

Memorandum

Date: July 11, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager 

Subject: Resolution Authorizing Award of Competitive Contracts

B&F

Agenda Item No. 3(O)

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached award of competitive contracts, with authority to exercise future options-to-renew, contract modifications, award of competitively bid contracts of other governmental entities, authority to exercise option-to-renew periods and retroactive approval for the execution of option-to-renew periods for contracts awarded under the County Manager's delegated authority. Contract allocations represent the maximum spending authority based on estimated quantities, and do not constitute a guarantee of the total value of orders to be placed.

Scope

The impact of the items in the accompanying Award of Competitive Contracts Package is countywide in nature.

Fiscal Impact/Funding Source

The accompanying Award of Competitive Contracts Package states the allocation amount and funding source for each department utilizing a contract. It should be noted that no funds are to be expended on any contract if the department's budget cannot support such expenditures.

Track Record/Monitor

There are no known performance issues with the vendors recommended for award in the accompanying Award of Competitive Contracts Package. Each department's contract manager is reflected in the accompanying Award of Competitive Contracts Package.

Background

Section 1 AWARD OF COMPETITIVE BIDS

The contract listed in this section, Item 1.1, was awarded under the County Manager's delegated authority to the lowest priced, responsive, responsible bidder who met the bid specifications in accordance with established policies and procedures. The Miami-Dade Transit Department allocation for People's Transportation Plan (PTP) funding is recommended for awarded since PTP legislation requires the use of Surtax funds to be approved by the Board of County Commissioners and the Citizens' Independent Transit Trust (CITT). Approval to award this contract allocation is now requested.

Item 1.1: Shop Towel Rental with Laundry Service is to award an allocation for the Miami-Dade Transit (MDT) Department for the rental of shop towels with laundry service funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of People's Transportation Plan (PTP), the increased bus fleet and the hiring of additional bus maintenance staff has resulted in an increase in the usage of shop towels. The amount being requested is **\$200,000**.

The remaining contracts in this section Items 1.2, 1.3 and 1.4 are being recommended for award to the lowest priced, responsive, responsible bidder(s) who met the bid specifications in accordance with established policies and procedures.

Item 1.2: Liquefied Petroleum Gas (LPG) is to award this contract for the purchase of liquefied petroleum gas for various County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of the People's Transportation Plan (PTP), MDT has extended miles and service hours, and developed new routes due to the purchase of more buses to better service the needs of the community and attract new riders. The amount being requested is **\$2,638,310**.

Item 1.3: Annual Roadway Landscape Maintenance is to award this contract for the purchase of general landscape maintenance services at various roadway right-of-way sites maintained by the Public Works Department. The funding source for this contract is General Funds and Capital Funds. The amount being requested is **\$1,962,424**.

Item 1.4: Original Equipment Manufacturer (OEM) Paint and Automotive Refinishing Services is to award this contract for the Miami-Dade Transit (MDT) Department to purchase OEM paint and automotive refinishing services funded by Operating Revenue and Surtax allocation formula as approved. This contract is used to purchase interior, exterior paints and painting accessories needed for refurbishing and refinishing services for MDT revenue fleet on an as needed basis. As a direct result of People's Transportation Plan (PTP), the increased bus fleet has resulted in an increase in the usage of OEM paint refurbishing and refinishing services for the Bus Maintenance Division. The amount being requested is **\$211,624**.

Section 2 REJECTED BIDS

A bid may be rejected when adverse conditions exist such as the proposal not conforming to the specifications and/or solicitation documents, insufficient financial resources, technical ability, physical capacity and/or skill of the vendor, unfair and unreasonable pricing, insufficient competition and for any other cause in the best interest of the County.

There are no items for this section.

Section 3 COMPETITIVE CONTRACT MODIFICATIONS

A competitive contract modification is an action where the requested supplemental allocation for goods or services is within the scope of the original contract award and allocation.

Item 3.1: Trees and Palms is to approve additional spending authority to plant trees for canopy replacement for the Park and Recreation Department. The additional amount being requested is **\$1,520,000**.

