to personal reasons. The Committee moved forward with five voting members, an alternate, and the non-voting chairperson.

Review Committee Phase I - Proposal Eligibility

On November 17th, 2006 Phase I consisted of the committee members determining the eligibility status of proposals as being either Eligible, Conditionally Eligible, or Ineligible as described in the BBC's Administrative Rules, Article II - Section 4. Projects deemed Eligible are those that met the basic requirements, although may need to provide additional information prior to signing a grant agreement with Miami-Dade County. Projects deemed Conditionally Eligible are those that must provide additional information prior to signing a grant agreement with Miami-Dade County. The information that these proposals would need to provide is considered to be curable by the County Attorneys Office. Projects deemed Ineligible did not meet one or more of the basic requirements and/or did not meet the intent language spelled out in the RFP. A list of the proposals and the determination of the committee with regards to their eligibility status is attached as Exhibit B.

Review Committee Phase II – Proposal Funding

On December 13th, 2006 Phase II began with the committee members voting to place the Eligible and Conditionally Eligible projects into four categories being High, Moderate, Low, and Other to determine funding recommendations. Each of the proposals was discussed by the committee and the members voted to place each of the proposals into one of the four categories.

On December 14th, 2006 the committee voted to consider some moving some of the proposals in the Moderate column to the High column. The committee voted on each proposal in the Moderate column and all but two projects were moved to the High column. At that point, the committee made a motion to rename the "High" column to the "Recommended Proposals for

Funding" and also made a motion to move the remaining projects in the Moderate, Low, and Other column into a new column called "Proposals not Recommended for Funding".

The committee also approved a motion recommending to the County Manager that if all the proposals could not be funded at the requested amount, less adjustments from OCI staff for items not eligible in the proposal, that the committee be reconvened to once again recommend to the County Manager the projects to fund. Lastly, the committee approved an additional motion that the projects listed in the Other column be forwarded to OCI for funding consideration using other BBC funding sources.

The committee's list for Recommended Proposals for Funding is attached as Exhibit C and includes 32 proposals totaling \$28,484 million. The list includes proposals from 11 small organizations totaling \$5,456 million exceeding the \$4,500 million minimum stated in the RFP.