Item 3.2: Mobile Equipment Original Equipment Manufacturer (OEM) Replacement Parts and Service is to approve additional time and spending authority to purchase medium and heavy duty mobile equipment OEM parts and repair services for various County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of the People's Transportation Plan (PTP), additional OEM replacement parts and service for medium and heavy duty trucks are required and utilized to provide direct support to MDT as a result of an increase in service. The parts and services are used to service all MDT medium and heavy-duty trucks, including service trucks utilized by bus technicians when a bus breaks down, support trucks utilized to escort disabled buses, delivery trucks utilized for delivery of parts to storerooms, and repair trucks utilized to repair the tracks and guideway system. The additional amount being requested is **\$1,963,726**.

Item 3.3: Domestic Passenger Vehicle Dealer Original Equipment Manufacturer (OEM) Parts and Repair Services is to approve additional time and spending authority for the purchase of dealer OEM parts and repair services for County owned vehicles. The previous allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. This contract is used by MDT to purchase OEM replacement parts and services for ongoing maintenance and repair of MDT vans, pickup trucks, and utility vehicles. These vehicles are utilized by MDT technicians for expeditious pick-up and delivery service of OEM parts within and between MDT and County facilities in support of the revenue vehicle maintenance and repair services including tracks and guideway systems to reduce downtime and adhere to PTP requirements. The additional amount being requested is **\$1,043,000**.

Section 4 PURCHASES MADE UNDER COMPETITIVELY AWARDED CONTRACTS OF OTHER GOVERNMENTAL ENTITIES

The County occasionally accesses contracts competed and awarded by federal, state and local governments, and by not-for-profit organizations, when it is legally permissible and, it is determined to be in the best interest of the County, and the item is not available through an existing County contract.

Item 4.1: Mail Processing Equipment is to access the State of Florida contract for the purchase and lease of mail processing equipment for various County departments. The amount being requested is **\$4,186,801**.

Item 4.2: Digital Traffic Controllers, Loop Vehicle Detectors, Signal Heads and Auxiliaries is to access the State of Florida contract for the purchase of digital traffic controllers, loop vehicle detectors, signal heads and auxiliaries for the Public Works Department that are to be funded with proceeds from the Charter County Transit Systems Sales Surtax. As a direct result of People's Transportation Plan (PTP), the upgrade of the County's traffic signalization system was approved by the Board on July 9, 2002. This project is listed as the first project under the Major Highway and Road Improvements category in Exhibit 1 of the PTP Ordinance No. 02-116. The amount being requested is **\$3,712,091**.

Item 4.3: Computer, Software and Related Services (U.S. Communities) is to continue to access the U.S. Communities sponsored, competitively awarded GTSI contract to provide the Miami-Dade Aviation Department with information technology related equipment and services to upgrade the closed circuit television system at Miami International Airport. The additional amount being requested is **\$2,004,588**.

Item 4.4: Telephone Systems - Public Exchange Services (PABX) is to continue to access the State of Florida contract to provide the required network infrastructure support, PBX switch equipment, peripherals and accessories for computerized telecommunications systems for the Miami-Dade Fire Rescue Department. The additional allocation for the Enterprise Technology Services Department will be used to support the day to day PABX telecommunication needs of the Stephen P. Clark Center and the Miami-Dade Police Department. The previous allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. MDT has expanded Metrorail and Metromover services, thus increasing software, services and telecommunications infrastructure support systems. The service expansion has resulted in additional maintenance and repair services for software components and support equipment as a result of the People's Transportation Plan (PTP) implementation. The additional amount being requested is **\$332,700**.

**Section 5 REQUESTS FOR AUTHORITY TO EXERCISE OPTION-TO-RENEW (OTR)
PERIODS UNDER EXISTING COMPETITIVE CONTRACTS THAT WOULD
BRING THE CUMULATIVE CONTRACT VALUE TO MORE THAN \$1
MILLION**

The contracts listed in this section require approval to exercise future option-to-renew (OTR) periods contained in the contract that would, if exercised, bring the cumulative value of the contract over \$1 million. Each of the contracts were awarded using full and open competition under the County Manager's delegated authority pursuant to Section 2-8.1(b) of the County Code and the Master Procurement Administrative Order, A.O. 3-38. The County

Manager's delegated authority for competitive procurements is capped at \$1 million.

Prior to exercising any OTR periods, market research is conducted to ensure the continued purchase from the awarded vendors is in the best interest of the County. Market research includes competitive factors such as pricing, quality, product features, technology, and lead time. It may also include commercial factors such as environmental issues, other government entity practices, industry trends, support and capabilities. The OTR periods on the contracts in this section will be executed once determined to be in the best interest of the County.

Item 5.1: Sodium Hypochlorite is approval to exercise the option-to-renew periods for a contract established for the purchase of sodium hypochlorite for the Miami-Dade Water and Sewer Department. The amount being requested is **\$766,168**.

Item 5.2: Original Equipment Manufacturer (OEM) Replacement Parts and Repair Services for Lawn Equipment is approval to exercise the option-to-renew periods for a contract established for the purchase of OEM replacement parts and repair services for lawn equipment for various County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. The services, replacement parts and supplies purchased under this contract are used by MDT maintenance division for repair and replacement of lawn maintenance equipment needed as part of the overall rail station cleaning and maintenance work. As a direct result of People's Transportation Plan (PTP), miles, hours of operation and ridership have increased. This increase has resulted in additional use of lawn cleaning and maintenance equipment and more frequent rail station maintenance work. The amount being requested is **\$1,025,500**.

Item 5.3: Bell Helicopter Original Equipment Manufacturer (OEM) Parts is approval to exercise the option-to-renew periods for a contract established for the purchase of OEM parts for Bell helicopters for the Miami-Dade Police Department. The amount being requested is **\$250,000**.

Item 5.4: Well Drilling Services, Pre-qualification of Vendors is approval to exercise the option-to-renew periods for a contract that establishes a pool of pre-qualified vendors who are invited to quote for well drilling services for various County departments. The amount being requested is **\$497,000**.

Item 5.5: Janitorial Services is approval to exercise the option-to-renew period for a contract established for a purchase of janitorial services for the Miami-Dade Housing Agency. The amount being requested is **\$400,000**.

Item 5.6: Metals, All Types, Pre-qualification of Vendors is approval to exercise the option-to-renew periods for a contract that establishes a pool of pre-qualified vendors who are invited to quote for the purchase of various types of metals for

various County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. This contract is used by MDT to purchase a variety of metals such as steel, stainless, galvanized and aluminum used by the MDT Maintenance Division in its daily operations for welding repair work for revenue vehicles and support equipment use to minimize downtime and adequately support the People's Transportation Plan (PTP). The amount being requested is **\$470,000**.

Item 5.7: Acquisition and Relocation Services, Pre-qualification of Vendors is approval to exercise the option-to-renew periods for a contract that establishes a pool of qualified consultants for acquisition of real estate for highway projects and transit expansion, property acquisitions and to relocate eligible parties for the Public Works Department. The amount being requested is **\$450,000**.

Section 6 REQUESTS FOR RETROACTIVE APPROVAL FOR THE EXECUTION OF OPTION-TO-RENEW (OTR) PERIODS UNDER EXISTING COMPETITIVE CONTRACTS WHICH CAUSED THE CUMULATIVE VALUE OF THE CONTRACT TO EXCEED \$1 MILLION

The contracts listed in this section are seeking retroactive approval for the execution of option-to-renew (OTR) periods contained in the contract that brought the cumulative value of the contract over \$1 million. Each of the contracts were awarded using full and open competition under the County Manager's delegated authority pursuant to Section 2-8.1(b) of the County Code and the Master Procurement Administrative Order, A.O. 3-38. These contracts when originally awarded were valued below \$1 million. Subsequently, the OTR periods were exercised which caused the cumulative value of the contract to exceed the \$1 million threshold. Retroactive approval of the execution of the OTR periods is now requested

Item 6.1: Shop Equipment Maintenance and Repair Services, Pre-qualification of Vendors is approval to ratify the execution of the first option-to-renew period and approval to exercise subsequent option-to-renew periods for a contract that establishes a pool of pre-qualified vendors who are invited to quote for maintenance and repairs services for shop equipment and tools. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. The services purchased under this contract are used by the MDT Maintenance Division to repair tools used by maintenance technicians to maintain and repair the expanded revenue vehicles fleet and facilities. The expansion of the bus fleet, caused by the implementation of the People's Transportation Plan (PTP) has increased the need for these services. The retroactive amount being requested is **\$458,750**.

Item 6.2: Drafting Supplies is approval to ratify the execution of the initial three option-to-renew periods and approval to exercise subsequent option-to-renew periods for a contract to purchase drafting, art and engineering supplies for various

County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. The services and supplies purchased under this contract are used by the MDT Planning and Development Division for development of engineering drawings and presentations for capital improvements of existing and future development of transit and rail infrastructure as mandated by the People's Transportation Plan (PTP). The retroactive amount being requested is **\$2,145,936**.

Item 6.3: Microfilming Services is approval to ratify the execution of the second option-to-renew period and approval to exercise subsequent option-to-renew periods for a contract established for the purchase of microfilming services for various County departments. The retroactive amount being requested is **\$455,000**.

Item 6.4: Computer Equipment, Software and Related Services (IBM) is approval to ratify the execution of the initial option-to-renew period and approval to exercise subsequent option-to-renew periods for a contract for computer equipment, software and related services for various County departments. The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. As a result of the People's Transportation Plan (PTP), MDT has expanded Metrorail and Metromover services, thus increasing the need for IBM software and related services. The service expansion has resulted in additional maintenance and repair services for software components and support equipment. The retroactive amount being requested is **\$750,000**.

to form and legal sufficiency.

SECTION #1
AWARD OF COMPETITIVE BIDS

It is recommended that the Board of County Commissioners award item 1.1 to the extent that it may be funded by People's Transportation Plan (PTP) funds/proceeds from the Charter County Transit System Sales Surtax, and award Items 1.2, 1.3 and 1.4 to the bidder(s) meeting specifications. All items listed in this section were solicited through formal competitive bidding procedures.

Item 1.1

RECOMMENDATION

It is recommended that the Board of County Commissioners award an allocation for the Miami-Dade Transit (MDT) Department for the rental of shop towels with laundry services funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of People's Transportation Plan (PTP), the increased bus fleet and the hiring of additional bus maintenance staff has resulted in an increase in the usage of shop towels.

Contract No.: 7297-3/11

Contract Title: **Shop Towel Rental with Laundry Service**

Description: This contract is established for the purchase of shop towel rental with laundry service.

Term: One year, with three, one-year options-to-renew

Contract Amount: \$207,500 for the initial one-year term

**Using/Managing Agencies
and Funding Sources:**

Departments using PTP

<u>Funds</u>	<u>Allocation</u>	<u>Funding Source</u>
Transit	\$200,000	Operating Revenue and PTP Surtax

<u>Other Department</u>	<u>Allocation</u>	<u>Funding Source</u>
Park and Recreation	\$ 7,500	General Fund and Operating Revenue

Total: \$207,500

**Previous Contract
Allocation:** \$250,000 for a one-year term

Method of Award: To the responsive, responsible bidder who offers the lowest aggregate price.

Vendor:	Address	Principal
•Aramark Uniform & Career Apparel LLC (Non-local vendor)	115 North First Street Burbank, CA 91502	Robert S. Lane

Contract Measure: Small Business Enterprise (SBE) bid preference

Review Committee Date: February 14, 2007; Item#6-07

Local Preference: Applied in accordance with the ordinance.

Living Wage: The Living Wage Ordinance does not apply.

User Access Program (UAP): The contract includes the 2% User Access Program Provision. The program discount will be collected on all purchases.

Performance Data: There are no known performance issues.

Contract Managers: Lourdes Farley, Department of Procurement Management
Daryl Hurston, Miami-Dade Transit Department
Marie Valenti, Park and Recreation Department

Contract Effective Date: The contract is currently in effect. The purchase order formally adding the additional MDT allocation will become effective only after approval by the Board of County Commissioners and the Citizens' Independent Transportation Trust (CITT).

REASON FOR CHANGE

Proceeds from the Charter County Transit System Sales Surtax levied pursuant to Section 29.121 of the Code of Miami Dade County may be used to fund a part of the costs of this contract for the Miami-Dade Transit (MDT) Department. Consequently, the approval from the Board of County Commissioners and Citizens' Independent Transportation Trust are required prior to contract execution.

This contract provides for the rental of shop towels with laundry service for use in the MDT and Park and Recreation maintenance shops. MDT uses shop towels for Metrobus, Metromover, and Metrorail maintenance. The increased inventory of buses and the hiring of additional maintenance personnel have caused an increase in the usage of shop towels.

CONTRACT MANAGER(S): Km! Ra, Department of Procurement Management

This contract includes allocations for twelve departments.
Each department will designate a contract manager.

**ESTIMATED BID ISSUE
DATE:**

June 1, 2007

BACKGROUND

This contract will replace Contract No. 7549-2/07-2 which expires on May 31, 2007. Under the existing contract, various user departments procure the delivery of bulk LPG into existing storage tanks and the replacement of smaller LPG cylinders at several locations. This replacement solicitation was initially proposed for advertisement for an estimated contract value of \$278,500 for a one-year term and was scheduled to be awarded by mid-May 2007 under the County Manager's delegated authority.

Prior to advertisement, the Department of Procurement Management (DPM) determined that it would be in the best interest of the County to procure these services for a five (5) year term. Considering the volatile price fluctuations that have affected the petroleum industry in the past year, DPM made a business decision to solicit a contract for five years instead of one year with options to renew. The terms of the contract will allow DPM, after reviewing the Oil Price Information Service (OPIS) Reports, to adjust prices accordingly every one hundred and eighty (180) days.

Award of Contract No. 8233-0/12: Liquefied Petroleum Gas (LPG)
Page 3

Amerigas Eagle Propane LLP, the incumbent vendor, offered the lowest responsive responsible price for all groups and is being recommended for award. The Small Business Enterprise 10% bid preference and Local Preference were applied in accordance with the applicable ordinances at the time of bid evaluation but did not affect the outcome of the award. The User Access Program will apply to all purchases that are not federally funded.

The bid was advertised on the County's website and in four local newspapers: Diario Las Americas; Miami Times; Daily Business Review; and Haiti En Marche. A total of 17 announcements were issued, and 9 packages were downloaded from the County's website. Two bids were received, and one bidder is recommended for award. When a survey was conducted to determine why more bids were not submitted, vendors responded that after downloading the solicitation, they realized that they were not able to meet the requirements.

There is a thirteen percent (13%) increase in the unit price over the pricing in the current contract. This increase is considered reasonable given the volatile pricing in the petroleum industry which has seen increases of 10.6% for the month of March 2006 based on the monthly Oil Price Information Service (OPIS) Report. The bi-annual review of the OPIS report will allow pricing to be adjusted up or down according to market trends.

Please review the attached award recommendation and secure the Board's approval. If you would like additional information, please do not hesitate to contact me.

Item 1.4

RECOMMENDATION

It is recommended that the Board of County Commissioners award this contract for the Miami-Dade Transit Department (MDT) to purchase original equipment manufacturer (OEM) paint and automotive refinishing services funded by Operating Revenue and Surtax allocation formula as approved. This contract is used to purchase paints and painting accessories needed for refurbishing and refinishing services for MDT revenue fleet and service vehicles on an as needed basis. As a direct result of People's Transportation Plan (PTP), the increased bus fleet has resulted in an increase in the usage of Original Equipment Manufacturer (OEM) paint refurbishing and refinishing services for the Bus Maintenance Division.

Contract No.: 3469-4/12

Contract Title: **Original Equipment Manufacturer (OEM) Paint and Automotive Refinishing Services**

Description: This contract is established for the purchase of OEM paint and refinishing services for MDT's Bus Maintenance Division.

Term: One year, with four, one-year options-to-renew

Contract Amount: \$211,624 for the initial one-year term

Contract Managers: Lourdes Farley, Department of Procurement Management
Daryl Hurston, Miami-Dade Transit Department

Contract Effective Date: Upon approval by the Board of County Commissioners and the Citizens' Independent Transportation Trust (CITT).

REASON FOR CHANGE

Proceeds from the Charter County Transit System Sales Surtax levied pursuant to Section 29.121 of the Code of Miami Dade County may be used to fund a part of the costs of this contract for the Miami-Dade Transit Department (MDT). Consequently, the approval from the Board of County Commissioners and Citizens' Independent Transportation Trust are required prior to contract execution.

This contract provides OEM paint, automotive refinishing services and related items for MDT's Bus Maintenance Division. Only one bid was received for one of the three groups included in the solicitation. Pricing was negotiated with the sole bidder for Group A. Groups B and C will be subsequently re-bid after market research is conducted to determine availability of manufacturers to provide this commodity.

Contract Managers: Jose Sanchez, Department of Procurement Management

Mari Valenti, Park and Recreation Department

This contract includes allocation for seven departments. Each department has a designated Contract Manager.

**Contract Modification
Effective Date:**

Upon approval by the Board of County Commissioners and expiration of the mayoral veto period.

REASON FOR CHANGE

This modification is requested by the Park and Recreation Department (Parks) for tree canopy replacement throughout the Parks system. The adopted 2006-07 Resource Allocation Plan included a \$1.5 million dollar allocation each from the Capital Reserve Outlay Fund to the Parks and Recreation Department and the Public Works Department for the purchase and planting of new trees to restore the County's overall tree canopy to the level prior to the 2005 Hurricane Season.

The planting of the replacement tree canopy is required to take place during the current rainy season. The approval of this modification is required to provide Parks with spending authority to purchase and plant the replacement trees. The sites to be planted have been identified and planting plans are being prepared for these sites.

On March 20, 2007, the Board approved a contract modification for additional spending authority for Public Works Department to purchase trees for canopy replacement.

In addition to this project, this modification will also provide \$200,000 for budgeted projects funded by the General Fund which include Military Trail Park, Black Point Jetty, Eureka Villa Park, Tamiami Pool, Dade County Auditorium, Crandon Tennis Center and Crandon Golf Course.

Item 3.2

RECOMMENDATION

It is recommended that the Board of County Commissioners approve a modification to this contract for additional time and spending authority for the purchase of medium and heavy duty mobile equipment replacement parts and repair services for various County departments.

The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of the People's Transportation Plan (PTP), additional OEM replacement parts and service for medium and heavy duty trucks are required and utilized to provide direct support to MDT as a result of an increase in service. The parts and services are used to service vehicles utilized by bus technicians when a bus breaks down, support trucks utilized to escort disabled buses, delivery trucks utilized for delivery of parts to storerooms, and repair trucks utilized to repair the tracks and guideway system.

Contract Measure: This contract does not contain SBE measure because it was opened prior to the implementation of the Small Business Enterprise (SBE) Program.

Local Preference: Applied in accordance with the Local Preference Ordinance.

Living Wage: The Living Wage Ordinance does not apply.

User Access Program (UAP): This contract includes the User Access Program (UAP) provision. The 2% discount is being collected on all purchases.

Performance Data: There are no known performance issues.

Contract Managers: Pablo Martinez, Department of Procurement Management

This contract contains allocations for nine departments. Each department has a designated Contract Manager.

Contract Modification Effective Date: Upon approval by the Board of County Commissioners and expiration of the mayoral veto period. The allocation for MDT will become effective only after approval by the Citizens' Independent Transportation Trust (CITT).

REASON FOR CHANGE

Authorization is necessary for additional time and spending authority to provide original equipment manufacturer (OEM) mobile equipment replacement parts and service for trucks and major component equipment.

Various County departments access this contract for the purchase of replacement parts and accessories to perform routine maintenance and repair of County-owned medium to heavy-duty trucks, tractors, construction equipment, farm-type vehicles, on/off road equipment, fire rescue equipment and major component equipment to include heavy-duty specialized vehicles. Orders have been placed for replacement vehicles in many of these categories, however, this contract provides for the parts and maintenance services to maintain aging equipment in operational condition until the new equipment is received.

This contract modification extends the contract for a six-month period. This modification will increase the total contract value by \$1,963,726, which represents prorated funding for the six-month extension based on departmental expenditures.

This contract modification is necessary to issue a solicitation and complete the procurement process for a successor contract. The advertisement was approved by the Board on June 26, 2007.

Item 3.3

RECOMMENDATION

It is recommended that the Board of County Commissioners approve a modification to this contract for the purchase of dealer original equipment manufacturer (OEM) parts and repair services for various County departments.

The previous allocation for Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. As a direct result of the People's Transportation Plan (PTP), additional original equipment manufacturer (OEM) replacement parts and service for medium and heavy duty trucks are required and utilized to provide direct support to MDT as a result of an increase in service. The parts and services are used to service vehicles utilized by bus technicians when a bus breaks down, support trucks utilized to escort disabled buses, delivery trucks utilized for delivery of parts to storerooms, and repair trucks utilized to repair the tracks and guideway system.

BACKGROUND

Authorization is requested to modify this contract to allow departments continued access to the State of Florida contract for the purchase and lease of mail processing equipment for the remainder of the three-year term.

This contract allows County departments to access the state contract for the purchase and lease of mail processing equipment to include postage meters, service and accessories. The state contract was competitively bid through a Request for Proposals process and awarded to the highest ranked proposer with an annual allocation of \$5,000,000. The state's solicitation included the upgrade of currently owned/leased mailing equipment to reflect the recent increased the United States Postal Service rates effective May 14, 2007.

This award will give the user departments sufficient allocations to allow them to access the contract for the remainder of its three-year term. These allocations were determined after reviewing the department's usage when accessing the previous state contract.

Item 4.2

RECOMMENDATION

It is recommended that the Board of County Commissioners approve access to Contract No. 550-001-03-1 awarded by the State of Florida. This contract is for the purchase of digital traffic controllers, loop vehicle detectors, signal heads and auxiliaries for the Public Works Department (PWD) that are to be funded with proceeds from the Charter County Transit Systems Sales Surtax. As a direct result of People's Transportation Plan (PTP), the upgrade of the County's traffic signalization system was approved by the Board on July 9, 2002 and is listed as the first project under the Major Highway and Road Improvements category in Exhibit 1 of the PTP Ordinance No. 02-116.

Contract Effective Date: Upon approval by the Board of County Commissioners and the Citizens' Independent Transportation Trust (CITT).

BACKGROUND

Authorization is necessary to access the State of Florida contract to allow the Public Works Department (PWD) to purchase digital traffic signals and signs equipment. The equipment to be purchased under this contract will be used in the implementation of the Advanced Traffic Management System (ATMS) project pursuant to Resolution R-172-05 as approved by the Board on February 1, 2005. Upgrading the County's traffic signalization system is one of the major initiatives approved under the People's Transportation Plan (PTP) and is listed as the first project under the Major Highway and Road Improvements category in Exhibit 1 of the PTP Ordinance No. 02-116. This will improve the operations of signalized intersections, synchronization of traffic signals and overall traffic safety at intersections.

The County's current contract for the purchase of this equipment will expire March 11, 2008. Of the \$1.3 million allocated, \$1 million has been spent to purchase equipment for the ATMS project. Funding in the amount of \$300,000 is being reserved for emergency situations.

Staff conducted market research and identified a State of Florida contract established under full and open competition. It was determined that a seven percent overall savings could be realized by purchasing the equipment from the state contract as compared to the current County contract. This equipment must be purchased prior to the contract's expiration date of August 17, 2007 as there will be a mark-up of 21 percent for the subsequent renewal period. PWD is currently developing a new set of specifications for the successor contract.

Proceeds from the Charter County Transit System Sales Surtax levied pursuant to Section 29.121 of the Code of Miami Dade County may be used to fund a part of the costs of this contract for PWD. Consequently, the approval from the Board of County Commissioners and Citizens' Independent Transportation Trust are required prior to contract execution.

Item 4.3

RECOMMENDATION

It is recommended that the Board of County Commissioners approve a modification for an additional allocation on the U.S. Communities sponsored, competitively awarded contract with GTSI Corp. The increased allocation will provide the Miami-Dade Aviation Department (MDAD) information technology related equipment and services to upgrade the closed circuit television (CCTV) system at Miami International Airport (MIA).

Contract No.: RQ03-605674-16A-1

REASON FOR CHANGE

Additional spending authority is requested to provide the Miami-Dade Aviation Department (MDAD) with the required technology-related equipment and services to upgrade the existing Closed Circuit Television (CCTV) System at Miami International Airport (MIA).

MDAD has previously utilized this contract, with approval from the Board, pursuant to Resolution R-1386-04 to fulfill another security related project, also funded by a Transport Security Administration (TSA) Cooperative Agreement Research Grant. This project evaluated the use of smart video surveillance to enhance perimeter security and access controls at MIA. Additionally, this grant provided for the installation of intelligent video technology in select areas of the airport perimeter.

This new contract allocation request will provide MDAD an opportunity to improve security systems at MIA at no net cost to the County. TSA has offered MDAD \$2,712,701 by way of an Other Transaction Agreement (OTA) grant to enhance the CCTV System at MIA. The term of the TSA grant is one year, set to expire on August 31, 2008, therefore, the entire project must be completed prior to that date. In order to meet this deadline, the notice to proceed must be granted as soon as possible. Delaying this project could cause MDAD to lose this critical security funding grant.

Under the TSA grant, MDAD is obligated to use allocated funds to design, procure, install and integrate approximately 135 CCTVs and all associated network and recording equipment within the 12-month period. To accomplish this project within the term of agreement, MDAD is requesting the ability to access GTSI's competitively bid contract with Fairfax, VA under the U.S. Communities

Program. GTSI provided quotes from three approved sub-contractors for this project. Quotes were benchmarked to the Federal GSA contract where applicable. Additionally, a detailed at-risk engineering assessment of the proposals was completed in order to ensure MDAD was being provided a technically sound and best value solution. MDAD will own, operate and maintain the system utilizing in-house resources.

TSA will provide 100 percent funding of the project, not to exceed \$2,712,701. MDAD is not required to contribute funds beyond the funding contributed by the TSA. All equipment acquired by MDAD in the performance of the agreement shall be the property of Miami-Dade County.

Item 4.4

RECOMMENDATION

It is recommended that the Board of County Commissioners approve a modification for an additional allocation on a competitively awarded State of Florida contract for Telecommunications Systems - Private Automated Branch Exchange Services (PABX) for the Enterprise Technology Services (ETSD) and Miami-Dade Fire Rescue (MDFR) Departments.

The previous allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. MDT has expanded Metrorail and Metromover services, thus increasing software, services and telecommunications infrastructure support systems. The service expansion has resulted in additional maintenance and repair services for software components and support equipment as a result of the People's Transportation Plan (PTP) implementation.

Contract No.: 730-750-99-1

Contract Title: **Telecommunications Systems - Private Automated Branch Exchange (PABX)**

Description: This contract provides the required network infrastructure support, PABX switch equipment, peripherals and accessories required for the computerized telecommunications systems utilized by multiple County facilities.

REASON FOR CHANGE

Additional spending authority is requested to continue to provide the required network infrastructure support, Private Automated Branch Exchange (PABX) telecommunication switch equipment, peripherals and accessories for computerized telecommunications systems utilized by multiple County facilities.

Access to this contract was approved by the Board of County Commissioners (Board) on May 25, 1999. The item also included language to extend this contract on an annual basis in parallel to such action by the State. Outside of a standard contract provision for proration during the 2004-05 extension, requests for additional funding have required additional Board authority.

This contract is essential for Enterprise Technology Services (ETSD) to support the day to day PABX telecommunication needs of the Stephen P. Clark Center and the Miami-Dade County Police Department. The allocation increase will be used by ETSD to maintain the Siemens PBX systems.

Additionally, this contract supports AVAYA telecommunication equipment utilized by Miami-Dade Fire Rescue (MDFR), the County's 311 systems and facilitates the integration to County's Emergency Operations Center (EOC) command post, as well as other County telecommunication infrastructure needs.

Item 5.2

RECOMMENDATION

It is recommended that the Board of County Commissioners authorize the Option-to-Renew (OTR) periods for this competitively bid contract to purchase original equipment manufacturer (OEM) parts and repair services for lawn equipment for various County departments. The current contract term expires on September 30, 2007. Exercising the OTR periods will bring the cumulative value of the contract over \$1 million for a total value of \$5,127,500.

The allocation for the Miami-Dade Transit (MDT) Department will be funded by Operating Revenue and Surtax allocation formula as approved. The services, replacement parts and supplies purchased under this contract are used by MDT maintenance division for repair and replacement of lawn maintenance equipment needed as part of the overall rail station cleaning and maintenance work. As a direct result of People's Transportation Plan (PTP), miles, hours of operation and ridership have increased. This increase has resulted in additional use of lawn cleaning and maintenance equipment and more frequent rail station maintenance work.

SECTION #6
REQUESTS FOR RETROACTIVE APPROVAL FOR THE EXECUTION OF THE OPTION-TO-RENEW (OTR) PERIODS UNDER EXISTING COMPETITIVE CONTRACTS THAT WOULD BRING THE CUMULATIVE CONTRACT VALUE TO MORE THAN \$1 MILLION

Item 6.1

RECOMMENDATION

It is recommended that the Board of County Commissioners to ratify the execution of the first Option-to-Renew (OTR) period and approval to exercise subsequent OTR periods for this competitively bid contract to purchase maintenance and repair services for shop equipment and tools for various County departments. The current contract term expires on June 30, 2007. Exercising the OTR periods will bring the cumulative value of the contract over \$1 million for a total value of \$2,293,750.

The allocation for the Miami-Dade Transit (MDT) Department is funded by Operating Revenue and Surtax allocation formula as approved. The services purchased under this contract are used by the MDT Maintenance Division to repair tools used by maintenance technicians to maintain and repair the expanded revenue vehicles fleet and facilities. The expansion of the bus fleet, caused by the implementation of the People's Transportation Plan (PTP) has increased the need for these services.
